14TH YEAR. NO. 133.

EAST LIVERPOOL, O. SATURDAY, NOV. 12, 1898.

TWO CENTS

TO PROTECT TOLBERT.

The Government Will Not Allow Any Interference.

THE RIOTS TO BE INVESTIGATED.

South Carolinians, Who Shot Members of the Family, Likely to Be Brought to Justice—R. R. Tolbert's Story—He Saw the President and Griggs.

WASHINGTON, Nov. 12.—R. R. Tolbert, whose father and brother were shot in the recent race war at Phoenix, S. C., was at the department of justice to secure an investigation of the riot by the federal authorities. He was accompanied by some of the Republican politicians of the state. The elder Tolbert is now in the state penitentiary for safety from popular violence.

Mr. Tolbert says that the true facts of the rioting have not been given.

He was nominated for congress by the Republicans of his district. For the purpose of making a contest before the house his brother, T. J. Tolbert, was at the polling place at Phoenix for the purpose of witnessing the affidavits of colored men who were rejected as voters because of their inability to comply with the requirements of the constitution. He deposited the affidavits in a box.

Mr. Etheridge, the white man who was killed, was an election manager at a precinct two miles away. He, with a party of men, went to Phoenix, walked up with his party to where Tolbert's brother was sitting at a table and deliberately kicked over the table and box in which were put the certificates. Then he assaulted Tolbert's brother. In a short while the Democratic voters rushed out and commenced shooting into the crowd. The negroes fled.

Mr. Tolbert said that he was at Abbeville, 25 miles away. His father, J. R. Tolbert, was at Verdry, another precinct. When the elder Tolbert learned of the riot he started to the scene in his buggy, accompanied by a little 10-year-old nephew. He was met by a mob, which riddled the buggy with bullets and wounded him and the little boy a number of times. It is said the boy was killed by the shots.

T. P. Tolbert was aided to his home. While lying in bed in a dying condition the mob attempted to make him give the name of the person who had killed Etheridge. He said he could not because Etheridge had been killed by the Democrats themselves.

On finding his father so badly wounded, Mr. R. R. Tolbert procured a doctor, who attended to the wounds of the senior Tolbert. After placing his family in a safe place, Mr. Tolbert came on to this city.

"Mr. Tolbert stated that his brother was unarmed and said that so far as he could see no shots were fired by the negroes at Phoenix.

Mr. Tolbert, accompanied by Solicitor General Richards of the department of justice, called at the White House and had an extended interview with President McKinley. He related to the president the story of his experience in South Carolina substantially as given above, entering into minute details of the trouble on election day. The president listened attentively to the recital, but gave no indication of what action, if any, might be taken. However, he requested Mr. Tolbert to see the attorney general and make to him a full statement of the situation as he viewed it, which Mr. Tolbert did.

Attorney Griggs spent sometime with the president, but so far as could be ascertained, no decision of the question presented by Mr. Tolbert was reached.

The department of justice has taken steps to obtain official information bearing upon the trouble in South Carolina. Steps have been taken to afford ample protection to the elder Tolbert, who is collector of customs at the port of Charleston. It is said that, as a government officer in the exercise of his individual rights and in the performance of his official duties, the federal government will not permit him to be interfered with. A prominent official of the administration said:

"Collector Tolbert's rights will be maintained, even though an effort be made under the guise of law to trench upon them."

LIMA PEOPLE PROTEST.

Disapprove of Monnett's Suit Against the Oil Companies—Millions Paid Out There Annually.

LIMA, Nov. 12.—The investigation of the Buckeye Pipe Line company began here. Attorney General Monnett is trying to oust the company from the state, on the ground that it is part of the Standard Oil trust.

The Solar Refining company will also be investigated. A public meeting was held here to show the disapproval of the citizens of the action, as the company pays out millions of dollars here annually.

MASON OF OHIO PROMOTED.

WASHINGTON, Nov. 12.—There was some discussion of appointments to consular positions and two appointments were decided upon at the cabinet meeting. Frank Mason of Ohio, who has been consul at Frankfort, Germany,

won during the present administration and the Harrison administration, has been selected to succeed to the vacant consul generalship at Berlin, caused by the death of Julius Goldsmith, and Richard Guenther of Wisconsin is to succeed Mason at Frankfort.

A CHEAP RAILROAD RATE.

TOLEDO, Nov. 12.—As a result of the Pennsylvania and Hocking Valley's fight on the Ohio Central excursions from Columbus to Chicago, Moulton Honk, general passenger agent of the Ohio Central, established a \$3 round trip rate to Chicago from Columbus. Mr. Honk said it was a fight to a finish. The Ohio Central is not a member of the Central Passenger association.

Colonel Dick's Majority.

AKRON, Nov. 12.—The official count of Summit county was concluded and gives Kinney a plurality of 1,449. Blackburn's is 705 and the Republican county ticket was elected by majorities ranging from 69 to 3,625. Colonel Dick's plurality for congress was 1,716. His majority in the district will be about 200 short of 11,000.

THE AIRBRAKES FAILED.

Cause of the Awful Wreck on the Lehigh Valley Railroad—Five Trainmen Killed and Five Injured.

WILKESBARRE, Pa., Nov. 12.—Two passenger trains were wrecked, five trainmen killed and five injured by a head-on collision on the Lehigh Valley railway, nine miles east of this city. The names of the killed are:

John McNally, engineer, Lehighton; William Toxheimer, fireman, White Haven; Fred Glasser, fireman, Mauch Chunk; John McGregor, express messenger, Wilkesbarre; Jacob Engleman, brakeman, Mauch Chunk; A. G. Boyle, Mauch Chunk, baggage master, slightly injured.

The express bound from New York to Buffalo reached White Haven station a little over an hour late. She got orders at Fairview, on top of the mountain, to stop and go in on siding No. 7 for the Buffalo express bound east to pass. The track is a single one. Engineer Rohlfing was unable to stop at the siding. The airbrakes failed to work. He reversed the engine and whistled for air-brakes, but the momentum was too great to make a quick stop, and his train and the other train coming up the grade pulled by two engines crashed into each other.

The engines were wrecked and the baggage, mail and express cars piled up on them. The collision occurred in a deep rock cut, and the baggage and other cars saved the passenger coaches from being wrecked. The express and mail cars were smashed into kindling wood, and the baggage and mail matter scattered all over the tracks. The passengers, most of whom were asleep, were aroused by the shock, but none were injured.

NEGROES CAUSING TERROR.

Non-Union Miners Fired at White Men and Into Houses in Illinois.

PANA, Ills., Nov. 12.—Troop B of Bloomington remains on duty here, but almost nightly in the "Flat hall" district the negro residents have practiced shooting at any white man that passed. The negroes have been heavily armed by the mine operators. The residences of several white miners were shot into by Winchesters in the hands of the colored men. A white widow's cottage was pierced repeatedly by bullets, several charges barely missing her three children.

The white militia say they cannot apprehend the culprits. Captain Battler, when asked to disarm the negroes, said it was useless for the sheriff would arm them again. It is reported that a large contingent of outside union white miners will soon arrive in Pana. A consignment of 100 rifles was received here by citizens, who intend to protect their property.

CHANCE TO SEND GIFTS.

Those Who Have Friends in Manila Are Given an Opportunity.

WASHINGTON, Nov. 12.—The 17th of the present month will be the last date upon which the folks at home may send Christmas presents to the soldiers in Manila through government agency.

The quartermaster's department has chartered a steamer, which will leave San Francisco on that date, and this will be the last steamer to reach Manila before Christmas.

Persons wishing to forward goods to friends in the army at Manila must cause the same to be delivered free of charges to the depot quartermaster at San Francisco properly directed.

Havana Patrolled by Troops.

HAVANA, Nov. 12.—Following the example of the third company, part of the first and fourth companies of the orden publico (police) have demanded their pay, now several months overdue. As a result of this regular Spanish troops are now quartered in the streets and General Arolas, at the head of two battalions, has been patrolling the main thoroughfares. The city is quiet.

Soldiers' Society Incorporated.

FORTKNOPF, Ky., Nov. 12.—Service men of the Spanish war, "a society of the late war," was incorporated here by filing articles with the secretary of state.

SHUN THE PHILIPPINES

Gratuitous Advice From Spain's Great Financier.

WOULD HAVE TO CONQUER NATIVES

Ruinous War Predicted, Which Would Cost Us Many Lives and Money and Ruin Business—Other Nations Would Have Excuse to Interfere.

PARIS, Nov. 12.—Marquis de Comillas, the strongest individual factor in Spain's financial and commercial world, who is now in this city, made a statement to the correspondent of The Associated Press of his personal views regarding the Hispano-American situation.

Dewey's victory having served its strategic purpose, he could not see what the Americans wanted with the Philippines. Further along he said:

"The Americans are absolute strangers to the Philippines and their population. They are unprovided with the immediate organization necessary to rule that extensive and remote territory and to exercise authority there. The Filipinos have a certain degree of culture and some rudimentary ideas as to public administration, but, as a whole, the country is not yet capable of self-government.

"The cession of sovereignty over the Philippines to the United States would be disastrous to all those having business interests there, as well for the natives as for the Spaniards and for Europeans of every nationality. Spain cannot transfer her Philippine sovereignty to the United States by a mere clause in a peace treaty. The United States would be confronted with a war for the subjugation of 8,000,000 Malaysans. This would mean the destruction of all property in the Philippines. Trade and commerce would be paralyzed there. The merchants and manufacturers of Spain would lose the markets they now enjoy, their factories would suspend and their employees lie idle. The markets for their products would have vanished.

"But the United States would not gain these markets. At least they would gain them only by fire and sword."

Some of these natives, he said, would declare independence immediately, once their ties with Spain were broken.

Others already risen against Spain, having hopes of independence, which the United States has raised in them, would tend to become the bitterest enemies of the United States.

He further said: "To make this clear I need only point to the relationship between their armed forces and those of the United States, as shown in the bloody conflict that took place between them at Cavite."

The result of all this would, he said, be a war of subjugation, which would be very costly in men as well as money for the United States, a war of desolation and ruin for the Philippines and their inhabitants; a war which would give to one or several powers humanitarian arguments that would justify their intervention for reasons similar to those that caused American intervention in Cuba.

MISS WILLARD'S MEMORY.

The W. C. T. U. Did the Dead Woman Great Honor—Some of the Reports Made.

ST. PAUL, Nov. 12.—The two most prominent ideas on the opening day of the opening day of the annual convention of the National Woman's Christian Temperance Union were reverence for the memory of the departed leader, Miss Willard, and a reviving of the spirit and history of the original crusaders of 1874. It was the anniversary of the latter and Miss Willard's memory was honored in many ways.

The report of the corresponding secretary, Miss Katherine Lent Stevenson, said in part:

"The temple has, in one form or another, been the chief object of work at national headquarters during the year.

"Organizing has been done in 14 misionary states and territories. In addition, the state officers in the majority of states have vigorously pushed an increase of membership.

"Seven states have made a gain of 500 or more. These are Minnesota, Ohio, Texas, North Dakota, Kansas, California and Indiana, which leads the van with a net gain of more than 1,000. If only these gains had not been offset by losses in other states what a brave we should have today.

"The chief trouble this year, as every other, lies in the fact that dues have not been promptly paid. Despite all hindrances, however, there is a net gain in our entire membership larger than for several years.

"Work for the soldiers has formed a most important part of this year's record."

The honor roll, she said, will be discontinued, and "we trust some more successful plan may be discovered. The total number of new members recorded in honor roll is 6,000, of which 4,760 have been secured by women, 380 by men. Number of names enrolled as having secured ten new members 121." The annual report of the treasurer,

Helen M. Barker, showed receipts of \$34,297 and expenditures of \$23,207, the balance on hand being \$1,089.

VICTIMS OF FEVER.

Colonel Williams and One of His Clerks Died of the Yellow Scourge in Havana.

WASHINGTON, Nov. 12.—Colonel Williams took with him to Havana two clerks who had served with him at Jeffersonville, and they were also stricken down with the yellow fever about the same time that he was. Word was received at the office of the quartermaster general that one of them—Stewart by name—died shortly after Colonel Williams breathed his last. As nothing was said as to the condition of the other clerk, whose name is Colwell, it is assumed that he is still alive.

Adjutant General Corbin received a message from General Wade, chairman of the Cuban evacuation commission at Havana, announcing the death from yellow fever of Lieutenant Colonel Charles W. Williams (not W. A. Williams), deputy quartermaster general.

Mrs. Williams and family are now in Washington. She is a daughter of General John B. Gordon of Georgia.

TWO DEATHS IN PORTO RICO.

General Wood Gave 1777 as Number of Sick at Santiago.

WASHINGTON, Nov. 12.—General Wood's health report from Santiago shows a sick list of 1,176; fever of all kinds, 617.

General Brooke reports from Ponce the following deaths: Private Charles Cummings, Company H, Third Wisconsin; Civilian Carpenter, quartermaster's department, Max Weigel, both typhoid.

MAY LOSE THE TERESA.

British Admiralty Authorities, It Is Said, Will Seize the Warship as a Derelict.

NASSAU, N. P., Nov. 12.—The British admiralty authorities here are going to take possession of the Maria Teresa as a derelict. The American consul has protested against this course, claiming everything less the salvage.

The steamer Antillia is leaving here for Cat island, with customs officers and police on board.

Opinions differ as to the chance of saving the cruiser. Although she has been aground since Thursday, the Maria Teresa rests in an easy position and the weather is moderate.

TALK OF SALVAGE ON TERESA.

May Not Be Worth Saving—Court of Inquiry to Be Held.

WASHINGTON, Nov. 12.—The legal status of the Maria Teresa has been considered cursorily and in the opinion of the navy department the title of the United States to her is unimpaired, notwithstanding the fact that it was necessary to abandon her for a time. There may be some question involved as to the payment of salvage to the Bahamas fishermen, if they are entitled to any.

From the account received it is feared the damage to the vessel sustained through the storm and the probable pounding upon the coral reefs outlying Cat island, added to the wounds received by the ship in action when she sank originally are sufficient to render her entirely valueless. Nothing but an expert's examination can determine this point, but as the Merritt experts are already on their way to Cat island that question will soon be decided.

The navy department has decided a court of inquiry shall be held to decide whether the abandonment of the Teresa at sea was justifiable and if not who was responsible.

ANOTHER NEGRO SHOT.

Several White Men Sent Out of Wilmington, N. C., For Fear of Violence Being Done Them.

WILMINGTON, N. C., Nov. 12.—Guards shot an unruly negro in a negro slum of the city. A sensation was created by the capture of J. R. Melton, late chief of police, by a crowd of rough riders, who would have committed violence had not the military interfered, and Melton, R. H. Bunting, Republican justice of the peace, and C. H. Gilbert, ex-fusion policeman, all of whom were in danger of severe treatment by red-shirts, were escorted to the depot and sent out of town. Acting Sheriff G. Z. French left the city Thursday night. Eight negroes in the county jail, whom the "redshirts" and "rough riders" had threatened to lynch, were sent to Goldsboro for safe keeping. These were arrested during the rioting Thursday.

The city is now under thorough military and police protection and there is every indication that no further outbreaks are expected.

Fugitives from Wilmington.

NEWBERN, N. C., Nov. 12.—The men sent away from Wilmington came here and were asked to leave. They left by boat for Elizabeth City, and it is believed they will not be allowed to land.

Tolbert Warned to Leave.

COLUMBIA, S. C., Nov. 12.—Notice was given James Tolbert and family to leave the county. A band of white men left to tell his brother-in-law to leave.

CRUELTY TO DREYFUS.

Wife Not Allowed to Cable the Court's Decision.

A PITIFUL LETTER READ TO HER.

Her Husband Wrote That, Discouraged by Appeals for Revision, He Would Write No More to His Family or Anybody—Was Ill and Dying.

PARIS, Nov. 12.—Madame Dreyfus, it is said, applied at the office of the colonial minister for permission to send her husband some warm clothing for his return home. Her request was refused on the ground that the government would do whatever was necessary.

At the same time the authorities read to her a letter from her husband to the effect that having for five months addressed appeals for a revision to General De Boisdeffre without getting any reply, and being wearied and exhausted by his useless appeals, he would write no more to his family or

TO PROTECT TOLBERT.

The Government Will Not Allow Any Interference.

THE RIOTS TO BE INVESTIGATED.

South Carolinians Who Shot Members of the Family, Likely to Be Brought to Justice—R. R. Tolbert's Story—He Saw the President and Griggs.

WASHINGTON, Nov. 12.—R. R. Tolbert, whose father and brother were shot in the recent race war at Phoenix, S. C., was at the department of justice to secure an investigation of the riot by the federal authorities. He was accompanied by some of the Republican politicians of the state. The elder Tolbert is now in the state penitentiary for safety from popular violence.

Mr. Tolbert says that the true facts of the rioting have not been given.

He was nominated for congress by the Republicans of his district. For the purpose of making a contest before the house his brother, T. J. Tolbert, was at the polling place at Phoenix for the purpose of witnessing the affidavits of colored men who were rejected as voters because of their inability to comply with the requirements of the constitution. He deposited the affidavits in a box.

Mr. Etheridge, the white man who was killed, was an election manager at a precinct two miles away. He, with a party of men, went to Phoenix, walked up with his party to where Tolbert's brother was sitting at a table and deliberately kicked over the table and box in which were put the certificates. Then he assaulted Tolbert's brother. In a short while the Democratic voters rushed out and commenced shooting into the crowd. The negroes fled.

Mr. Tolbert said that he was at Abbeville, 25 miles away. His father, J. R. Tolbert, was at Verdry, another precinct. When the elder Tolbert learned of the riot he started to the scene in his buggy, accompanied by a little 10-year-old nephew. He was met by a mob, which riddled the buggy with bullets and wounded him and the little boy a number of times. It is said the boy was killed by the shots.

T. P. Tolbert was aided to his home. While lying in bed in a dying condition the mob attempted to make him give the name of the person who had killed Etheridge. He said he could not because Etheridge had been killed by the Democrats themselves.

On finding his father so badly wounded, Mr. R. R. Tolbert procured a doctor, who attended to the wounds of the senior Tolbert. After placing his family in a safe place, Mr. Tolbert came on to this city.

"Mr. Tolbert stated that his brother was unarmed and said that so far as he could see no shots were fired by the negroes at Phoenix.

Mr. Tolbert, accompanied by Solicitor General Richards of the department of justice, called at the White House and had an extended interview with President McKinley. He related to the president the story of his experience in South Carolina substantially as given above, entering into minute details of the trouble on election day. The president listened attentively to the recital, but gave no indication of what action, if any, might be taken. However, he requested Mr. Tolbert to see the attorney general and make to him a full statement of the situation as he viewed it, which Mr. Tolbert did.

Attorney Griggs spent some time with the president, but so far as could be ascertained, no decision of the question presented by Mr. Tolbert was reached.

The department of justice has taken steps to obtain official information bearing upon the trouble in South Carolina. Steps have been taken to afford ample protection to the elder Tolbert, who is collector of customs at the port of Charleston. It is said that, as a government officer in the exercise of his individual rights and in the performance of his official duties, the federal government will not permit him to be interfered with. A prominent official of the administration said:

"Collector Tolbert's rights will be maintained, even though an effort be made under the guise of law to trench upon them."

LIMA PEOPLE PROTEST.

Disapprove of Monnett's Suit Against the Oil Companies—Millions Paid Out There Annually.

LIMA, Nov. 12.—The investigation of the Buckeye Pipe Line company began here. Attorney General Monnett is trying to oust the company from the state, on the ground that it is part of the Standard Oil trust.

The Solar Refining company will also be investigated. A public meeting was held here to show the disapproval of the citizens of the action, as the company pays out millions of dollars here annually.

Mason of Ohio Promoted.

WASHINGTON, Nov. 12.—There was some discussion of appointments to consular positions and two appointments were decided upon at the cabinet meeting. Frank Mason of Ohio, who has been consul at Frankfort, Germany,

both during the present administration and the Harrison administration, has been selected to succeed to the vacant consul generalship at Berlin, caused by the death of Julius Goldsmith, and Richard Guenther of Wisconsin is to succeed Mason at Frankfort.

A Cheap Railroad Rate.

TOLEDO, Nov. 12.—As a result of the Pennsylvania and Hocking Valley's fight on the Ohio Central excursions from Columbus to Chicago, Moulton Houk, general passenger agent of the Ohio Central, established a \$3 round trip rate to Chicago from Columbus. Mr. Houk said it was a fight to a finish. The Ohio Central is not a member of the Central Passenger association.

Colonel Dick's Majority.

AKRON, Nov. 12.—The official count of Summit county was concluded and gives Kinney a plurality of 1,449. Blackburn's is 705 and the Republican county ticket was elected by majorities ranging from 69 to 3,625. Colonel Dick's plurality for congress was 1,716. His majority in the district will be about 200 short of 11,000.

THE AIRBRAKES FAILED.

Cause of the Awful Wreck on the Lehigh Valley Railroad—Five Trainmen Killed and Five Injured.

WILKESBARRE, Pa., Nov. 12.—Two passenger trains were wrecked, five trainmen killed and five injured by a head-on collision on the Lehigh Valley railway, nine miles east of this city. The names of the killed are:

John McNally, engineer, Lehighton; William Toxheimer, fireman, White Haven; Fred Glasser, fireman, Mauch Chunk; John McClellan, express messenger, Wilkesbarre; Jacob Engleman, brakeman, Easton.

Injured: D. E. Price, engineer, Easton; John Bonning, engineer, East Mauch Chunk; Charles H. Morgan, express messenger, Waverly; John Schoenfeldt, brakeman, Mauch Chunk; A. G. Boyle; Mauch Chunk, baggage master, slightly injured.

The express bound from New York to Buffalo reached White Haven station a little over an hour late. She got orders at Fairview, on top of the mountain, to stop and go on in siding No. 7 for the Buffalo express bound east to pass. The track is a single one. Engineer Rohrlich was unable to stop at the siding. The airbrakes failed to work. He reversed the engine and whistled for airbrakes, but the momentum was too great to make a quick stop, and his train and the other train coming up the grade pulled by two engines crashed into each other.

The engines were wrecked and the baggage, mail and express cars piled up on them. The collision occurred in a deep rock cut, and the baggage and other cars saved the passenger coaches from being wrecked. The express and mail cars were smashed into kindlingwood, and the baggage and mail matter scattered all over the tracks. The passengers, most of whom were asleep, were aroused by the shock, but none were injured.

NEGROES CAUSING TERROR.

Non-Union Miners Fired at White Men and Into Houses in Illinois.

PANA, Ills., Nov. 12.—Troop B of Bloomington remains on duty here, but almost nightly in the "Flat hall" district the negro residents have practiced shooting at any white man that passed. The negroes have been heavily armed by the mine operators. The residences of several white miners were shot into by Winchesters in the hands of the colored men. A white widow's cottage was pierced repeatedly by bullets, several charges barely missing her three children.

The white militia say they cannot apprehend the culprits. Captain Butler, when asked to disarm the negroes, said it was useless for the sheriff would arm them again.

It is reported that a large contingent of outside union white miners will soon arrive in Pana. A consignment of 100 rifles was received by citizens, who intend to protect their property.

CHANCE TO SEND GIFTS.

Those Who Have Friends in Manila Are Given an Opportunity.

WASHINGTON, Nov. 12.—The 17th of the present month will be the last date upon which the folks at home may send Christmas presents to the soldiers in Manila through government agency. The quartermaster's department has chartered a steamer, which will leave San Francisco on that date, and this will be the last steamer to reach Manila before Christmas.

MISS WILLARD'S MEMORY.

The W. C. T. U. Did the Dead Woman Great Honor—Some of the Reports Made.

ST. PAUL, Nov. 12.—The two most prominent ideas on the opening day of the annual convention of the National Woman's Christian Temperance union were reverence for the memory of the departed leader, Miss Willard, and a reviving of the spirit and history of the original crusaders of 1874. It was the anniversary of the latter and Miss Willard's memory was honored in many ways.

The report of the corresponding secretary, Miss Katherine Lent Stevenson, said in part:

"The temple has, in one form or another, been the chief object of work at national headquarters during the year.

"Organizing has been done in 14 missionary states and territories. In addition, the state officers in the majority of states have vigorously pushed an increase of membership.

"Seven states have made a gain of 500 or more. These are Minnesota, Ohio, Texas, North Dakota, Kansas, California and Indiana, which leads the van with a net gain of more than 1,000. If only these gains had not been offset by losses in other states what a brave showing we should have today.

"The chief trouble this year, as every other, lies in the fact that dues have not been promptly paid. Despite all hindrance, however, there is a net gain in our entire membership larger than for several years.

"Work for the soldiers has formed a most important part of this year's record."

The honor roll, she said, will be discontinued, and "we trust some more successful plan may be discovered. The total number of new members recorded in honor roll is 6,000, of which 4,760 have been secured by women, 380 by men. Number of names enrolled as having secured ten new members 121."

The annual report of the treasurer.

Helen M. Barker, showed receipts of \$24,297 and expenditures of \$23,207, the balance on hand being \$1,089.

VICTIMS OF FEVER.

Colonel Williams and One of His Clerks Died of the Yellow Scurvy in Havana.

WASHINGTON, Nov. 12.—Colonel Williams took with him to Havana two clerks who had served with him at Jeffersonville, and they were also stricken down with the yellow fever about the same time that he was. Word was received at the office of the quartermaster general that one of them—Stewart by name—died shortly after Colonel Williams breathed his last. As nothing was said as to the condition of the other clerk, whose name is Colwell, it is assumed that he is still alive.

Adjutant General Corbin received a message from General Wade, chairman of the Cuban evacuation commission at Havana, announcing the death from yellow fever of Lieutenant Colonel Charles W. Williams (not W. A. Williams), deputy quartermaster general.

Mrs. Williams and family are now in Washington. She is a daughter of General John B. Gordon of Georgia.

TWO DEATHS IN PORTO RICO.

General Wood Gave 1777 as Number of Sick at Santiago.

WASHINGTON, Nov. 12.—General Wood's health report from Santiago shows a sick list of 1,176; fever of all kinds, 617.

General Brooke reports from Ponce the following deaths: Private Charles Cummings, Company H, Third Wisconsin; Civilian Carpenter, quartermaster's department, Max Weigel, both typhoid.

MAY LOSE THE TERESA.

British Admiralty Authorities, It Is Said, Will Seize the Warship as a Derelict.

NASSAU, N. P., Nov. 12.—The British admiralty authorities here are going to take possession of the Maria Teresa as a derelict. The American consul has protested against this course, claiming everything less the salvage.

The steamer Antillia is leaving here for Cat island, with customs officers and police on board.

Opinions differ as to the chance of saving the cruiser. Although she has been aground since Thursday, the Maria Teresa rests in an easy position and the weather is moderate.

TALK OF SALVAGE ON TERESA.

May Not Be Worth Saving—Court of Inquiry to Be Held.

WASHINGTON, Nov. 12.—The legal status of the Maria Teresa has been considered cursorily and in the opinion of the navy department the title of the United States to her is unimpaired, notwithstanding the fact that it was necessary to abandon her for a time. There may be some question involved as to the payment of salvage to the Bahama fishermen, if they are entitled to any.

From the account received it is feared the damage to the vessel sustained through the storm and the probable pounding upon the coral reefs outlining Cat island, added to the wounds received by the ship in action when she sank originally are sufficient to render her entirely valueless. Nothing but an expert's examination can determine this point, but as the Merritt experts are already on their way to Cat island that question will soon be decided.

The navy department has decided a court of inquiry shall be held to decide whether the abandonment of the Teresa at sea was justifiable and if not who was responsible.

ANOTHER NEGRO SHOT.

Several White Men Sent Out of Wilmington, N. C., For Fear of Violence Being Done Them.

WILMINGTON, N. C., Nov. 12.—Guards shot an unruly negro in a negro slum of the city. A sensation was created by the capture of J. R. Melton, late chief of police, by a crowd of rough riders, who would have committed violence had not the military interfered, and Melton, R. H. Bunting, Republican justice of the peace, and C. H. Gilbert, ex-fusion policeman, all of whom were in danger of severe treatment by red-shirts, were escorted to the depot and sent out of town. Acting Sheriff G. Z. French left the city Thursday night.

Eight negroes in the county jail, whom the "red-shirts" and "rough riders" had threatened to lynch, were sent to Goldsboro for safe keeping. These were arrested during the rioting Thursday. The city is now under thorough military and police protection and there is every indication that no further outbreaks are expected.

Fugitives from Wilmington.

NEWBERN, N. C., Nov. 12.—The men sent away from Wilmington came here and were asked to leave. They left by boat for Elizabeth City, and it is believed they will not be allowed to land.

Tolberts Warned to Leave.

COLUMBIA, S. C., Nov. 12.—Notice was given James Tolbert and family to leave the county. A band of white men left to tell his brother-in-law to leave.

A Decrease in Immigration.

WASHINGTON, Nov. 12.—Commissioner General T. V. Powderly of the immigration bureau, in his annual report to the secretary of the treasury, gives the total number of immigrants who arrived in the United States during the last fiscal year as 229,299, a decrease, as compared with the fiscal year 1897, of 1,533.

Former Danish Minister Dead.

COPENHAGEN, Nov. 12.—M. Bille,

EVENING NEWS REVIEW.

14TH YEAR. NO. 133.

EAST LIVERPOOL, O. SATURDAY, NOV. 12, 1898.

TWO CENTS

TO PROTECT TOLBERT.

The Government Will Not Allow Any Interference.

THE RIOTS TO BE INVESTIGATED.

South Carolinians, Who Shot Members of the Family, Likely to Be Brought to Justice—R. R. Tolbert's Story—He Saw the President and Griggs.

WASHINGTON, Nov. 12.—R. R. Tolbert, whose father and brother were shot in the recent race war at Phoenix, S. C., was at the department of justice to secure an investigation of the riot by the federal authorities. He was accompanied by some of the Republican politicians of the state. The elder Tolbert is now in the state penitentiary for safety from popular violence.

Mr. Tolbert says that the true facts of the rioting have not been given.

He was nominated for congress by the Republicans of his district. For the purpose of making a contest before the house his brother, T. J. Tolbert, was at the polling place at Phoenix for the purpose of witnessing the affidavits of colored men who were rejected as voters because of their inability to comply with the requirements of the constitution. He deposited the affidavits in a box.

Mr. Etheridge, the white man who was killed, was an election manager at a precinct two miles away. He, with a party of men, went to Phoenix, walked up with his party to where Tolbert's brother was sitting at a table and deliberately kicked over the table and box in which were put the certificates. Then he assaulted Tolbert's brother. In a short while the Democratic voters rushed out and commenced shooting into the crowd. The negroes fled.

Mr. Tolbert said that he was at Abbeville, 25 miles away. His father, J. R. Tolbert, was at Verdry, another precinct. When the elder Tolbert learned of the riot he started to the scene in his buggy, accompanied by a little 10-year-old nephew. He was met by a mob, which riddled the buggy with bullets and wounded him and the little boy a number of times. It is said the boy was killed by the shots.

T. P. Tolbert was aided to his home. While lying in bed in a dying condition the mob attempted to make him give the name of the person who had killed Etheridge. He said he could not because Etheridge had been killed by the Democrats themselves.

On finding his father so badly wounded, Mr. R. R. Tolbert procured a doctor, who attended to the wounds of the senior Tolbert. After placing his family in a safe place, Mr. Tolbert came on to this city.

"Mr. Tolbert stated that his brother was unarmed and said that so far as he could see no shots were fired by the negroes at Phoenix.

Mr. Tolbert, accompanied by Solicitor General Richards of the department of justice, called at the White House and had an extended interview with President McKinley. He related to the president the story of his experience in South Carolina substantially as given above, entering into minute details of the trouble on election day. The president listened attentively to the recital, but gave no indication of what action, if any, might be taken. However, he requested Mr. Tolbert to see the attorney general and make to him a full statement of the situation as he viewed it, which Mr. Tolbert did.

Attorney Griggs spent some time with the president, but so far as could be ascertained, no decision of the question presented by Mr. Tolbert was reached.

The department of justice has taken steps to obtain official information bearing upon the trouble in South Carolina. Steps have been taken to afford ample protection to the elder Tolbert, who is collector of customs at the port of Charleston. It is said that, as a government officer in the exercise of his individual rights and in the performance of his official duties, the federal government will not permit him to be interfered with. A prominent official of the administration said:

"Collector Tolbert's rights will be maintained, even though an effort be made under the guise of law to trench upon them."

LIMA PEOPLE PROTEST.

Disapprove of Monnett's Suit Against the Oil Companies—Millions Paid Out There Annually.

LIMA, Nov. 12.—The investigation of the Buckeye Pipe Line company began here. Attorney General Monnett is trying to oust the company from the state, on the ground that it is part of the Standard Oil trust.

The Solar Refining company will also be investigated. A public meeting was held here to show the disapproval of the citizens of the action, as the company pays out millions of dollars here annually.

Mason of Ohio Promoted.

WASHINGTON, Nov. 12.—There was some discussion of appointments to consular positions and two appointments were decided upon at the cabinet meeting. Frank Mason of Ohio, who has been consul at Frankfort, Germany,

won during the present administration and the Harrison administration, has been selected to succeed to the vacant consul generalship at Berlin, caused by the death of Julius Goldsmith, and Richard Guenther of Wisconsin is to succeed Mason at Frankfort.

A Cheap Railroad Rate.

TOLEDO, Nov. 12.—As a result of the Pennsylvania and Hocking Valley's fight on the Ohio Central excursions from Columbus to Chicago, Moulton Houk, general passenger agent of the Ohio Central, established a \$3 round trip rate to Chicago from Columbus. Mr. Houk said it was a fight to a finish. The Ohio Central is not a member of the Central Passenger association.

Colonel Dick's Majority.

AKRON, Nov. 12.—The official count of Summit county was concluded and gives Kinney a plurality of 1,449. Blackburn's is 705 and the Republican county ticket was elected by majorities ranging from 69 to 3,625. Colonel Dick's plurality for congress was 1,716. His majority in the district will be about 200 short of 11,000.

THE AIRBRAKES FAILED.

Caus'd the Awful Wreck on the Lehigh Valley Railroad—Five Trainmen Killed and Five Injured.

WILKESBARRE, Pa., Nov. 12.—Two passenger trains were wrecked, five trainmen killed and five injured by a head-on collision on the Lehigh Valley railway, nine miles east of this city. The names of the killed are:

John McNally, engineer, Lehighton; William Toxheimer, fireman, White Haven; Fred Glaser, fireman, Mauch Chunk; John McGregor, express messenger, Wilkesbarre; Jacob Engleman, brakeman, Easton.

Injured: D. E. Price, engineer, Eastons; John Boning, engineer, East Mauch Chunk; Charles H. Morgan, express messenger, Waverly; John Schoenfeldt, brakeman, Mauch Chunk; A. G. Boyle; Mauch Chunk, baggage master, slightly injured.

The express bound from New York to Buffalo reached White Haven station a little over an hour late. She got orders at Fairview, on top of the mountain, to stop and go in on siding No. 7 for the Buffalo express bound east to pass. The track is a single one. Engineer Rohling was unable to stop at the siding. The airbrakes failed to work. He reversed the engine and whistled for airbrakes, but the momentum was too great to make a quick stop, and his train and the other train coming up the grade pulled by two engines crashed into each other.

The engines were wrecked and the baggage, mail and express cars piled up on them. The collision occurred in a deep rock cut, and the baggage and other cars saved the passenger coaches from being wrecked. The express and mail cars were smashed into kindlingwood, and the baggage and mail matter scattered all over the tracks.

The passengers, most of whom were asleep, were aroused by the shock, but none were injured.

NEGROES CAUSING TERROR.

Non-Union Miners Fired at White Men and Houses in Illinois.

PANA, Ills., Nov. 12.—Troop B of Bloomington remains on duty here, but almost nightly in the "Flat hall" district the negro residents have practiced shooting at any white man that passed. The negroes have been heavily armed by the mine operators. The residences of several white miners were shot into by Winchesters in the hands of the colored men. A white widow's cottage was pierced repeatedly by bullets, several charges barely missing her three children.

The white militia say they cannot apprehend the culprits. Captain Butler, when asked to disarm the negroes, said it was useless for the sheriff would arm them again. It is reported that a large contingent of outside union white miners will soon arrive in Pana. A consignment of 100 rifles was received here by citizens, who intend to protect their property.

CHANCE TO SEND GIFTS.

Those Who Have Friends in Manila Are Given an Opportunity.

WASHINGTON, Nov. 12.—The 17th of the present month will be the last date upon which the folks at home may send Christmas presents to the soldiers in Manila through government agency. The quartermaster's department has chartered a steamer, which will leave San Francisco on that date, and this will be the last steamer to reach Manila before Christmas.

Persons wishing to forward goods to friends in the army at Manila must cause the same to be delivered free of charges to the depot quartermaster at San Francisco properly directed.

Havana Patrolled by Troops.

HAVANA, Nov. 12.—Following the example of the third company, part of the first and fourth companies of the orden publico (police) have demanded their pay, now several months overdue. As a result of this regular Spanish troops are now quartered in the streets and General Arias, at the head of two battalions, has been patrolling the main thoroughfares. The city is quiet.

Soldiers' Society Incorporated.

FANKFORT, Ky., Nov. 12.—Service men of the Spanish war, "a society of the late war," was incorporated here by filing articles with the secretary of state.

SHUN THE PHILIPPINES

Gratuitous Advice From Spain's Great Financier.

WOULD HAVE TO CONQUER NATIVES

Ruinous War Predicted, Which Would Cost Us Many Lives and Money and Ruin Business—Other Nations Would Have Excuse to Interfere.

PARIS, Nov. 12.—Marquis de Comillas, the strongest individual factor in Spain's financial and commercial world, who is now in this city, made a statement to the correspondent of The Associated Press of his personal views regarding the Hispano-American situation.

Dewey's victory having served its strategic purpose, he could not see what the Americans wanted with the Philippines. Further along he said:

"The Americans are absolute strangers to the Philippines and their population. They are unprovided with the immediate organization necessary to rule that extensive and remote territory and to exercise authority there. The Filipinos have a certain degree of culture and some rudimentary ideas as to public administration, but, as a whole, the country is not yet capable of self-government.

"The cession of sovereignty over the Philippines to the United States would be disastrous to all those having business interests there, as well for the natives as for the Spaniards and for Europeans of every nationality. Spain cannot transfer her Philippine sovereignty to the United States by a mere clause in a peace treaty. The United States would be confronted with a war for the subjugation of 8,000,000 Malayans. This would mean the destruction of all property in the Philippines. Trade and commerce would be paralyzed there. The merchants and manufacturers of Spain would lose the markets they now enjoy, their factories would suspend and their employees lie idle. The markets for their products would have vanished.

"But the United States would not gain these markets. At least they would gain them only by fire and sword."

Some of these natives, he said, would declare independence immediately, once their ties with Spain were broken.

Others already risen against Spain, having hopes of independence, which the United States has raised in them, would tend to become the bitterest enemies of the United States.

He further said: "To make this clear I need only point to the relationship between their armed forces and those of the United States, as shown in the bloody conflict that took place between them at Cavite."

The result of all this would, he said, be a war of subjugation, which would be very costly in men as well as money for the United States, a war of desolation and ruin for the Philippines and their inhabitants; a war which would give to one or several powers humanitarian arguments that would justify their intervention for reasons similar to those that caused American intervention in Cuba.

MISS WILLARD'S MEMORY.

The W. C. T. U. Did the Dead Woman Great Honor—Some of the Reports Made.

ST. PAUL, Nov. 12.—The two most prominent ideas on the opening day of the opening day of the annual convention of the National Woman's Christian Temperance union were reverence for the memory of the departed leader, Miss Willard, and a reviving of the spirit and history of the original crusaders of 1874. It was the anniversary of the latter and Miss Willard's memory was honored in many ways.

The report of the corresponding secretary, Miss Katherine Lent Stevenson, said in part:

"The temple has, in one form or another, been the chief object of work at national headquarters during the year.

"Organizing has been done in 14 missionary states and territories. In addition, the state officers in the majority of states have vigorously pushed an increase of membership.

"Seven states have made a gain of 500 or more. These are Minnesota, Ohio, Texas, North Dakota, Kansas, California and Indiana, which leads the van with a net gain of more than 1,000. If only these gains had not been offset by losses in other states what a brave showing we should have today.

"The chief trouble this year, as every other, lies in the fact that dues have not been promptly paid. Despite all hindrances, however, there is a net gain in our entire membership larger than for several years.

"Work for the soldiers has formed a most important part of this year's record."

The honor roll, she said, will be discontinued, and "we trust some more successful plan may be discovered. The total number of new members recorded in honor roll is 6,000, of which 4,700 have been secured by women, 380 by men. Number of names enrolled as having secured ten new members 121."

The annual report of the treasurer,

Helen M. Barker, showed receipts of \$24,297 and expenditures of \$23,307, the balance on hand being \$1,089.

VICTIMS OF FEVER

Colonel Williams and One of His Clerks Died of the Yellow Scurfge in Havana.

WASHINGTON, Nov. 12.—Colonel Williams took with him to Havana two clerks who had served with him at Jeffersonville, and they were also stricken down with the yellow fever about the same time that he was. Word was received at the office of the quartermaster general that one of them—Stewart by name—died shortly after Colonel Williams breathed his last. As nothing was said as to the condition of the other clerk, whose name is Colwell, it is assumed that he is still alive.

Adjutant General Corbin received a message from General Wade, chairman of the Cuban evacuation commission at Havana, announcing the death from yellow fever of Lieutenant Colonel Charles W. Williams (not W. A. Williams), deputy quartermaster general.

Mrs. Williams and family are now in Washington. She is a daughter of General John B. Gordon of Georgia.

TWO DEATHS IN PORTO RICO.

General Wood Gave 1777 as Number of Sick at Santiago.

WASHINGTON, Nov. 12.—General Wood's health report from Santiago shows a sick list of 1,176; fever of all kinds, 617.

General Brooke reports from Ponce the following deaths: Private Charles Cummings, Company H, Third Wisconsin; Civilian Carpenter, quartermaster's department, Max Weigel, both typhoid.

MAY LOSE THE TERESA.

British Admiralty Authorities, It Is Said, Will Seize the Warship as a Derelict.

NASSAU, N. P., Nov. 12.—The British admiralty authorities here are going to take possession of the Maria Teresa as a derelict. The American consul has protested against this course, claiming everything less the salvage.

The steamer Antillia is leaving here for Cat island, with customs officers and police on board.

Opinions differ as to the chance of saving the cruiser. Although she has been aground since Thursday, the Maria Teresa rests in an easy position and the weather is moderate.

TALK OF SALVAGE ON TERESA.

May Not Be Worth Saving—Court of Inquiry to Be Held.

WASHINGTON, Nov. 12.—The legal status of the Maria Teresa has been considered cursorily and in the opinion of the navy department the title of the United States to her is unimpaired, notwithstanding the fact that it was necessary to abandon her for a time. There may be some question involved as to the payment of salvage to the Bahamas fishermen, if they are entitled to any.

From the account received it is feared the damage to the vessel sustained through the storm and the probable pounding upon the coral reefs outlining Cat island, added to the wounds received by the ship in action when she sank originally are sufficient to render her entirely valueless. Nothing but an expert's examination can determine this point, but as the Merritt experts are already on their way to Cat island that question will soon be decided.

The navy department has decided a court of inquiry shall be held to decide whether the abandonment of the Teresa at sea was justifiable and if not who was responsible.

ANOTHER NEGRO SHOT.

Several White Men Sent Out of Wilmington, N. C., For Fear of Violence Being Done Them.

WILMINGTON, N. C., Nov. 12.—Guards shot an unruly negro in a negro slum of the city. A sensation was created by the capture of J. R. Melton, late chief of police, by a crowd of rough riders, who would have committed violence had not the military interfered, and Melton, R. H. Bunting, Republican justice of the peace, and C. H. Gilbert, ex-fusion policeman, all of whom were in danger of severe treatment by redshirts, were escorted to the depot and sent out of town. Acting Sheriff G. Z. French left the city Thursday night. Eight negroes in the county jail, whom the "redshirts" and "rough riders" had threatened to lynch, were sent to Goldsboro for safe keeping. These were arrested during the rioting Thursday.

The city is now under thorough military and police protection and there is every indication that no further outbreaks are expected.

Fugitives from Wilmington.

NEWBERN, N. C., Nov. 12.—The men sent away from Wilmington came here and were asked to leave. They left by boat for Elizabeth City, and it is believed they will not be allowed to land.

Tolbert Warned to Leave.

COLUMBIA, S. C., Nov. 12.—Notice was given James Tolbert and family to leave the county. A band of white men left to tell his brother-in-law to leave.

CRUELTY TO DREYFUS.

Wife Not Allowed to Cable the Court's Decision.

A PITIFUL LETTER READ TO HER.

Her Husband Wrote That, Discouraged by Appeals For Revision, He Would Write No More to His Family or Anybody—Was Ill and Dying.

PARIS, Nov. 12.—Madame Dreyfus, it is said, applied at the office of the colonial minister for permission to send her husband some warm clothing for his return home. Her request was refused on the ground that the government would do whatever was necessary.

DISMISSED THE CASE

Because the Boy Was Under School Age.

NO MORE LENIENCY SHOWN

Parents Who Do Not Send Their Children to School Will Be Prosecuted Regardless of What Excuses They May Give—An Important Change.

The truancy case against A. J. Mackey for not sending his son Guy to school was heard last evening in the court of Squire Hill and the suit dismissed. The father swore that his child was under school age.

The law in truancy cases will be strictly enforced this year. Last year many excuses were offered by parents and the cases dismissed, but this season it has been decided to push all suits and to make no exceptions in cases where the parents are working and claim they cannot look after their children. Ignorance of the law will also not be accepted as an excuse.

It is deemed best to enforce the truancy law in order to make the visit of Deputy Inspector Hull effective.

THE MAJOR AND MONEY.

He Refused Chairman Blacker's Offer For Help.

The Columbus State Journal in commenting on the late campaign in this district, says:

"The small majority rolled up for Hon. R. W. Taylor in the Eighteenth district shows in a way the strength of the soldier feeling. His opponent, Major C. C. Weybrecht, went to the front with the Eighth regiment, and that fact aided him materially in the campaign. He reduced the normal Republican majority over 2,000 votes.

Major Weybrecht holds a unique position in Democratic politics, from the fact that during a recent visit to this city he called upon Chairman Blacker, who offered money for his campaign and refused to take it. He was not entitled to too much praise on this account, however, and the grand stand play was not necessary, for he did not need Blacker's money."

SAW CASHIER CHILD

He Was In Columbus Last Wednesday Morning

A resident of this city who has frequently met M. J. Child, late cashier of the First National bank of Lisbon, believes he saw him on High street in Columbus last Wednesday.

The cashier was walking toward the Union station and carried a valise in his hand. He was accompanied by a man whom the Liverpool man had never seen.

A Slight Increase.

The recent cold weather has caused a slight increase in business at the office of the township trustees, and they have purchased a few loads of coal the last few days. The trustees do not anticipate a very large expenditure of funds this winter.

Rats at Central Station.

Yesterday morning Barney, the coach dog at the fire station, killed 28 rats in less than five minutes. The creatures were placed in a large cage and the dog killed them all by breaking their backs.

\$10 special sale at Joseph Bros., will induce many to buy their next suit and overcoat Saturday from this firm. *

BRITAIN'S SEA FORCE

WHAT ENGLAND CAN DO IN CASE OF AN EMERGENCY.

Her Great Naval Resources and Marked Success in Mobilization of the Defenses—Navy's Great Reserve of Coal.

The bristling energy of the British admiralty seems to have behind it something more than the complications which made the Fashoda incident its initial excuse. The activity of dockyards and arsenals, the mobilization of battleships, cruisers and torpedo boats, and the "stand by" orders issued to the unemployed personnel, must mean the preparation for an emergency greater than now stands revealed.

At no time within the last two years has the active fleet of the empire been unequal to any demands that could be made upon it by the first shock of a conflict with France single handed. Under the "two power theory" which has kept England's naval strength superior to that of any two of the other great sea powers, her fighting squadrons have been more than equal to what France or Russia alone could array. From either she has nothing to fear, nor need her preparations take on any unwanted activity. If, however, a combination has been formed and the present settlement of the Marchand question is only a preliminary to the re-opening of the whole Egyptian question, in which France is said to have the support of Russia, or if the claims of Russia in the east are to be given the active support of France, then the mobilization of men and material may be understood.

Within a few years Great Britain has demonstrated her enormous naval possibilities. The jubilee review was the most marvelous parade of transferable force the world has ever known, and when the ease with which her late port guard squadron was assembled is remembered the present orders for mobilization must be accepted more as a proof of her immediate readiness than as a measure of her resources.

The orders so far given provide for the assemblage at Devonport of seven battleships and one cruiser; to supplement these, six 30 knot torpedo boat destroyers are to be commissioned, and all the battleships and cruisers at Portsmouth are taking full crews. This last is so distinctly a war measure that its meaning is most pregnant, and when its significance is fortified by orders just issued to send home from the channel squadron, now at Gibraltar, a large number of the fleet signalmen, little doubt remains that the admiralty is preparing to commission not only many vessels in reserve, but probably some of the auxiliary cruisers.

The dockyards at Portsmouth, Devonport and Chatham are working day and night; the Woolwich arsenal is energizing its possible output; overtime has been ordered on new cruisers, like the Europa and Andromeda, and at Dover, among other reported places, an experimental mobilization of the defenses has been carried out with marked success.

The postponement of naval maneuvers this year leaves England with a great reserve of coal, and though many excuses were offered for this unusual departure in fleet instruction it is understood that the authorities have felt that something more real than the maneuvers of A and B squadrons might at any moment, from complications in the Yellow sea and in the Mediterranean, demand a prudent expenditure in this "life of the ship." Luckily the British fleet need not suffer from a fuel famine.

The most recent experiences of England in naval war preparations were the results of misunderstandings with Germany on the Transvaal question, which followed closely upon the idle threat made in a moment of hot patriotism and misguided wisdom. It may be well to recall it, quoting the words of an American naval officer:

"When, under the shock of a disturbed diplomacy," he writes, "England was called upon to employ a flying squadron needing 3,000 men and to commission other vessels requiring 2,500 men the high possibilities of her system were revealed. The flying squadron was ready for war service in a few days—surely in less than a week—and the other ships were quickly and efficiently organized for any sudden order."

"Notwithstanding this sudden demand the admiralty had no difficulty in maintaining at their efficient strength the crews of the fleet reserve and of the dockyard reserve ships in the home ports. In addition, thousands of men undergoing gunnery and torpedo instruction were in no way interfered with and enough men were available at the general depots to commission at short notice three first class battleships and four first class or six second class cruisers."

"Nor was it found necessary to reduce the strength of the British foreign squadrons to attain at home this satisfactory state of affairs, for, besides the fact that the squadrons on their respective stations were stronger in ships and men than they had ever been before, there was an unprecedented number of vessels homeward bound."—New York Tribune.

thirteen years have played over 28,500 games of cribbage, and one day recently scored even games. They have never been over 70 games apart. During the series they have held two 28 hands and one 29 hand. On one occasion both held 24 hands in a game on the same deal, all the cards being fours, fives and sixes.—Boston Globe.

AMERICAN WIRE NAILS.

Used in Practically Every Country on the Globe.

We are furnishing the whole world with wire nails. We send them to every grand division of the globe and to every civilized and half civilized country—even to Germany, France, Belgium and Great Britain, where the iron trade is supposed by popular fallacy to be further advanced than in the United States. We send them also to Italy, Turkey, Holland and all the other states of Europe, to all the Central and South American states, to Asiatic Russia, British Australasia, French Oceanica, British and Portuguese Africa, to the Boers and the Sudanese, to Korea and China, and, strange to say, our largest customer is Japan.

Nearly one half of the entire export of wire nails from the United States last year went to the land of the miko-do. This is practically a new industry, although Alexander Hamilton in his report to congress as secretary of the treasury in 1791 with commendable pride, called attention to the fact that "the United States are in a great measure able to supply themselves with nails and spikes," which at that time were all made by hand, and most of them in chimney corners. Machine made wire nails appeared in the market for the first time in 1882. In 1883 they gained popularity and began to take the place of cut nails. In 1892 the manufacture reached a total of 471,952,000 pounds. In 1897 it jumped to 899,724,500 pounds, and in 1898 the figure will show a corresponding increase.

The export of wire nails may be said to have commenced in 1888, when we shipped 1,547,098 pounds to foreign countries. The popularity of this new product developed so rapidly that during the fiscal year of 1898, ten years later, the exports had reached 22,894,099 pounds. The price has been running down with equal velocity. In 1888 wire nails sold for 10 cents a pound; in 1898 they sell for 2 cents a pound, or about the same price that the manufacturers of Great Britain ask for steel rails. In Chicago in 1890 the average price was \$2.51 a keg; in 1898 it is \$1.36.—W. E. Curtis in Chicago Record.

MUSTACHE GUARD.

Queer Apparatus Made of Gold and With Ear Hooks Like Spectacles.

"I had a mighty odd experience on my last western trip," said a New Orleans drummer the other day. "It was at a little town not a great distance from New Orleans and not necessary to name, as far as this story is concerned. I had stopped over for the day and went to the principal hotel to get my dinner. While I was seated at the table a tall, solemn looking man came in and took a chair opposite. From his general appearance I judged him to be one of the heavy swells of the village, and, by the way, I afterward learned that such was the case. He wore a long tailed coat and a bright blue cravat, and had a very heavy, carefully groomed black mustache.

"As soon as he seated himself he felt in his vest pocket and drew out a singular apparatus consisting of a strip of gilt metal, about an inch broad and six inches long, slightly curved and furnished at each end with hooks, like a pair of spectacles. While I was wondering what the deuce the machine was, he deliberately brushed back his mustache and fastened the plate over his upper lip, putting the hooks around his ears. Then he began solemnly to eat his dinner. The effect of that extraordinary contrivance clamped around his countenance was so strange and startling that I couldn't take my eyes off him, but he paid no attention to my stare and finished his meal in dignified silence. The apparatus was a mustache guard, but where he got it and whoever conceived such a weird idea are mysteries too deep for me. One thing was certain, however, and that was that its owner evidently believed it to be an implement in use in the best society."—New Orleans Times-Democrat.

Platforms For Smokers.

The Citizens' company of Detroit is adopting a new style of car to accommodate the smokers who generally crowd the rear platform during the busy hours and block the entrance or egress of passengers. The new car, No. 368, was tried for the first time the other evening on the Woodward line. The rear platform has been extended about two or three feet, making a platform a little over six feet in length. This is divided with an iron rail, so that those who wish to smoke may do so outside of this rail, thus leaving the doorway clear. If this experiment is successful, the plan will be permanently adopted.—Detroit Tribune.

Warning to France.

If France would look at the wrecks outside of Santiago harbor it might suggest a different way to satisfy her honor than going to war with a naval power.—Chicago News.

BAHR-EL-GHAZAL.

ENGLAND AND FRANCE MAY FIGHT OVER IT.

It Is Triangular in Shape and is Wonderfully Fertile. Being Traversed by Innumerable Streams—it Really a Part of Egypt.

Westward the scene of interest in Africa, like the course of empire, takes its way. Fashoda is to be abandoned. So much has been confidently expected from the beginning of the present complications, and seems now assured. Some say the Bahr-el-Ghazal will likewise be relinquished, or, more properly, all claims upon it will be relinquished, by the French. Of that we are by no means so sure. On the contrary, it appears far more likely that there will be some protracted and pretty vigorous diplomatic negotiations before the final ownership of that territory and the exact limits of it are determined to the satisfaction of all concerned.

The Bahr-el-Ghazal is both a country and a river. The river of that name is the chief tributary of the Nile from the west and south of the Bahr-el-Azrek, or Blue Nile. It is in itself a large stream, more than 500 miles long, and receives the waters of the Bahr-el-Arab, Bahr Dembo and other streams. The country of the same name is the region drained by that river and its tributaries. It lies in the heart of the continent, at the southern edge of the Sudan, west of the Nile and immediately north of the Kongo Free State. It is in form a triangle, with one side extending along the Nile from Mokren-el-Bohur to Lado, another from Mokren-el-Bohur along the Bahr-el-Ghazal and Bahr-el-Arab to the confines of the independent sultanate of Wadai, and the third from Wadai to Lado, along the watershed between the valleys of the Bahr-el-Ghazal and the Ubangi. Of these sides the first is about 300, the second 500 and the third nearly 800 miles long. This region is traversed by innumerable streams, is wonderfully fertile and productive and is densely populated. It was one of the most valued parts of the Egyptian empire in the days when Gordon was governor general of the Sudan, and the title of Egypt to it today seems indisputable. The gallant Major Marchand traversed it with his expedition on his way to Fashoda, and established posts at half a dozen places. But he was unable to leave at them effective garrisons, and did not, of course, take such actual possession of the country as would give France a title to it, even if it had been open to such acquisition by any power.

The dispute will be, then, over the boundaries of the province, and especially over the boundary between it and the French Congo. That boundary has never yet been delimited. It is true that in 1890, when the German colony of Kamerun was rudely regarded as extending up to the Egyptian borders, Great Britain, acting on behalf of Egypt, made a convention with Germany, by which the boundary between Kamerun and the Bahr-el-Ghazal was fixed at the watershed between the two great valleys, as already described. The validity of that settlement was recognized by Italy and the Congo State, though France has never accepted it, but has, on the contrary, denounced it. Moreover, and this is most to the point, France has since that time pushed the borders of her Congo State up the north shore of the Ubangi to Wadai, seizing a vast tract of what was informally supposed to be German territory, and making Kamerun a mere coast province, cut off at the back by French possessions. The line formerly traced between Egypt and Germany proves, therefore, to be between Egypt and France, and will have to be traced anew.

It is over that line that the controversy will be. That there will be a war over it is scarcely to be thought of. The matter is eminently one to be settled by diplomats and engineers. Not the least interesting factor in the problem is the formal statement made a few years ago by M. Hanotaux, then foreign minister of France, that all the territories formerly under the dominion of the sultan and the khedive must still be deemed Egyptian. If that principle be maintained, all the Bahr-el-Ghazal, to its widest limits, belongs to Egypt. And it is not easy to see how M. Hanotaux's successor can fail to maintain that principle.—New York Tribune.

GAEIC LEAGUE OF AMERICA.

National Organization Formed For the Study of Art and Literature.

Delegates from the various Gaelic societies in the United States met at the rooms of the New York Gaelic Society the other night and formed a national organization to be hereafter known as the Gaelic League of America. The objects of the new organization are the cultivation of the language, literature, music and art of Ireland. Former Assistant Secretary of the Navy William McAdoo made the principal address, in which he set forth the objects of the league. Mr. McAdoo spoke in English. The other speeches and songs which followed the meeting were in Gaelic. A feature of the musical programme was the singing in Gaelic of "The Star Spangled Banner." The translation was made by the Rev. E. O'Gowen of

There is too little preaching of the gospel of health. It is the last thing that anyone thinks of teaching, either to a man-child or woman-child. It is one of the most important branches of an education. Without health, a man will be a business, and a woman a social failure. When the body of either a man or a woman is properly nourished, the result is the enjoyment of good health. Almost all ill-health is due to improper or insufficient nourishment. If the stomach is right and the liver is right, the blood will receive its normal supply of the life-giving elements of the food and the body will be properly nourished. Dr. Pierce's Golden Medical Discovery acts directly upon the stomach and liver. It purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It promotes the natural activity of the entire nutritive organism. It puts an end to the slow starvation that is at the base of many diseases. It does not make corpulent but builds up the system in better health than I have been for years."

"I was run down with nervous prostration and female weakness and kidney trouble," writes Mrs. Maranda Ramsey, of Smartt, Warren Co., Tenn. "My bowels were constipated. My whole system was wrecked. My friends thought I would die. I had read of Dr. Pierce's medicines and sent for the 'Golden Medical Discovery,' 'Favorite Prescription' and 'Pleasant Pellets.' In one week's time I began to sit up. In two weeks I could sit up all day, after being so bad that I had to be helped in and out of bed. I have taken four bottles of 'Golden Medical Discovery' and two of 'Favorite Prescription' and am in better health than I have been for years."

Constipation is the father of all manner of maladies. If it did not exist, or was in all cases promptly relieved, the majority of medical books could be safely destroyed.

It is the easiest sickness to neglect and the simplest to cure. Dr. Pierce's Pleasant Pellets cure constipation every time. They cure it promptly, completely and permanently. They never gripe. They don't get you out o' nights. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists keep nothing else "just as good."

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Cruz-n's Advice.

When the kidneys are sick they grumble.

You hear them clear through the back.

You feel them clear through the body.

They grumble when overtaxed.

Know how the kidneys grumble?

It's a simple thing; your back will tell you.

Doak's Kidney Pills is the first grumbling warning.

The kidneys give it and if you heed it not,

Look out for trouble, it will surely come.

Urinary trouble, kidney trouble sad many miseries.

Doak's Kidney Pills are made for kidneys only.

They cure every form of kidney ill.

The experience of East Liverpool people proves this.

Here's a case in point:

Mrs. Wm. James, who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull, aching pain across my loins, up under my shoulder blades, and rheumatic pain in my right shoulder. I was very susceptible to changes in the weather, and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing frequent fluttering of the heart and a shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doak's Kidney Pills at the W. & W. Pharmacy, and obtained relief almost at once. The symptoms all left, and there was nothing wrong with my kidneys after the treatment. I felt much better and stronger generally."

Doak's Kidney Pills are for sale by dealers. Prices 50 cents per box. By mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doak's and take no other.

DISMISSED THE CASE

Because the Boy Was Under School Age.

NO MORE LENIENCY SHOWN

Parents Who Do Not Send Their Children to School Will Be Prosecuted Regardless of What Excuses They May Give—An Important Change.

The truancy case against A. J. Mackey for not sending his son Guy to school was heard last evening in the court of Squire Hill and the suit dismissed. The father swore that his child was under school age.

The law in truancy cases will be strictly enforced this year. Last year many excuses were offered by parents and the cases dismissed, but this season it has been decided to push all suits and to make no exceptions in cases where the parents are working and claim they cannot look after their children. Ignorance of the law will also not be accepted as an excuse.

It is deemed best to enforce the truancy law in order to make the visit of Deputy Inspector Hull effective.

THE MAJOR AND MONEY.

He Refused Chairman Blacker's Offer For Help.

The Columbus State Journal in commenting on the late campaign in this district, says:

"The small majority rolled up for Hon. R. W. Taylor in the Eighteenth district shows in way the strength of the soldier feeling. His opponent, Major C. C. Weybrecht, went to the front with the Eighth regiment, and that fact aided him materially in the campaign. He reduced the normal Republican majority over 2,000 votes. Major Weybrecht holds a unique position in Democratic politics, from the fact that during a recent visit to this city he called upon Chairman Blacker, who offered money for his campaign and refused to take it. He was not entitled to too much praise on this account, however, and the grand stand play was not necessary, for he did not need Blacker's money."

SAW CASHIER CHILD

He Was in Columbus Last Wednesday Morning

A resident of this city who has frequently met M. J. Child, late cashier of the First National bank of Lisbon, believes he saw him on High street in Columbus last Wednesday.

The cashier was walking toward the Union station and carried a valise in his hand. He was accompanied by a man whom the Liverpool man had never seen.

A slight increase.

The recent cold weather has caused a slight increase in business at the office of the township trustees, and they have purchased a few loads of coal the last few days. The trustees do not anticipate a very large expenditure of funds this winter.

Rats at Central Station.

Yesterday morning Barney, the coach dog at the fire station, killed 28 rats in less than five minutes. The creatures were placed in a large cask and the dog killed them all by breaking their backs.

\$10 special sale at Joseph Bros., will induce many to buy their next suit and overcoat Saturday from this firm.

BRITAIN'S SEA FORCE

WHAT ENGLAND CAN DO IN CASE OF AN EMERGENCY.

Her Great Naval Resources and Marked Success in Mobilization of the Defenses—Navy's Great Reserve of Coal.

The bristling energy of the British admiralty seems to have behind it something more than the complications which made the Fashoda incident its initial excuse. The activity of dockyards and arsenals, the mobilization of battleships, cruisers and torpedo boats, and the "stand by" orders issued to the unemployed personnel, must mean the preparation for an emergency greater than now stands revealed.

At no time within the last two years has the active fleet of the empire been unequal to any demands that could be made upon it by the first shock of a conflict with France single handed. Under the "two power theory" which has kept England's naval strength superior to that of any two of the other great sea powers, her fighting squadrons have been more than equal to what France or Russia alone could array. From either she has nothing to fear, nor need her preparations take on any unwonted activity. If, however, a combination has been formed and the present settlement of the Marchand question is only a preliminary to the re-opening of the whole Egyptian question, in which France is said to have the support of Russia, or if the claims of Russia in the east are to be given the active support of France, then the mobilization of men and material may be understood.

Within a few years Great Britain has demonstrated her enormous naval possibilities. The jubilee review was the most marvelous parade of transferable force the world has ever known, and when the ease with which her late port guard squadron was assembled is remembered the present orders for mobilization must be accepted more as a proof of her immediate readiness than as a measure of her resources.

The orders so far given provide for the assemblage at Devonport of seven battleships and one cruiser; to supplement these, six 30 knot torpedo boat destroyers are to be commissioned, and all the battleships and cruisers at Portsmouth are taking full crews. This last is so distinctly a war measure that its meaning is most pregnant, and when its significance is fortified by orders just issued to send home from the channel squadron, now at Gibraltar, a large number of the fleet signalmen, little doubt remains that the admiralty is preparing to commission not only many vessels in reserve, but probably some of the auxiliary cruisers.

The dockyards at Portsmouth, Devonport and Chatham are working day and night; the Woolwich arsenal is energizing its possible output; overtime has been ordered on new cruisers, like the Europa and Andromeda, and at Dover, among other reported places, an experimental mobilization of the defences has been carried out with marked success.

The postponement of naval maneuvers this year leaves England with a great reserve of coal, and though many excuses were offered for this unusual departure in fleet instruction it is understood that the authorities have felt that something more real than the maneuvers of A and B squadrons might at any moment, from complications in the Yelllow sea and in the Mediterranean, demand a prudence of expenditure in this "life of the ship." Luckily the British fleet need not suffer from a fuel famine.

The most recent experiences of England in naval war preparations were the results of misunderstandings with Germany on the Transvaal question, which followed closely upon the idle threat made in a moment of hot patriotism and misguided wisdom. It may be well to recall it, quoting the words of an American naval officer:

"When, under the shock of a disturbed diplomacy," he writes, "England was called upon to employ a flying squadron needing 3,000 men and to commission other vessels requiring 2,500 men the high possibilities of her system were revealed. The flying squadron was ready for war service in a few days—surely in less than a week—and the other ships were quickly and efficiently organized for any sudden order."

"Notwithstanding this sudden demand the admiralty had no difficulty in maintaining at their efficient strength the crews of the fleet reserve and of the dockyard reserve ships in the home ports. In addition, thousands of men undergoing gunnery and torpedo instruction were in no way interfered with and enough men were available at the general depots to commission at short notice three first class battleships and four first class or six second class cruisers."

"Nor was it found necessary to reduce the strength of the British foreign squadrons to attain at home this satisfactory state of affairs, for, besides the fact that the squadrons on their respective stations were stronger in ships and men than they had ever been before, there was an unprecedented number of vessels homeward bound."—New Orleans Times-Democrat.

thirteen years have played over 28,000 games of cribbage, and one day recently scored even games. They have never been over 70 games apart. During the series they have held two 28 hands and one 29 hand. On one occasion both held 24 hands in a game on the same deal, all the cards being fours, fives and sixes.—Boston Globe.

AMERICAN WIRE NAILS.

Used in Practically Every Country on the Globe.

We are furnishing the whole world with wire nails. We send them to every grand division of the globe and to every civilized and half civilized country—even to Germany, France, Belgium and Great Britain, where the iron trade is supposed by popular fallacy to be further advanced than in the United States. We send them also to Italy, Turkey, Holland and all the other states of Europe, to all the Central and South American states, to Asiatic Russia, British Australasia, French Oceanica, British and Portuguese Africa, to the Boers and the Sudanese, to Korea and to China, and, strange to say, our largest customer is Japan.

Nearly one half of the entire export of wire nails from the United States last year went to the land of the mikado. This is practically a new industry, although Alexander Hamilton in his report to congress as secretary of the treasury in 1791 with commendable pride, called attention to the fact that "the United States are in a great measure able to supply themselves with nails and spikes," which at that time were all made by hand, and most of them in chimney corners. Machine made wire nails appeared in the market for the first time in 1882. In 1883 they gained popularity and began to take the place of cut nails. In 1892 the manufacture reached a total of 471,952,000 pounds. In 1897 it jumped to 899,724,500 pounds, and in 1898 the figure will show a corresponding increase.

The export of wire nails may be said to have commenced in 1888, when we shipped 1,547,098 pounds to foreign countries. The popularity of this new product developed so rapidly that during the fiscal year of 1898, ten years later, the exports had reached 22,894,099 pounds. The price has been running down with equal velocity. In 1888 wire nails sold for 10 cents a pound; in 1898 they sell for 2 cents a pound, or about the same price that the manufacturers of Great Britain ask for steel rails. In Chicago in 1890 the average price was \$2.51 a keg; in 1898 it is \$1.36.—W. E. Curtis in Chicago Record.

MUSTACHE GUARD.

Queer Apparatus Made of Gold and With Ear Hooks Like Spectacles.

"I had a mighty odd experience on my last western trip," said a New Orleans drummer the other day. "It was at a little town not a great distance from New Orleans and not necessary to name, as far as this story is concerned. I had stopped over for the day and went to the principal hotel to get my dinner. While I was seated at the table a tall, sombre looking man came in and took a chair opposite. From his general appearance I judged him to be one of the heavy swells of the village, and, by the way, I afterward learned that such was the case. He wore a long tailed coat and a bright blue cravat, and had a very heavy, carefully groomed black mustache.

"As soon as he seated himself he felt in his vest pocket and drew out a singular apparatus consisting of a strip of gilt metal, about an inch broad and six inches long, slightly curved and furnished at each end with hooks, like a pair of spectacles. While I was wondering what the deuce the machine was, he deliberately brushed back his mustache and fastened the plate over his upper lip, putting the hooks around his ears. Then he began solemnly to eat his dinner.

The effect of that extraordinary contrivance clamped around his countenance was so strange and startling that I couldn't take my eyes off him, but he paid no attention to my stare and finished his meal in dignified silence. The apparatus was a mustache guard, but where he got it and whoever conceived such a weird idea are mysteries too deep for me. One thing was certain, however, and that was that its owner evidently believed it to be an implement in use in the best society."—New Orleans Times-Democrat.

Platforms For Smokers.

The Citizens' company of Detroit is adopting a new style of car to accommodate the smokers who generally crowd the rear platform during the busy hours and block the entrance or egress of passengers. The new car, No. 368, was tried for the first time the other evening on the Woodward line. The rear platform has been extended about two or three feet, making a platform a little over six feet in length. This is divided with an iron rail, so that those who wish to smoke may do so outside of this rail, thus leaving the doorway clear. If this experiment is successful, the plan will be permanently adopted.—Detroit Tribune.

Warning to France.

If France would look at the wrecks outside of Santiago harbor it might suggest a different way to satisfy her honor than going to war with a naval power.—Chicago News.

BAHR-EL-GHAZAL.

ENGLAND AND FRANCE MAY FIGHT OVER IT.

It Is Triangular in Shape and is Wonderfully Fertile. Being Traversed by Innumerable Streams—is Really a Part of Egypt.

Westward the scene of interest in Africa, like the course of empire, takes its way. Fashoda is to be abandoned. So much has been confidently expected from the beginning of the present complications, and seems now assured. Some say the Bahr-el-Ghazal will likewise be relinquished, or, more properly, all claims upon it will be relinquished, by the French. Of that we are by no means so sure. On the contrary, it appears far more likely that there will be some protracted and pretty vigorous diplomatic negotiations before the final ownership of that territory and the exact limits of it are determined to the satisfaction of all concerned.

The Bahr-el-Ghazal is both a country and a river. The river of that name is the chief tributary of the Nile from the west and south of the Bahr-el-Azrek, or Blue Nile. It is in itself a large stream, more than 500 miles long, and receives the waters of the Bahr-el-Arab, Bahr Dembo and other streams. The country of the same name is the region drained by that river and its tributaries. It lies in the heart of the continent, at the southern edge of the Sudan, west of the Nile and immediately north of the Kongo Free State. It is in form a triangle, with one side extending along the Nile from Mokren-el-Bohur to Lado, another from Mokren-el-Bohur along the Bahr-el-Ghazal and Bahr-el-Arab to the confines of the independent sultanate of Wadai, and the third from Wadai to Lado, along the watershed between the valleys of the Bahr-el-Ghazal and the Ubangi. Of these sides the first is about 300, the second 500 and the third nearly 800 miles long. This region is traversed by innumerable streams, is wonderfully fertile and productive and is densely populated. It was one of the most valued parts of the Egyptian empire in the days when Gordon was governor general of the Sudan, and the title of Egypt to it today seems indisputable. The gallant Major Marchand traversed it with his expedition on his way to Fashoda, and established posts at half a dozen places. But he was unable to leave at them effective garrisons, and did not, of course, take such actual possession of the country as would give France a title to it, even if it had been open to such acquisition by any power.

The dispute will be, then, over the boundaries of the province, and especially over the boundary between it and the French Congo. That boundary has never yet been delimited. It is true that in 1890, when the German colony of Kamerun was rudely regarded as extending up to the Egyptian borders, Great Britain, acting on behalf of Egypt, by which the boundary between Kamerun and the Bahr-el-Ghazal was fixed at the watershed between the two great valleys, as already described. The validity of that settlement was recognized by Italy and the Congo State, though France has never accepted it, but has, on the contrary, denounced it. Moreover and this is most to the point, France has since that time pushed the borders of her Congo State up the north shore of the Ubangi to Wadai, seizing a vast tract of what was informally supposed to be German territory, and making Kamerun a mere coast province, cut off at the back by French possessions. The line formerly traced between Egypt and Germany proves, therefore, to be between Egypt and France, and will have to be traced anew.

It is over that line that the controversy will be. That there will be a war over it is scarcely to be thought of. The matter is eminently one to be settled by diplomats and engineers. Not the least interesting factor in the problem is the formal statement made a few years ago by M. Hanotaux, then foreign minister of France, that all the territories formerly under the dominion of the sultan and the khedive must still be deemed Egyptian. If that principle be maintained, all the Bahr-el-Ghazal, to its widest limits, belongs to Egypt. And it is not easy to see how M. Hanotaux's successor can fail to maintain that principle.—New York Tribune.

GAEIC LEAGUE OF AMERICA.

National Organization Formed For the Study of Art and Literature.

Delegates from the various Gaelic societies in the United States met at the rooms of the New York Gaelic Society the other night and formed a national organization to be hereafter known as the Gaelic League of America. The objects of the new organization are the cultivation of the language, literature, music and art of Ireland. Former Assistant Secretary of the Navy William McAdoo made the principal address, in which he set forth the objects of the league. Mr. McAdoo spoke in English. The other speeches and songs which followed the meeting were in Gaelic. A feature of the musical programme was the singing in Gaelic of "The Star Spangled Banner." The translation was made by the Rev. E. O'Gowen of

There is too little preaching of the gospel of health. It is the last thing that anyone thinks of teaching, either to a man-child or woman-child. It is one of the most important branches of an education.

Without health, a man will be a business, and a woman a social failure. When the body of either a man or a woman is properly nourished, the result is the enjoyment of good health. Almost all ill-health is due to improper or insufficient nourishment. If the stomach is right and the liver is right, the blood will receive its normal supply of the life-giving elements of the food and the body will be properly nourished. Dr. Pierce's Golden Medical Discovery acts directly upon the stomach and liver. It purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It promotes the natural activity of the entire nutritive organism. It puts an end to the slow starvation that is at the base of many diseases. It does not make flabby fat like cod liver oil, but firm, muscular tissues. It does not make corpulent people more corpulent but builds up the system to the normal standard.

"I was run down with nervous prostration and female weakness and kidney trouble," writes Mrs. Maranda Ramsey, of Smartt, Warren Co., Tenn. "My bowels were constipated. My whole system was wrecked. My friends thought I would die. I had read of Dr. Pierce's medicine and sent for the 'Golden Medical Discovery,' 'Favorite Prescription' and 'Pleasant Pellets.' In one week's time I began to sit up. In two weeks I could sit up all day, after being so bad that I had to be helped in and out of bed. I have taken four bottles of 'Golden Medical Discovery' and two of 'Favorite Prescription' and am in better health than I have been for years."

Constipation is the father of all manner of maladies. If it did not exist, or was in all cases promptly relieved, the majority of medical books could be safely destroyed. It is the easiest sickness to neglect and the simplest to cure. Dr. Pierce's Pleasant Pellets cure constipation every time. They cure it promptly, completely and permanently. They never gripe. They don't get you out o' nights. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists keep nothing else "just as good."

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Citizen's Advice.

When the kidneys are sick they grumble.

You hear them clear through the back. You feel them clear through the body. They grumble when overtaxed.

BRITAIN'S SEA FORCE

WHAT ENGLAND CAN DO IN CASE OF AN EMERGENCY.

Her Great Naval Resources and Marked Success in Mobilization of the Defenses—Navy's Great Reserve of Coal.

The bristling energy of the British admiralty seems to have behind it something more than the complications which made the Fashoda incident its initial excuse. The activity of dockyards and arsenals, the mobilization of battleships, cruisers and torpedo boats, and the "stand by" orders issued to the unemployed personnel, must mean the preparation for an emergency greater than now stands revealed.

At no time within the last two years has the active fleet of the empire been unequal to any demands that could be made upon it by the first shock of a conflict with France single handed. Under the "two power theory" which has kept England's naval strength superior to that of any two of the other great sea powers, her fighting squadrons have been more than equal to what France or Russia alone could array. From either she has nothing to fear, nor need her preparations take on any unwonted activity. If, however, a combination has been formed and the present settlement of the Marchand question is only a preliminary to the re-opening of the whole Egyptian question, in which France is said to have the support of Russia, or if the claims of Russia in the east are to be given the active support of France, then the mobilization of men and material may be understood.

Within a few years Great Britain has demonstrated her enormous naval possibilities. The jubilee review was the most marvelous parade of transferable force the world has ever known, and when the ease with which her late port guard squadron was assembled is remembered the present orders for mobilization must be accepted more as a proof of her immediate readiness than as a measure of her resources.

The orders so far given provide for the assemblage at Devonport of seven battleships and one cruiser; to supplement these, six 30 knot torpedo boat destroyers are to be commissioned, and all the battleships and cruisers at Portsmouth are taking full crews. This last is so distinctly a war measure that its meaning is most pregnant, and when its significance is fortified by orders just issued to send home from the channel squadron, now at Gibraltar, a large number of the fleet signalmen, little doubt remains that the admiralty is preparing to commission not only many vessels in reserve, but probably some of the auxiliary cruisers.

The dockyards at Portsmouth, Devonport and Chatham are working day and night; the Woolwich arsenal is energizing its possible output; overtime has been ordered on new cruisers, like the Europa and Andromeda, and at Dover, among other reported places, an experimental mobilization of the defenses has been carried out with marked success.

The postponement of naval maneuvers this year leaves England with a great reserve of coal, and though many excuses were offered for this unusual departure in fleet instruction it is understood that the authorities have felt that something more real than the maneuvers of A and B squadrons might at any moment, from complications in the Yellow sea and in the Mediterranean, demand a prudence of expenditure in this "life of the ship." Luckily the British fleet need not suffer from a fuel famine.

The most recent experiences of England in naval war preparations were the results of misunderstandings with Germany on the Transvaal question, which followed closely upon the idle threat made in a moment of hot patriotism and misguided wisdom. It may be well to recall it, quoting the words of an American naval officer:

"When, under the shock of a disturbed diplomacy," he writes, "England was called upon to employ a flying squadron needing 3,000 men and to commission other vessels requiring 2,500 men the high possibilities of her system were revealed. The flying squadron was ready for war service in a few days—surely in less than a week—and the other ships were quickly and efficiently organized for any sudden order."

"Notwithstanding this sudden demand the admiralty had no difficulty in maintaining at their efficient strength the crews of the fleet reserve and of the dockyard reserve ships in the home ports. In addition, thousands of men undergoing gunnery and torpedo instruction were in no way interfered with and enough men were available at the general depots to commission at short notice three first class battleships and four first class or six second class cruisers."

"Nor was it found necessary to reduce the strength of the British foreign squadrons to attain at home this satisfactory state of affairs, for, besides the fact that the squadrons on their respective stations were stronger in ships and men than they had ever been before, there was an unprecedented number of vessels homeward bound."—New York Herald.

Interesting Cribbage Statistics.

A Belfast (Me.) couple in the past

thirteen years have played over 28,000 games of cribbage, and one day recently scored even games. They have never been over 70 games apart. During the series they have held two 28 hands and one 29 hand. On one occasion both held 24 hands in a game on the same deal, all the cards being fours, fives and sixes.—Boston Globe.

AMERICAN WIRE NAILS.

Used in Practically Every Country on the Globe.

We are furnishing the whole world with wire nails. We send them to every grand division of the globe and to every civilized and half civilized country—even to Germany, France, Belgium and Great Britain, where the iron trade is supposed by popular fallacy to be further advanced than in the United States. We send them also to Italy, Turkey, Holland and all the other states of Europe, to all the Central and South American states, to Asiatic Russia, British Australasia, French Oceania, British and Portuguese Africa, to the Boers and the Sudanese, to Korea and China, and, strange to say, our largest customer is Japan.

Nearly one half of the entire export of wire nails from the United States last year went to the land of the mikado. This is practically a new industry, although Alexander Hamilton in his report to congress as secretary of the treasury in 1791 with commendable pride, called attention to the fact that "the United States are in a great measure able to supply themselves with nails and spikes," which at that time were all made by hand, and most of them in chimney corners. Machine made wire nails appeared in the market for the first time in 1882. In 1883 they gained popularity and began to take the place of cut nails. In 1892 the manufacture reached a total of 471,952,000 pounds. In 1897 it jumped to 899,724,500 pounds, and in 1898 the figure will show a corresponding increase.

The export of wire nails may be said to have commenced in 1888, when we shipped 1,547,098 pounds to foreign countries. The popularity of this new product developed so rapidly that during the fiscal year of 1898, ten years later, the exports had reached 22,894,099 pounds. The price has been running down with equal velocity. In 1888 wire nails sold for 10 cents a pound; in 1898 they sell for 2 cents a pound, or about the same price that the manufacturers of Great Britain ask for steel rails. In Chicago in 1890 the average price was \$2.51 a keg; in 1898 it is \$1.36.—W. E. Curtis in Chicago Record.

MUSTACHE GUARD.

Queer Apparatus Made of Gold and With Ear Hooks Like Spectacles.

"I had a mighty odd experience on my last western trip," said a New Orleans drummer the other day. "It was at a little town not a great distance from New Orleans and not necessary to name, as far as this story is concerned. I had stopped over for the day and went to the principal hotel to get my dinner. While I was seated at the table a tall, solemn looking man came in and took a chair opposite. From his general appearance I judged him to be one of the heavy swells of the village, and, by the way, I afterward learned that such was the case. He wore a long tailed coat and a bright blue cravat, and had a very heavy, carefully groomed black moustache.

"As soon as he seated himself he felt in his vest pocket and drew out a singular apparatus consisting of a strip of gilt metal, about an inch broad and six inches long, slightly curved and furnished at each end with hooks, like a pair of spectacles. While I was wondering what the deuce the machine was, he deliberately brushed back his moustache and fastened the plate over his upper lip, putting the hooks around his ears. Then he began solemnly to eat his dinner. The effect of that extraordinary contrivance clamped around his countenance was so strange and startling that I couldn't take my eyes off him, but he paid no attention to my stare and finished his meal in dignified silence. The apparatus was a mustache guard, but where he got it and whoever conceived such a weird idea are mysteries too deep for me. One thing was certain, however, and that was that its owner evidently believed it to be an implement in use in the best society."—New Orleans Times-Democrat.

Platforms For Smokers.

The Citizens' company of Detroit is adopting a new style of car to accommodate the smokers who generally crowd the rear platform during the busy hours and block the entrance or egress of passengers. The new car, No. 368, was tried for the first time the other evening on the Woodward line. The rear platform has been extended about two or three feet, making a platform a little over six feet in length. This is divided with an iron rail, so that those who wish to smoke may do so outside of this rail, thus leaving the doorway clear. If this experiment is successful, the plan will be permanently adopted.—Detroit Tribune.

Warning to France.

If France would look at the wrecks outside of Santiago harbor it might suggest a different way to satisfy her honor than going to war with a naval power.—Chicago News.

BAHR-EL-GHAZAL.

ENGLAND AND FRANCE MAY FIGHT OVER IT.

It Is Triangular in Shape and is Wonderfully Fertile. Being Traversed by Innumerable Streams—is Really a Part of Egypt.

Westward the scene of interest in Africa, like the course of empire, takes its way. Fashoda is to be abandoned. So much has been confidently expected from the beginning of the present complications, and seems now assured. Some say the Bahr-el-Ghazal will likewise be relinquished, or, more properly, all claims upon it will be relinquished, by the French. Of that we are by no means so sure. On the contrary, it appears far more likely that there will be some protracted and pretty vigorous diplomatic negotiations before the final ownership of that territory and the exact limits of it are determined to the satisfaction of all concerned.

The Bahr-el-Ghazal is both a country and a river. The river of that name is the chief tributary of the Nile from the west and south of the Bahr-el-Azrek, or Blue Nile. It is in itself a large stream, more than 500 miles long, and receives the waters of the Bahr-el-Arab, Bahr Dembo and other streams. The country of the same name is the region drained by that river and its tributaries. It lies in the heart of the continent, at the southern edge of the Sudan, west of the Nile and immediately north of the Kongo Free State. It is in form a triangle, with one side extending along the Nile from Mokren-el-Bohur to Lado, another from Mokren-el-Bohur along the Bahr-el-Ghazal and Bahr-el-Arab to the confines of the independent sultanate of Wadai, and the third from Wadai to Lado, along the watershed between the valleys of the Bahr-el-Ghazal and the Ubanghi. Of these sides the first is about 300, the second 500 and the third nearly 800 miles long. This region is traversed by innumerable streams, is wonderfully fertile and productive and is densely populated. It was one of the most valued parts of the Egyptian empire in the days when Gordon was governor general of the Sudan, and the title of Egypt to it today seems indisputable. The gallant Major Marchand traversed it with his expedition on his way to Fashoda, and established posts at half a dozen places. But he was unable to leave at them effective garrisons, and did not, of course, take such actual possession of the country as would give France a title to it, even if it had been open to such acquisition by any power.

The dispute will be, then, over the boundaries of the province, and especially over the boundary between it and the French Congo. That boundary has never yet been delimited. It is true that in 1890, when the German colony of Kamerun was rudely regarded as extending up to the Egyptian borders, Great Britain, acting on behalf of Egypt, made a convention with Germany, by which the boundary between Kamerun and the Bahr-el-Ghazal was fixed at the watershed between the two great valleys, as already described. The validity of that settlement was recognized by Italy and the Congo State, though France has never accepted it, but has, on the contrary, denounced it. Moreover, and this is most to the point, France has since that time pushed the borders of her Congo State up the north shore of the Ubanghi to Wadai, seizing a vast tract of what was informally supposed to be German territory, and making Kamerun a mere coast province, cut off at the back by French possessions. The line formerly traced between Egypt and Germany proves, therefore, to be between Egypt and France, and will have to be traced anew.

It is over that line that the controversy will be. That there will be a war over it is scarcely to be thought of. The matter is eminently one to be settled by diplomats and engineers. Not the least interesting factor in the problem is the formal statement made a few years ago by M. Hanotaux, then foreign minister of France, that all the territories formerly under the dominion of the sultan and the khedive must still be deemed Egyptian. If that principle be maintained, all the Bahr-el-Ghazal, to its widest limits, belongs to Egypt. And it is not easy to see how M. Hanotaux's successor can fail to maintain that principle.—New York Tribune.

GAELIC LEAGUE OF AMERICA.

National Organization Formed For the Study of Art and Literature.

Delegates from the various Gaelic societies in the United States met at the rooms of the New York Gaelic Society the other night and formed a national organization to be hereafter known as the Gaelic League of America. The objects of the new organization are the cultivation of the language, literature, music and art of Ireland. Former Assistant Secretary of the Navy William McAdoo made the principal address, in which he set forth the objects of the league. Mr. McAdoo spoke in English. The other speeches and songs which followed the meeting were in Gaelic. A feature of the musical programme was the singing in Gaelic of "The Star Spangled Banner." The translation was made by the Rev. E. O'Gowen of

There is too little preaching of the gospel of health. It is the last thing that anyone thinks of teaching, either to a man, child or woman. It is one of the most important branches of an education. Without health, a man will be a business, and a woman a social failure. When the body of either a man or a woman is properly nourished, the result is the enjoyment of good health. Almost all ill-health is due to improper or insufficient nourishment. If the stomach is right and the liver is right, the blood will receive its normal supply of the life-giving elements of the food and the body will be properly nourished. Dr. Pierce's Golden Medical Discovery acts directly upon the stomach and liver. It purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It promotes the natural activity of the entire nutritive organism. It puts an end to the slow starvation that is at the base of many diseases. It does not make flabby fat like cod liver oil, but firm, muscular tissues. It does not make corpulent people more corpulent but builds up the system to the normal standard.

"I was run down with nervous prostration and female weakness and kidney trouble," writes Mrs. Maranda Ramsey of Smartt, Warren Co., Tenn. "My bowels were constipated. My whole system was wrecked. My friends thought I would die. I had read of Dr. Pierce's medicines and sent for the 'Golden Medical Discovery,' 'Favorite Prescription' and 'Pleasant Pellets.' In one week's time I began to sit up all day, after being so bad that I had to be helped in and out of bed. I have taken four bottles of 'Golden Medical Discovery' and two of 'Favorite Prescription' and am in better health than I have been for years."

Constipation is the father of all manner of maladies. If it did not exist, or was in all cases promptly relieved, the majority of medical books could be safely destroyed. It is the easiest sickness to neglect and the simplest to cure. Dr. Pierce's Pleasant Pellets cure constipation every time. They cure it promptly, completely and permanently. They never gripe. They don't get you out o' nights. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists keep nothing else "just as good."

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Cruz-n's Advice.

When the kidneys are sick they grumble. You hear them clear through the back. They grumble when overtaxed. Know how the kidneys grumble? It's a simple thing; your back will tell you.

Cinch-n is the first grumbling warning.

The kidneys give it and if you heed it not.

Look out for trouble, it will surely come.

Urinary trouble, kidney trouble and many miseries.

Doan's Kidney Pills are made for kidneys only.

They cure every form of kidney illness.

The experience of East Liverpool people proves this.

Here's a case in point: Mrs. Wm. James, who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull, aching pain across my loins, up under my shoulder blades, and rheumatic pain in my right shoulder. I was very susceptible to changes in the weather, and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing frequent fluttering of the heart and a shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. Pharmacy, and obtained relief almost at once. The symptoms all left, and there was nothing wrong with my kidneys after the treatment. I feel much better and stronger generally."

Doan's Kidney Pills are for sale by dealers. Prices 50 cents per box. By mail on receipt of price by Foster-Millburn Co., Buffalo, N. Y., sole agents for United States. Remember the name, Doan's and take no other.

MADE ME A MAN

AJAX TABLETS POSITIVELY CURE ALL NERVOUS DISORDERS—falling disease, impotency, sterility, etc. It cures all forms of disease. Abuse of other Excesses and Indulgences. They quickly and surely restore Lost Vitality in old or young, and fit a man for study, business or marriage. Prevent Insanity and Consumption. Cure Insomnia and Consumption. We give a positive written guarantee to effect a cure. Price 50 CTS. per package, or six pipes (full treatment) for \$2.50. Mail, in plain wrapper, upon receipt of price. Chicago, Ill. 79 Dearborn Street. AXAJ REMEDY CO., Chicago, Ill.

For sale in East Liverpool, Ohio, by John Bodson and the W. & W. Pharmacy.

WELLSVILLE.

GEISSE WAS RELEASED

Bradley Paid the Fine Mayor Dennis Imposed.

KOUNTZ WAS BOUND TO COURT

and the Story of the Horseless Carriage Came to an End--Entertainment at the High School--All the News of Wellsville.

The case of Morrow Bradley and Joseph Geisse was disposed of by Mayor Dennis yesterday afternoon. It was developed that Geisse had only accompanied Bradley in the "horseless carriage" at his invitation and had no idea of wrong doing. Geisse was therefore dismissed. John Kountz had informed Bradley that the rig was his and he could use it. Kountz was bound over to court on a charge of appropriating property to his own use, in the sum of \$50. Bradley paid his fine and was dismissed.

High School Entertainment.

The entertainment given by the sophomore class of the high school was thoroughly enjoyed by a large number of visitors.

The room was elaborately decorated in fall flowers and ferns, and the class colors, cream and green, were elaborately displayed.

Each member responded to roll call with a quotation, and introductory remarks were made by President H. Blackburn. The question of whether Arnold's or Burr's treason was the greater was ably discussed by George Lowry, Miss Eva Brenneman, Henry Goetz and Miss Kate Glenn. Attorney Ingram, Miss Danforth and Miss Inbrie were judges, and awarded the decision to the negative.

The high school quartette with Miss Rayl as accompanist provided excellent music. The remainder of the program was most entertaining, two productions of merit being "The Class Will," by Miss Bessie McLean, and "A Girl's View of Football," by Miss Helen Denhart.

A Pleasant Party.

The Peanut club, composed of Misses Gertrude Lyth, Lena Lowary, Helen Russell, Grace Russell, Bertha Brandon, Fannie Klasgye, Beulah Wells, Dorothy Noragon, Lowie Hill, Beulah Williamson, Mary Aten and Katie Donaldson, were entertained at the home of Miss Mary Donaldson, Main street, last evening. A number of gentlemen were also invited guests. The entertainment consisted of games and music. Refreshments were served.

Church News.

Reverend McKee is recovering from his late illness. He was able for the first time to eat dinner with the family yesterday. Rev. J. B. Groff will occupy the pulpit of the Second Presbyterian church tomorrow.

"The triumphant glory of the church" will be the subject for the morning service at the Methodist Episcopal church. Evening subject "Following the Christ." Rev. Earl D. Holtz, pastor.

Methodist Protestant church, Rev. J. A. Thropp, pastor—Morning subject, "For What God Created Man;" evening, "What Lasts."

Christian church, Rev. H. Newton Miller, pastor—Morning subject "An Approved Workman;" evening, "Take Your Choice." Reverend Miller will preach in Congo at 5 p.m.

News of Wellsville.

The high school football team drove over to Lisbon this morning. They will play the Lisbon team this afternoon.

Miss Mary Monsey and Mrs. Wilson went out on the morning train to Hammondsburg where they will visit Melvin Wilson.

J. Goetz leaves tonight for New York, where he will attend the funeral of L. Jaroslawski, the grandfather of Henry and Albert Goetz, who died recently. The funeral takes place on Tuesday.

The Good Templars held a meeting last evening in their hall in Aten's block. Two candidates were initiated.

A party of young men from East Liverpool missed the last car last night, and were compelled to remain in town until this morning.

Work on the pottery goes on without interruption. The machinery will be ready when the buildings are completed.

They say that a resident of this place was in police court in Wheeling one day this week. He did not give his name, and said nothing of his home being in Wellsville.

THE BOSTON DEPARTMENT STORE.

Ladies' and Misses' Mackintoshes

A new line this week of these very useful garments. Misses' Single Texture Mackintoshes with double capes at \$2.50, double textures, plaid lined at \$3.50. Ladies' navy blue and black Mackintoshes, single or double capes, at \$3.98, \$5 and \$7.50. Ladies' separate skirt and cape Mackintoshes in navy and brown at \$5 and \$6.

UMBRELLAS. We are showing some great values in Umbrellas this week at 39c, 79c, \$1 and \$1.50. If in need of a good every day Umbrella, see these four numbers before you purchase. Better numbers up to \$5 each, but our adv. today is on the cheaper numbers.

THE NEW DRESSER TRUNK.

Something new this week in a trunk. Call and let us show you the good features of this trunk, which are many. It makes an excellent Xmas present.

For Saturday and Monday's Trade.

We will offer many special drives in Ladies' and Children's Wraps, Fur Collarettes, Blankets, Comforts and Underwear. Visit us this week and we will make it interesting for you.

THE BOSTON DEPARTMENT STORE,

A. S. YOUNG, Fifth and Market Streets.

KING OF ANTICOSTI.

Mr. Chamberlain Asks For Facts About Henri Menier and His Island.

Mr. Chamberlain has asked the governor general of Canada for the facts as to the ownership of Anticosti island by Mr. Menier. The governor general has forwarded the inquiry to Attorney General Archambault of Quebec. The Dominion parliament at its next session will be asked to pass an act establishing the title of the heirs of Francois Bissot to the island of Anticosti. It is pointed out that under a judgment of the imperial privy council the right of the heirs of Francois Bissot to a tract of land on the coast of Labrador, including Anticosti, was established. It is also alleged that the present owner of the island, Mr. Henri Menier, obtained his title to the land under right of purchase from a corporation which had usurped the title of the rightful owners.

The island was obtained by the Labrador company through the Bissot claim in 1889. This company came to grief. One of Mr. Menier's first acts was to prohibit any one from landing on the island without permission or to fish within three miles of the shore. The fishermen of Newfoundland at once complained, and Mr. Menier was informed that he must not attempt to assume or exercise jurisdiction over the territorial waters of Anticosti. Mr. Menier at once retired from his position, but was put in force regulations which brought him into conflict with the fishermen not living on the island. He also drew up rules for the 250 fishermen living on the island. Some of these rules gave offense and were the real cause of his trouble with the fishermen of Fox bay, which has assumed serious proportions.—New York Sun.

The Usual Thing.

"Susie Smithers has eloped with Charlie Briggs."

"What are her folks doing about it?"

"Oh, they've started the story that she has disappeared and have coaxed the police to drag the lake for her." —Cleveland Plain Dealer.

KING OF ANTICOSTI.

Mr. Chamberlain Asks For Facts About Henri Menier and His Island.

Mr. Chamberlain has asked the governor general of Canada for the facts as to the ownership of Anticosti island by Mr. Menier. The governor general has forwarded the inquiry to Attorney General Archambault of Quebec. The Dominion parliament at its next session will be asked to pass an act establishing the title of the heirs of Francois Bissot to the island of Anticosti. It is pointed out that under a judgment of the imperial privy council the right of the heirs of Francois Bissot to a tract of land on the coast of Labrador, including Anticosti, was established. It is also alleged that the present owner of the island, Mr. Henri Menier, obtained his title to the land under right of purchase from a corporation which had usurped the title of the rightful owners.

The island was obtained by the Labrador company through the Bissot claim in 1889. This company came to grief,

and the island was sold at auction to an English company known as the Anticosti company, from which Mr. Menier bought it in 1895 for \$125,000. After the purchase, in order to make his title unassailable, Mr. Menier obtained from the government of the province of Quebec a document declaring that, under the judgment of the imperial privy council delivered three years before, the government had no title to the island.

One of Mr. Menier's first acts was to prohibit any one from landing on the island without permission or to fish within three miles of the shore. The fishermen of Newfoundland at once complained, and Mr. Menier was informed that he must not attempt to assume or exercise jurisdiction over the territorial waters of Anticosti. Mr. Menier at once retired from his position, but he put in force regulations which brought him into conflict with the fishermen not living on the island. He also drew up rules for the 250 fishermen living on the island. Some of these rules gave offense and were the real cause of his trouble with the fishermen of Fox bay, which has assumed serious proportions.—New York Sun.

WELLSVILLE.

GEISSE WAS RELEASED

Bradley Paid the Fine Mayor Dennis Imposed.

KOUNTZ WAS BOUND TO COURT

And the Story of the Horseless Carriage Came to an End--Entertainment at the High School--All the News of Wellsville.

The case of Morrow Bradley and Joseph Geisse was disposed of by Mayor Dennis yesterday afternoon. It was developed that Geisse had only accompanied Bradley in the "horseless carriage" at his invitation and had no idea of wrong doing. Geisse was therefore dismissed. John Kountz had informed Bradley that the rig was his and he could use it. Kountz was bound over to court on a charge of appropriating property to his own use, in the sum of \$50. Bradley paid his fine and was dismissed.

High School Entertainment.

The entertainment given by the sophomore class of the high school was thoroughly enjoyed by a large number of visitors.

The room was elaborately decorated in fall flowers and ferns, and the class colors, cream and green, were elaborately displayed.

Each member responded to roll call with a quotation, and introductory remarks were made by President H. Blackburn. The question of whether Arnold's or Burr's treason was the greater was ably discussed by George Lowry, Miss Eva Brenneman, Henry Goetz and Miss Kate Glenn. Attorney Ingram, Miss Danforth and Miss Imbrie were judges, and awarded the decision to the negative.

The high school quartette with Miss Rayl as accompanist provided excellent music. The remainder of the program was most entertaining, two productions of merit being "The Class Will," by Miss Bessie McLean, and "A Girl's View of Football," by Miss Helen Denhart.

A Pleasant Party.

The Peanut club, composed of Misses Gertrude Lyth, Lena Lowary, Helen Russell, Grace Russell, Bertha Brandon, Fannie Klasgye, Beulah Wells, Dorothy Noragon, Lowie Hill, Beulah Williamson, Mary Aten and Katie Donaldson, were entertained at the home of Miss Mary Donaldson, Main street, last evening. A number of gentlemen were also invited guests. The entertainment consisted of games and music. Refreshments were served.

Church News.

Reverend McKee is recovering from his late illness. He was able for the first time to eat dinner with the family yesterday. Rev. J. B. Groff will occupy the pulpit of the Second Presbyterian church tomorrow.

"The triumphant glory of the church" will be the subject for the morning service at the Methodist Episcopal church. Evening subject "Following the Christ." Rev. Earl D. Holtz, pastor.

Methodist Protestant church, Rev. J. A. Thrapp, pastor--Morning subject, "For What God Created Man;" evening, "What Lasts."

Christian church, Rev. H. Newton Miller, pastor--Morning subject "An Approved Workman;" evening, "Take Your Choice." Reverend Miller will preach in Congo at 5 p.m.

News of Wellsville.

The high school football team drove over to Lisbon this morning. They will play the Lisbon team this afternoon.

Miss Mary Monsey and Mrs. Wilson went out on the morning train to Hammondsburg where they will visit Melvin Wilson.

J. Goetz leaves tonight for New York, where he will attend the funeral of L. Jaroslawski, the grandfather of Henry and Albert Goetz, who died recently. The funeral takes place on Tuesday.

The Good Templars held a meeting last evening in their hall in Aten's block. Two candidates were initiated.

A party of young men from East Liverpool missed the last car last night, and were compelled to remain in town until this morning.

Work on the pottery goes on without interruption. The machinery will be ready when the buildings are completed.

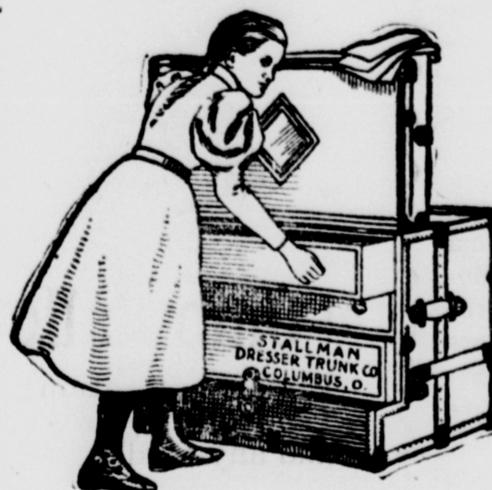

They say that a resident of this place was in police court in Wheeling one day this week. He did not give his name, and said nothing of his home being in Wellsville.

THE BOSTON DEPARTMENT STORE.

Ladies' and Misses' Mackintoshes

THE BOSTON DEPARTMENT STORE,

A. S. YOUNG, Fifth and Market Streets.

KING OF ANTICOSTI.

Mr. Chamberlain Asks For Facts About Henri Menier and His Island.

Mr. Chamberlain has asked the governor general of Canada for the facts as to the ownership of Anticosti island by Mr. Menier. The governor general has forwarded the inquiry to Attorney General Archambault of Quebec. The Dominion parliament at its next session will be asked to pass an act establishing the title of the heirs of Francois Bissot to the island of Anticosti. It is pointed out that under a judgment of the imperial privy council the right of the heirs of Francois Bissot to a tract of land on the coast of Labrador, including Anticosti, was established.

It is also alleged that the present owner of the island, Mr. Henri Menier, obtained his title to the land under right of purchase from a corporation which had usurped the title of the rightful owners.

The island was obtained by the Labrador company through the Bissot claim in 1889. This company came to grief, and the island was sold at auction to an English company known as the Anticosti company, from which Mr. Menier bought it in 1895 for \$125,000. After the purchase, in order to make his title unassailable, Mr. Menier obtained from the government of the province of Quebec a document declaring that, under the judgment of the imperial privy council delivered three years before, the government had no title to the island.

One of Mr. Menier's first acts was to prohibit any one from landing on the island without permission or to fish within three miles of the shore. The fishermen of Newfoundland at once complained, and Mr. Menier was informed that he must not attempt to assume or exercise jurisdiction over the territorial waters of Anticosti. Mr. Menier at once retired from his position, but he put in force regulations which brought him into conflict with the fishermen not living on the island. He also drew up rules for the 250 fishermen living on the island. Some of these rules gave offense and were the real cause of his trouble with the fishermen of Fox bay, which has assumed serious proportions. —New York Sun.

The Usual Thing.

"Susie Smithers has eloped with Charlie Briggs."

"What are her folks doing about it?"

"Oh, they've started the story that she has disappeared and have coaxed the police to drag the lake for her." —Cleveland Plain Dealer.

UNION PAPERS.
All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

THE anti-annexationists who delight in the use of that word "imperialism" can read the election returns and then think to themselves that for once a catchy expression has ceased to catch.

IF Spain really counted on Democratic help had the war-is-a-failure party won she is entitled to consideration. What hope could she have without sufficient energy or money to raise a big campaign fund?

SPIRITS distilled from corn enter largely into the manufacture of smokeless powder. Now the conscientious farmer can grow his crop without a twinge, for while it may still be used to kill men it will not be through the agency of whisky.

ONE result of the war can be seen in the number of young men who as soon as they are released from their obligations as volunteers enroll themselves as soldiers in the regular army. It is a good thing for the country since it provides a class of intelligent, well drilled soldiers about whom can be gathered the less desirable recruits when the army is reorganized and the force largely increased.

THE CAROLINA OUTBREAK.
It is a sad commentary upon the civilization of this country that, after taking up the cause of humanity and by force of arms driving the flag of barbarity from western waters, it cannot restrain its own people from murdering and depriving of their rights others of its people who have the same protection under the Stars and Stripes. Evidently we need a little stirring up at home. There may be local causes and great aggravation to excuse the outbreaks against negroes in the Carolinas, but there is a law higher than the willful acts of excited men who burn and kill when they are so inflamed by passion as to see nothing but one side.

REDEEMING THE WEST.

When the silver men glance over corrected returns from the west their hearts will turn cold within them and they will certainly think that silver is dead and some other issue must be brought out if they are to have any prominent place in politics. With the Dakotas, California, Nebraska, Wyoming and Nevada declaring at the polls for Republican principles they cannot hope much longer to maintain their position.

Clearly can it be seen how much the cause of silver has lost. The people who looked upon the crocodile tears of Teller as the genuine article and cheered Bryan as a standard bearer who was not smirched with politics, are awakening to the fact that their future lies in the enforcement of Republican principles. In the tariff and a safe money system they see what they hoped they would find in free silver. But the latter has not borne careful investigation. It has proved a pill too bitter to be taken without serious consideration.

SATCHEL FLOATED AWAY

Bearing a Thousand Dollars In Negotiable Paper.

SEARCH FAILED TO FIND IT

The Owner Was Being Driven Across Yellow Creek In a Buggy When the Horses Stepped In a Deep Hole—It Was Seen at Ironton.

T. Johnson, a collector for an agricultural implement manufacturing concern, suffered the loss near Ironton yesterday of a valise containing \$1,000 in negotiable paper.

Johnson was being driven from the town in a buggy, and when near Salisbury it was found necessary to ford Yellow Creek. The stream was high, being swollen by the rains of last week, and the horses slipped into a deep hole.

The buggy followed, and the bed was in a moment filled with water. The valise containing notes and other valuables floated out of the vehicle, and being caught in the current was quickly carried down the stream. The loss was discovered, but not in time to catch the valise. Ironton was notified at once, and a search instituted, but the valise was not found.

A man who lives below the town said he had seen a valise pass down not far from Hammondsburg, but not knowing its value allowed it to go by.

The banks of the stream were searched, but the valise could not be found. It is believed the valuables floated out into the river, and will never be seen again.

CUMMINS WON.

The Greenwood Passed In an Exciting Race.

The steamers Will J. Cummins and the Greenwood had a very exciting race Thursday night while going to Pittsburgh. The Cummins overtook the Greenwood near this city, and passed her before she got to Rochester and maintained the lead to Pittsburgh. The boats had a very spirited race last week. The Greenwood is the new Kanawha river packet and the Cummins runs to Cincinnati.

PRESENTED WITH A COLLAR.

Mrs. William Chisholm Surprised by Her Friends.

Mrs. William Chisholm was surprised at her home in Lincoln avenue last night when 50 Rebekahs entered, and proceeded to spend a pleasant evening. The lady was presented with a past grand's collar.

Mrs. Chisholm and her family will next week leave for Allegheny where they will in future reside.

No More Freight.

Freight Agent T. J. Thomas this morning received a notice from the Cleveland office to the effect that the Lake Superior Transportation company will sail their last vessel next Saturday. Shipments to points on that line from Liverpool closed today. The Soo line and the Northern Steamship company will stop navigation on the 20th.

MUCH MONEY NEEDED

To Put the Chelsea In Operation Again.

NEGOTIATIONS NOW IN PROGRESS

Thirty-five Thousand Dollars Will Be Required, and Parties Are Now Raising the Amount—if Successful It Will Be In Operation Jan. 1.

Many stories have recently been circulated regarding the movement in connection with the Chelsea pottery at Cumberland. Of the matter the Independent says:

"There is still no definite news about the Chelsea starting. There are all kinds of rumors in the air, but the only authentic news seems to be that certain parties are talking of putting \$35,000 in the plant. If the negotiations are successful the plant will be started the first of January."

The Liverpool men who are credited with being connected with the scheme have nothing to say. It is believed here that little Liverpool money will go into the pottery, the principal part of the amount being advanced by Pittsburg and Cumberland men.

SMILE TEMPTERS.

His Earthly Effects.

"Well, Uncle Jim," said the lawyer, "the doctor says there's no hope for you."

"Yes, suh, dey tells me I gwine ter cross over."

"Have you made your will?"

"Yes, suh, I done will ter go."

"I mean," said the lawyer in an explanatory way, "have you anything to leave?"

"Oh, yes, suh!" explained the old man joyfully. "A wife and de rheumatism!"—Atlanta Constitution.

Yale Man's Little Joke.

Professor Tracy Peck used to tell a story of how a Yale man saved his life. He was about to be hung in Texas for horse stealing and said:

"Hold on, gentlemen! Do you know who you are hanging? I am a graduate of Yale college, and here is my diploma."

It being printed on vellum in Latin, no one could read it, and, thinking he must be an important personage, they let him go free.—Green Bag.

To Put the Chelsea In Operation Again.

NEGOTIATIONS NOW IN PROGRESS

Thirty-five Thousand Dollars Will Be Required, and Parties Are Now Raising the Amount—if Successful It Will Be In Operation Jan. 1.

Many stories have recently been circulated regarding the movement in connection with the Chelsea pottery at Cumberland. Of the matter the Independent says:

"There is still no definite news about the Chelsea starting. There are all kinds of rumors in the air, but the only authentic news seems to be that certain parties are talking of putting \$35,000 in the plant. If the negotiations are successful the plant will be started the first of January."

The Liverpool men who are credited with being connected with the scheme have nothing to say. It is believed here that little Liverpool money will go into the pottery, the principal part of the amount being advanced by Pittsburg and Cumberland men.

SMILE TEMPTERS.

His Earthly Effects.

"Well, Uncle Jim," said the lawyer, "the doctor says there's no hope for you."

"Yes, suh, dey tells me I gwine ter cross over."

"Have you made your will?"

"Yes, suh, I done will ter go."

"I mean," said the lawyer in an explanatory way, "have you anything to leave?"

"Oh, yes, suh!" explained the old man joyfully. "A wife and de rheumatism!"—Atlanta Constitution.

Yale Man's Little Joke.

Professor Tracy Peck used to tell a story of how a Yale man saved his life. He was about to be hung in Texas for horse stealing and said:

"Hold on, gentlemen! Do you know who you are hanging? I am a graduate of Yale college, and here is my diploma."

It being printed on vellum in Latin, no one could read it, and, thinking he must be an important personage, they let him go free.—Green Bag.

Reversing Things.

When anybody in your house is sick you get the best doctor you know of, no matter if you have to send clear across the town for him.
But when he writes the prescription you rush to the nearest drug store with it. That isn't reasonable. Your druggist is almost as important as your doctor. Even if it's a little farther, go to a surer, safer, thoroughly reliable drug store. In other words, come here.

EAST LIVERPOOL, O., SATURDAY, NOV. 12

UNION PAPERS.
All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

THE anti-annexationists who delight in the use of that word "imperialism" can read the election returns and then think to themselves that for once a catchy expression has ceased to catch.

If Spain really counted on Democratic help had the war-is-a-failure party won she is entitled to consideration. What hope could she have without sufficient energy or money to raise a big campaign fund?

SPIRITS distilled from corn enter largely into the manufacture of smokeless powder. Now the conscientious farmer can grow his crop without a twinge, for while it may still be used to kill men it will not be through the agency of whisky.

ONE result of the war can be seen in the number of young men who as soon as they are released from their obligations as volunteers enroll themselves as soldiers in the regular army. It is a good thing for the country since it provides a class of intelligent, well drilled soldiers about whom can be gathered the less desirable recruits when the army is reorganized and the force largely increased.

THE CAROLINA OUTBREAK.
It is a sad commentary upon the civilization of this country that, after taking up the cause of humanity and by force of arms driving the flag of barbarity from western waters, it cannot restrain its own people from murdering and depriving of their rights others of its people who have the same protection under the Stars and Stripes. Evidently we need a little stirring up at home. There may be local causes and great aggravation to excuse the outbreaks against negroes in the Carolinas, but there is a law higher than the willful acts of excited men who burn and kill when they are so inflamed by passion as to see nothing but one side.

REDEEMING THE WEST.
When the silver men glance over corrected returns from the west their hearts will turn cold within them and they will certainly think that silver is dead and some other issue must be brought out if they are to have any prominent place in politics. With the Dakotas, California, Nebraska, Wyoming and Nevada declaring at the polls for Republican principles they cannot hope much longer to maintain their position.

Clearly can it be seen how much the cause of silver has lost. The people who looked upon the crocodile tears of Teller as the genuine article and cheered Bryan as a standard bearer who was not smirched with politics, are awakening to the fact that their future lies in the enforcement of Republican principles. In the tariff and a safe money system they see what they hoped they would find in free silver. But the latter has not borne careful investigation. It has proved a pill too bitter to be taken without serious consideration.

SATCHEL FLOATED AWAY

Bearing a Thousand Dollars In Negotiable Paper.

SEARCH FAILED TO FIND IT

The Owner Was Being Driven Across Yellow Creek In a Buggy When the Horses Stepped In a Deep Hole--It Was Seen at Irondale.

T. Johnson, a collector for an agricultural implement manufacturing concern, suffered the loss near Irondale yesterday of a valise containing \$1,000 in negotiable paper.

Johnson was being driven from the town in a buggy, and when near Salisbury it was found necessary to ford Yellow Creek. The stream was high, being swollen by the rains of last week, and the horses slipped into a deep hole. The buggy followed, and the bed was in a moment filled with water.

The valise containing notes and other valuables floated out of the vehicle, and being caught in the current was quickly carried down the stream. The loss was discovered, but not in time to catch the valise. Irondale was notified at once, and a search instituted, but the valise was not found. A man who lives below the town said he had seen a valise pass down not far from Hammondsburg, but not knowing its value allowed it to go by.

The banks of the stream were searched, but the valise could not be found. It is believed the valuables floated out into the river, and will never be seen again.

CUMMINS WON

The Greenwood Passed In an Exciting Race.

The steamers Will J. Cummins and the Greenwood had a very exciting race Thursday night while going to Pittsburgh. The Cummins overtook the Greenwood near this city, and passed her before she got to Rochester and maintained the lead to Pittsburgh. The boats had a very spirited race last week. The Greenwood is the new Kanawha river packet and the Cummins runs to Cincinnati.

PRESENTED WITH A COLLAR.

Mrs. William Chisholm Surprised by Her Friends.

Mrs. William Chisholm was surprised at her home in Lincoln avenue last night when 50 Rebekahs entered, and proceeded to spend a pleasant evening. The lady was presented with a past grand's collar.

Mrs. Chisholm and her family will next week leave for Allegheny where they will in future reside.

NO MORE FREIGHT.

Freight Agent T. J. Thomas this morning received a notice from the Cleveland office to the effect that the Lake Superior Transportation company will sail their last vessel next Saturday. Shipments to points on that line from Liverpool closed today. The Soo line and the Northern Steamship company will stop navigation on the 20th.

Council and Sewer Commission
Did Not Meet

TO TALK ABOUT NEW DISTRICT

Plan as It Has Been Prepared and Would
Have Been Presented--Had a Sufficient
Number of Councilmen Been Present
Kinehart Would Have Been Paid \$1,000.

The members of the sewer commission met at city hall last evening for the purpose of meeting with council, but as only four members of council were present the meeting was deferred until next Monday night at 7:30 o'clock.

The proposition which will be made to council by the commission is in substance as follows: That council appropriate a certain sum of money which is to be placed at the disposal of the city engineer, who will upon the receipt of the action advertise for bids for sewer pipe to be placed in sewer district No. 2.

The members of council who were present last night seemed favorable to the request, and that the money will be appropriated there is no doubt.

Had there been a quorum it was the intention to pay Contractor Kinehart \$1,000 on his claim for work.

ADJOURNED.

The Assignment In Court For the Week
Is Finished.

LISBON, Nov. 12.—[Special]—Court adjourned yesterday afternoon to meet next Monday.

Charles Spedel has been appointed guardian of Hannah Heston, bond \$4,000.

A marriage license was issued to C. W. Stackhouse and Jessie Van Pelt.

M. H. Younger has sold to Etta Lahm land in Salem, \$1,500.

Richard Gardner obtained judgment in Justice King's court in Salem against Henry Bergman for \$39, and Bergman has appealed.

J. H. Streeter, receiver of the Quaker Valley Mining company, of Rogers, has been ordered to advertise and sell all of the company's real and personal property. The motion by M. McNabb, of Youngstown, asking for an order to have the sheriff levy on the property in the receiver's hand, was overruled, and McNabb is granted leave to file a supplemental intervening cross petition, making the receiver and Sheriff Gill defendants.

Edward Lawson, of Hanover, was granted a divorce from his wife, Alice Lawson, on grounds of gross neglect. The plaintiff is ordered to pay the costs.

Annie Cornish was divorced from Samuel W. Cornish and restored to her maiden name, Annie McPherson. Extreme cruelty was the cause assigned.

Commissioner French will soon move his family to Lisbon.

Sheriff Gill will have three sales of real estate at the courthouse next Monday.

NEXT WEEK

Will Bids Be Taken For Stonework on Salem's Pottery.

The Salem Herald of yesterday says: "Cornelius Cronin, a member of the pottery company, came to the city today bringing with him the plans and specifications for the pottery building foundation which are open to the inspection of all persons desiring to bid on the stonework."

"Mr. Cronin took Mr. French with him to the pottery site today to stake out the ground. H. J. Smith, of the Pottery company, expects to be here Monday or Tuesday and will bring the plans for the balance of the building and at that time will be ready to receive bids for the stonework."

NO MEETING.

The Library Directors Could Not Get Together.

The library directors failed to meet last evening owing to the fact that a quorum was not present.

It was decided to hold a special meeting next week. The members present discussed plans for the future, and a number of new books will be added to the library the first of the year.

Attended a Conference.

Rev. C. F. Swift, of this place, spent last evening in New Cumberland attending a congregational meeting of the Methodist Protestant church of that place.

Boys knee pants suits, 9 to 16 years, \$1.98, \$2.48, \$3.48, \$3.98, \$5. See Joseph Bros., fall and winter line.

See the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

Royal makes the food pure,
wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

PERSONAL MENTION.

—Mrs. W. H. Griggs is ill at her home in Seventh street.

—Adolph Fritz, of Fourth street, was a Pittsburgh visitor today.

—Maud Butler, of New Kensington, spent yesterday in the city visiting friends.

—Mrs. J. C. Thompson and children, of Thompson Place, were Allegheny visitors today.

—Mr. and Mrs. Jason H. Brookes and children were in Pittsburgh and Allegheny this afternoon visiting friends.

NEXT MONDAY

Captain Palmer Will Arrive In the City.

The following telegram was received this afternoon in answer to an inquiry. It explains itself:

CHICAGO, Nov. 12, 1898.

NEWS REVIEW, East Liverpool, O.:

We will reach New Brighton Sunday, and be in East Liverpool Monday. Am well and hearty. McKinley is my man, and this is the best government on earth. Incompetent subordinates will be taught a lesson by the head of the government. I am ready to carry Old Glory against any foe in time of battle. I am a Republican from center to circumference.

COLORBEARER HARRY PALMER.

Changing His Name.

Frank Patsch Kowski, of this city, wants his name changed and has applied to Judge Boone that the same be done. The name he prefers is Martin and when he is known by that name it is said the remainder of the Kowski family will come to court for a change of cognomen.

Switz Conde underwear, \$1.50 quality, this special make known by all dealers. Special leader Saturday 98c at JOSEPH BROS.'

Nearing Completion.

The new residence of Robert Hall in Fifth street is rapidly nearing completion and will be ready for occupancy in a few days.

The residences of A. G. Mason and J. W. Boch in Seventh street are also near completion.

Will Go to Wellsville.

Anthony Monahan, who has been employed at the Goodwin pottery since January as a kilnhand, has given up his place. He will take a similar position at the Pioneer pottery in Wellsville next week.

NOTICE TO TAXPAYERS.

Charles E. Smith, treasurer, will be at the office of George H. Owen & Co., on the 23rd and 24th for the purpose of receiving taxes.

Building a Kiln.

The work of erecting the new biscuit kiln at the McNicol pottery is progressing rapidly. It is probable the kiln will be fired for the first time week after next.

Winding Up the Campaign.

The Republican central committee will meet next week to wind up the affairs of the campaign. A number of matters need attention.

Having a suit made to measure, the essential part is a perfect fit. Joseph Bros., suits must come that way or money is refunded.

To Build a House.

Jackson Robinson will next week commence the erection of a five-room house in California hollow.

Services Ended.

The special services that have been in progress at the First Presbyterian church ended last night.

TOO MUCH BAD WHISKY

Caused the Arrest of Harry Martigo.

HE PAID THE AMOUNT ASKED

For the Authorities Had Taken Over \$220 From Him When He Was Gathered In--No Arrests For the Market Street Robbery--Later Developments.

Harry Martigo, who was arrested yesterday afternoon by Officer Grim and taken to jail in the patrol, where a charge of being drunk and disorderly was placed against him, was given a hearing before Mayor Bough, last evening. He said that he came from his home in Georgetown early in the day and had got just a little too much bad liquor in him. He was fined \$10 and costs, which amounted to \$14.60. The amount was deducted from the \$220.02 which was found on his person when he was searched, and the balance was given him and he started home.

Although the police have been investigating the Market street robbery, which occurred late Thursday night, they have secured no clue as yet. The robbery was more extensive than was first thought, and women's clothing to the amount of \$50 has been discovered as being taken. This fact has been reported to the authorities, but it is probable that no arrests will be made in the case for several days.

The case of the Reymann Brewing company is yet unsettled. Mayor Bough will not talk of the case with the exception that when the matter is settled the fact will be made known.

No arrests were made last night or this morning, and the jail is now without an occupant.

A World's Fair in 1903.

The committee of prominent citizens appointed some time ago to discuss the subject and determine in what manner the centennial of the purchase of the territory of Louisiana by the United States can best be celebrated, have decided that the holding of a world's fair in 1903 will be the better way to honor the event and state their conviction that such a fair can be successfully held in St. Louis.—New York Times.

Dummy Deer For Newcomers.

Near a hotel at South Molunkus, Me., the resort of many sportsmen at present, a young taxidermist has placed a stuffed deer. The animal is within sight of the house, and all the newcomers have had a shot at the mounted deer, with the result that cigars are in great demand there.—Boston Globe.

Will Finish Next Week.

The water works department will next week finish the work of putting in the sprinkler system at the Dresden pottery.

Seeing the Game.

A number of local enthusiasts are seeing the Greensburg-Duquesne foot ball game in Pittsburg this afternoon.

The Drummer Boy will be produced even better this year than last.

Bismarck's Memoirs.

Up to a very recent date the notion

that Prince Bismarck had left any au-

thentic memoirs aside from fragmen-

tary ana was only half believed. In

spite of the stories, revived at the time

of his death, of certain marvelous reve-

lations in manuscript, there were but

few in the real secret. As the fact is

now authoritatively announced, the

memoirs covering his career up to 1893,

with reflections and memorabilia, set

up in corrected proof, have been in the

possession of the great Cotta Publishing

House of Stuttgart for more than three

years. The intimations of Herr Busch,

Bismarck's obsequious and idolizing

Boswell, then, that the world would

have nothing more to look for an inside

view of the great man's life beyond

his own exposition, were either a decep-

tion or a blunder. Yet from such clews

as have been given, with the consent of the

Cotta firm, of the quality of the

Bismarck book, the world will still find

in the indiscreet reports of the German

Boswell side lights of great interest.

However Herr Busch may have colored

The Library Directors Could Not Get Together.

The library directors failed to meet last evening owing to the fact that a quorum was not present.

It was decided to hold a special meeting next week. The members present discussed plans for the future, and a number of new books will be added to the library the first of the year.

Attended a Conference.

Rev. C. F. Swift, of this place, spent last evening in New Cumberland attending a congregational meeting of the Methodist Protestant church of that place.

Boys knee pants suits, 9 to 16 years, \$1.98, \$2.48, \$3.48, \$3.98, \$5. See Joseph Bros., fall and winter line.

See the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

TOO MUCH BAD WHISKY

Caused the Arrest of Harry Martigo.

HE PAID THE AMOUNT ASKED

For the Authorities Had Taken Over \$220 From Him When He Was Gathered In--No Arrests For the Market Street Robbery--Later Developments.

Harry Martigo, who was arrested yesterday afternoon by Officer Grim and taken to jail in the patrol, where a charge of being drunk and disorderly was placed against him, was given a hearing before Mayor Bough, last evening. He said that he came from his home in Georgetown early in the day and had got just a little too much bad liquor in him. He was fined \$10 and costs, which amounted to \$14.60. The amount was deducted from the \$220.02 which was found on his person when he was searched, and the balance was given him and he started home.

Although the police have been investigating the Market street robbery, which occurred late Thursday night, they have secured no clue as yet. The robbery was more extensive than was first thought, and women's clothing to the amount of \$50 has been discovered as being taken. This fact has been reported to the authorities, but it is probable that no arrests will be made in the case for several days.

The case of the Reymann Brewing company is yet unsettled. Mayor Bough will not talk of the case with the exception that when the matter is settled the fact will be made known.

No arrests were made last night or this morning, and the jail is now without an occupant.

A World's Fair in 1903.

The committee of prominent citizens appointed some time ago to discuss the subject and determine in what manner the centennial of the purchase of the territory of Louisiana by the United States can best be celebrated, have decided that the holding of a world's fair in 1903 will be the better way to honor the event and state their conviction that such a fair can be successfully held in St. Louis.—New York Times.

Dummy Deer For Newcomers.

Near a hotel at South Molunkus, Me., the resort of many sportsmen at present, a young taxidermist has placed a stuffed deer. The animal is within sight of the house, and all the newcomer sportsmen have had a shot at the mounted deer, with the result that cigars are in great demand there.—Boston Globe.

Will Finish Next Week.

The water works department will next week finish the work of putting in the sprinkler system at the Dresden pottery.

Seeing the Game.

A number of local enthusiasts are seeing the Greensburg-Duquesne foot ball game in Pittsburg this afternoon.

The Drummer Boy will be produced even better this year than last.

Bismarck's Memoirs.

Up to a very recent date the notion that Prince Bismarck had left any authentic memoirs aside from fragmentary and was only half believed. In spite of the stories, revived at the time of his death, of certain marvelous revelations in manuscript, there were but few in the real secret. As the fact is now authoritatively announced, the memoirs covering his career up to 1893, with reflections and memorabilia, set up in corrected proof, have been in the possession of the great Cotta Publishing House of Stuttgart for more than three years. The intimations of Herr Busch, Bismarck's obsequious and idolizing Boswell, then, that the world would have nothing more to look for an inside view of the great man's life beyond his own exposition, were either a deception or a blunder. Yet from such clews as have been given, with the consent of the Cotta firm, of the quality of the Bismarck book, the world will still find in the indiscreet reports of the German Boswell side lights of great interest. However Herr Busch may have colored his stories of the recluse of Friedrichsruh, they are too intensely Bismarckian not to be essentially true. In the frankness of conversation, too, it seems quite natural that the prince should have expressed himself with an audacious frankness about men and things which he shrank from in his authorized memoirs, published over his own name and by direct dictation. It was the Bismarckian way one may fancy, of getting even with his enemies without subjecting himself to the direct imputation of revenging indiscretion. There is something of the mingling of fox and lion in such an attribution of policy quite consonant with the great chancellor's character.

The memoirs filling three and possibly four volumes are to be issued in the latter part of November in German, English and French, a special English edition in this country now being in process of preparation. Two volumes only will be issued, however, immediately, covering the prince's recollections down to the death of the Emperor Frederick in 1888. The rest of the material, it is intimated, being of such a character as would call down a deluge of imperial wrath, will be retained from public acquaintance for the present. As respects the first two volumes, it is asserted on good authority, they contain nothing particularly explosive. They consist of a mass of recollections, opinions, reflections and sentiments which, however flavored with Bismarckian salt, do not smack of too much irreverence. The title chosen is "Thoughts and Recollections." It was the original purpose to have had this work issued before Bismarck's death, but wiser reflection determined him on posthumous publication. It is said that the highest English bid for the memoirs was about £15,000.

The Citizens Union party of New York wished the vacancy left by Colonel Waring, candidate for state engineer, to be unfilled. The votes thus given for the dead man would be a tribute of honor. The fancy calls the mind to Latour d'Auvergne, the first grenadier of France. Whenever the regimental roll was called his name led, and back came the response, "Dead on the field of honor."

Hotel keeping is the best advertised business in the world. The big caravansaries in our larger cities are so constantly in evidence through reports of news and in the society columns that it amounts to many thousands of dollars in value in the course of a year.

ONLY FOUR WERE THERE

Council and Sewer Commission
Did Not Meet

TO TALK ABOUT NEW DISTRICT

Plan as It Has Been Prepared and Would Have Been Presented--Had a Sufficient Number of Councilmen Been Present Rinehart Would Have Been Paid \$1,000.

The members of the sewer commission met at city hall last evening for the purpose of meeting with council, but as only four members of council were present the meeting was deferred until next Monday night at 7:30 o'clock.

The proposition which will be made to council by the commission is in substance as follows: That council appropriate a certain sum of money which is to be placed at the disposal of the city engineer, who will upon the receipt of the action advertise for bids for sewer pipe to be placed in sewer district No. 2.

The members of council who were present last night seemed favorable to the request, and that the money will be appropriated there is no doubt.

Had there been a quorum it was the intention to pay Contractor Rinehart \$1,000 on his claim for work.

ADJOURNED.

The Assignment In Court For the Week to Finished.

LISBON, Nov. 12.—[Special]—Court adjourned yesterday afternoon to meet next Monday.

Charles Spedel has been appointed guardian of Hannah Heston, bond \$4,000.

A marriage license was issued to C. W. Stackhouse and Jessie Van Pelt.

M. H. Younger has sold to Etta Lahm land in Salem, \$1,500.

Richard Gardner obtained judgment in Justice King's court in Salem against Henry Bergman for \$39, and Bergman has appealed.

J. H. Streeter, receiver of the Quaker Valley Mining company, of Rogers, has been ordered to advertise and sell all of the company's real and personal property. The motion by M. McNabb, of Youngstown, asking for an order to have the sheriff levy on the property in the receiver's hand, was overruled, and McNabb is granted leave to file a supplemental intervening cross petition, making the receiver and Sheriff Gill defendants.

Edward Lawson, of Hanover, was granted a divorce from his wife, Alice Lawson, on grounds of gross neglect. The plaintiff is ordered to pay the costs.

Annie Cornish was divorced from Samuel W. Cornish and restored to her maiden name, Annie McPherson. Extreme cruelty was the cause assigned.

Commissioner French will soon move his family to Lisbon.

Sheriff Gill will have three sales of real estate at the courthouse next Monday.

NEXT WEEK

Will Bids Be Taken For Stonework on Salem's Pottery.

The Salem Herald of yesterday says: "Cornelius Cronin, a member of the pottery company, came to the city today bringing with him the plans and specifications for the pottery building foundation which are open to the inspection of all persons desiring to bid on the stonework."

"Mr. Cronin took Mr. French with him to the pottery site today to stake out the ground. H. J. Smith, of the Pottery company, expects to be here Monday or Tuesday and will bring the plans for the balance of the building and at that time will be ready to receive bids for the stonework."

NO MEETING.

The Library Directors Could Not Get Together.

The library directors failed to meet last evening owing to the fact that a quorum was not present.

It was decided to hold a special meeting next week. The members present discussed plans for the future, and a number of new books will be added to the library the first of the year.

Attended a Conference.

Rev. C. F. Swift, of this place, spent last evening in New Cumberland attending a congregational meeting of the Methodist Protestant church of that place.

Boys knee pants suits, 9 to 16 years, \$1.98, \$2.48, \$3.48, \$3.98, \$5. See Joseph Bros., fall and winter line.

See the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

PERSONAL MENTION.

Mrs. W. H. Griggs is ill at her home in Seventh street.

Adolph Fritz, of Fourth street, was a Pittsburg visitor today.

Maud Butler, of New Kensington, spent yesterday in the city visiting friends.

Mrs. J. C. Thompson and children, of Thompson Place, were Allegheny visitors today.

Mr. and Mrs. Jason H. Brookes and children were in Pittsburg and Allegheny this afternoon visiting friends.

NEXT MONDAY

Captain Palmer Will Arrive In the City.

The following telegram was received this afternoon in answer to an inquiry. It explains itself:

CHICAGO, Nov. 12, 1898.

NEWS REVIEW, East Liverpool, O.:

We will reach New Brighton Sunday, and be in East Liverpool Monday. Am well and hearty. McKinley is my man, and this is the best government on earth. Incompetent subordinates will be taught a lesson by the head of the government. I am ready to carry Old Glory against any foe in time of battle. I am a Republican from center to circumference.

COLORBEARER HARRY PALMER.

Changing His Name.

Frank Patsch Kowski, of this city, wants his name changed and has applied to Judge Boone that the same be done. The name he prefers is Martin and when he is known by that name it is said the remainder of the Kowski family will come to court for a change of cognomen.

Switz Conde underwear, \$1.50 quality, this special make known by all dealers. Special leader Saturday 98c at JOSEPH BROS.'

Nearing Completion.

The new residence of Robert Hall in Fifth street is rapidly nearing completion and will be ready for occupancy in a few days.

The residences of A. G. Mason and J. W. Boch in Seventh street are also near completion.

Will Go to Wellsville.

Anthony Monahan, who has been employed at the Goodwin pottery since January as a kilnhand, has given up his place. He will take a similar position at the Pioneer pottery in Wellsville next week.

NOTICE TO TAXPAYERS.

Charles E. Smith, treasurer, will be at the office of George H. Owen & Co., on the 23rd and 24th for the purpose of receiving taxes.

Building a Kiln.

The work of erecting the new biscuit kiln at the McNicol pottery is progressing rapidly. It is probable the kiln will be fired for the first time week after next.

Winding Up the Campaign.

The Republican central committee will meet next week to wind up the affairs of the campaign. A number of matters need attention.

Having a suit made to measure, the essential part is a perfect fit. Joseph Bros., suits must come that way or money is refunded.

To Build a House.

Jackson Robinson will next week commence the erection of a five-room house in California hollow.

Services Ended.

The special services that have been in progress at the First Presbyterian church ended last night.

TOO MUCH BAD WHISKY

Caused the Arrest of Harry Martigo.

HE PAID THE AMOUNT ASKED

For the Authorities Had Taken Over \$220 From Him When He Was Gathered In--No Arrests For the Market Street Robbery--Later Developments.

Harry Martigo, who was arrested yesterday afternoon by Officer Grim and taken to jail in the patrol, where a charge of being drunk and disorderly was placed against him, was given a hearing before Mayor Bough, last evening. MULFORD AND MERCER

The Famous Sporting Writer
Compliments

EAST LIVERPOOL'S GOOD PITCHER

In Making Up an Ideal Team He Is Placed
In the Box—Indians Won Easily at Foot
Ball—Rovers Playing In Homestead To-
day.

Ren Mulford, one of the best known sporting writers of the country, in making up the heaviest batting team from a list of the averages places Mercer in the box. He is also found in the list of ideal base runners with 14 to his credit and would occupy the box for the best club of sacrifice hitters as he leads the pitchers of the league in this respect with nine to his credit.

In commenting on the teams the Sporting Life says: "Win Mercer is the only player in the above 'ideal' who ranks at the top on all counts, but when it comes to pitching records he is distanced by all the leading pitchers of the successful teams in the race of 1898."

The football game yesterday afternoon between the high school eleven and the Diamond Indians resulted in a victory for the Indians by a score of 10 to 0. The game was very hotly contested and the victors made a touchdown in each half, being much too heavy for their opponents who played a very plucky game.

The football game to have been played between the Entre Nous club and high school eleven has been declared off. The Entre Nous team will endeavor to book a game with the Wellsville high school.

The Rovers left on the noon train for Homestead where they will play their second game in the league champion ship race.

RIVER ROSE RAPIDLY.

There Will Be Twenty Feet of Water This Evening.

There will be 20 feet of water in the Ohio river this evening. This will let out every pound of coal ready for shipment. It will also permit some of the largest towboats to get away for a long cruise in southern waters. The Joseph B. Williams, the biggest in the business, passed this afternoon, taking 25 pieces to Louisville where it will gather up some more for convoy to New Orleans.

Between 500,000 and 800,000 bushels of coal should get away on the present freshet.

The Greenwood left for Charleston yesterday, and the Lorena will leave for the Muskingum river this evening. The Virginia will get away for Cincinnati about the same time, the Will G. Cummins leaving yesterday.

All night the rivermen about this place were working like beavers keeping their craft secure. The river came up suddenly and some of the owners of shantyboats were caught with leaking boats. This morning much debris was seen floating down the stream and numerous skiffs with young boys in them were seen attempting to catch anything that was valuable.

The Sunday boats, Keystone State, Ben Hur and Kanawha, will be up to-morrow as usual.

A RECEPTION

Will Be Tendered Captain Palmer by the Grand Army.

At the meeting of General Lyon post last night it was decided to greet Captain Palmer in a fitting manner when he returns home.

A committee will meet him at the train on his arrival, and he will be taken to his home in a carriage. Later a reception will be held at Grand Army hall, arrangements for which have not been completed. The date has not yet been decided on.

At the Grand.

"McDoodle's Flats" which will be seen at the Grand next Monday night is without question among the funniest pieces on the road. The specialties are of the highest order, and have won for Rice & Barton the splendid reputation they now have.

Irene Myers and her company presented "Kidnapped" to a large audience last night. Tonight the company will by request repeat the "Burglar."

We can cure that uncomfortable chilly feeling you have if you will come here and take advantage of the offer we are making in underwear, Saturday's special sale.

JOSEPH BROS'.

Company E will assist in the production of the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Nov. 13.
Comment by Rev. S. H. Doyle.
Topic—"Christian recreation."—Isa. xxxv, 1-10.

Recreation is becoming more and more a necessity as the world advances. We live faster, we do more in a shorter space of time than our forefathers ever did, and in so living and doing we wear heavily on our mental and physical systems. This constant wear and tear demands times of resting for recuperation. God realized that man would need rest amid the laborious duties of life. He gave us night in which the mind and body may receive new strength and vigor. He gave us one day in seven as a rest day and for a day of worship. In these days it is being almost universally conceded that more time even than this should be used for rest and recreation. Holidays and half holidays are used for this purpose, and wherever possible, special seasons of the year are used for vacations. All are necessary. The constant nervous strain to which the average man today is subjected is very wearing. It makes the hands weak and they need to be strengthened; it makes the knees feeble and they need to be confirmed. One of the best ways to do this is to rest and recreate. The Christian must realize this and act accordingly.

The result of this rest and recreation will be increased ability to labor. Thus we shall gather increased strength to open the eyes of the blind, to unstopp the ears of the deaf, to make the lame man leap at the hart and the tongue of the dumb to sing. It's a false economy that provides no place for recreation. All work and no play not only makes Jack a dull boy, but weakens and shortens the life work of many a man and woman.

In Christian recreation there should be nothing un-Christian. Recreation times are times of temptation. Relieved from active work, we may feel sometimes relieved of moral obligation. But this is certainly not the case. We should never do at a time of recreation what we could not do in the moments of the most laborious work for Christ. Nor should opportunities to do good be neglected at such times. Christ, resting on the well curb in Samaria, did not lose the opportunity to speak to a sinful woman about the water of eternal life. Rest times often bring to us splendid opportunities to speak a word for Christ. Let us do it as He did it.

Bible Readings.—Ex. xxxi, 17; xxxii, 14; II Sam. xvi, 11-14; Ps. iv, 6; lxxiv, 1-10; Isa. xl, 28-31; lv, 1-8; Jer. vi, 16; Job. xi, 18, 19; Math. xi, 28, 29; John iv, 1-10; II Tim. i, 16-18.

Christian Endeavor Societies.

There are now within the borders of the United States 41,222 societies. These figures do not include the junior, intermediate and other societies. The total enrollment of worldwide Christian Endeavor is 54,191 societies, with an individual membership of more than 3,250,000. South Africa is entitled to the banner for the greatest proportionate increase in the number of societies. The junior societies continue to increase rapidly. There are now nearly 14,000 societies in the world. One thousand of these are to be found in foreign lands.

Russia is the only country in the world without a Christian Endeavor society.

There are 77 mothers' societies, 45 senior or graduate, societies, 17 societies in the United States army and in volunteers' camps, 119 societies in the United States navy and on board merchant ships. During the last year 27,686 juniors have become members of the church. From the intermediate societies 1,518 have joined their home churches and 196,550 from the young people's societies, making a total re-enforcement of church membership during the year amounting to 225,754.—Secretary Baer.

At the Present Line.

At this time of public excitement and upheaving, when all are thinking and talking almost constantly of the war and its results, we must not forget that there is a God upon the throne, whose right and province it is to direct and determine the destiny of nations as well as of individuals. He rules in the armies of heaven, and among the inhabitants of the earth, using this and that nationality for the accomplishment of His purposes. All events somehow further the establishment and extension of His kingdom. He has permitted the present crisis for some wise end and Christians ought to beseech Him to bring out of it such results as will be most for His glory and for the good of humanity.—Presbyterian.

Is Reverence Declining?

Is reverence declining? Yes, reverence for stocks and stones and senseless things. Let us rejoice, not lament, in consequence. Let us exult that we are advancing sufficiently to distinguish between reverence and superstition. The full fruitage will fall to a later age, but it cannot be long delayed.—Jewish Messenger.

How completely a deep social shadow will eclipse and even paralyze genius is perceived in the cases of Theodore Tilton and Oscar Wilde. Both these men were endowed with most brilliant literary gifts. And now they survive only as if they had never existed. Some associations nothing can ever live down

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

GAME PLAQUES

exact reproductions of the \$10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant,
English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH

has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER

to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

COLLEGE LOSES A BEQUEST.

Game of Football Causes Miss Sackett to Change Her Will.

Carroll college in Waukesha, Wis., is just \$5,000 poorer through a game of football. Miss Anna M. Sackett, who died recently and who had lived here many years, had watched the work of Carroll college, and decided to assist that work to the best of her ability. She made her will, giving a legacy of \$5,000 to the trustees of Carroll college for the benefit of that institution.

During last summer she heard and read so much about football in the school that she decided to see a game for herself and ascertain what it was like. She drove out one day to see a contest between the college and a visiting eleven. She was horrified at what she saw. The rough contest between the long haired kickers and punters seemed to her merely an arrangement for maiming and killing those who engaged in it.

She had no sympathy at all for the authorities who encouraged what she thought was brutality under the name of sport. She went home and sent for her lawyer. Under her direction he drew up another will, which contained no legacy for the college, and she signed it, the former will being destroyed.

Russia is the only country in the world without a Christian Endeavor society.

There are 77 mothers' societies, 45 senior or graduate, societies, 17 societies in the United States army and in volunteers' camps, 119 societies in the United States navy and on board merchant ships. During the last year 27,686 juniors have become members of the church. From the intermediate societies 1,518 have joined their home churches and 196,550 from the young people's societies, making a total re-enforcement of church membership during the year amounting to 225,754.—Secretary Baer.

EACH NATION'S STRENGTH.

Great Britain's and Russia's War Power Contrasted.

The following is the war strength of Russia and of Great Britain:

Great Britain's navy: Battleships, 61; other ships of the line, 27; cruisers, 154; coast defense, 60; torpedo craft, 313.

Great Britain's army: Officers, active, 4,918; noncommissioned officers and men, active, 215,281; officers and men, reserve, 417,604. Total, 673,803.

Russia's navy: Battleships, 20; other ships of the line, 19; cruisers, 29; coast defense, 27; torpedo craft, 188.

Russia's army: Officers, active, 28,700; noncommissioned officers and men, active, 1,116,824; officers and men, reserve, 3,892,760. Total, 5,008,284.—Philadelphia Press

Just as near.

This is the beginning of all gospels—that the kingdom of heaven is just where we are. It is just as near us as our work is, for the gate of heaven for each soul lies in the endeavor to do that work perfectly.—Churchman.

Watch.

Watch, ye saints, with eyelids winking! Lo, the powers of heaven are shaking! Keep your lamps all trimmed and burning. Ready for your Lord's returning.

Kingdoms at their base are crumbling. Hark! His chariot wheels are rumbling! Tell, oh, tell, of grace abounding While the seventh trump is sounding!

Nations wane, though proud and stately: Christ his kingdom hasteneth greatly; Earth her latest pangs is summing. Shout, ye saints; your Lord is coming!

Lamb of God, Thou meek and lowly! Judah's lion, high and holy! Lo, thy bride comes forth to meet thee, All in blood washed robes to greet thee!

—Phoebe Palmer.

Gittin Ready.

We're sorter gittin ready for Thanksgiving.

To thank the Lord above us that we're living.

To know that every night Is a-promis'ng the light—

That's why we're gittin ready for Thanksgiving!

F. L. Stanton in Atlanta Constitution.

MULFORD AND MERCER

The Famous Sporting Writer
Compliments

EAST LIVERPOOL'S GOOD PITCHER

In Making Up an Ideal Team He Is Placed
in the Box—Indians Won Easily at Foot
Ball—Rovers Playing in Homestead To-
day.

Ren Mulford, one of the best known sporting writers of the country, in making up the heaviest batting team from a list of the averages places Mercer in the box. He is also found in the list of ideal base runners with 14 to his credit and would occupy the box for the best club of sacrifice batters as he leads the pitchers of the league in this respect with nine to his credit.

In commenting on the teams the Sporting Life says: "Win Mercer is the only player in the above 'ideal' who ranks at the top on all counts, but when it comes to pitching records he is distanced by all the leading pitchers of the successful teams in the race of 1898."

The football game yesterday afternoon between the high school eleven and the Diamond Indians resulted in a victory for the Indians by a score of 10 to 0. The game was very hotly contested and the victors made a touchdown in each half, being much too heavy for their opponents who played a very plucky game.

The football game to have been played between the Entre Nous club and high school eleven has been declared off. The Entre Nous team will endeavor to book a game with the Wellsville high school.

The Rovers left on the noon train for Homestead where they will play their second game in the league championship race.

RIVER ROSE RAPIDLY.

There Will Be Twenty Feet of Water This Evening.

There will be 20 feet of water in the Ohio river this evening. This will let out every pound of coal ready for shipment. It will also permit some of the largest towboats to get away for a long cruise in southern waters. The Joseph B. Williams, the biggest in the business, passed this afternoon, taking 25 pieces to Louisville where it will gather up some more for convoy to New Orleans.

Between 500,000 and 800,000 bushels of coal should get away on the present freshet.

The Greenwood left for Charleston yesterday, and the Lorena will leave for the Muskingum river this evening. The Virginia will get away for Cincinnati about the same time, the Will G. Cummings leaving yesterday.

All night the rivermen about this place were working like beavers keeping their craft secure. The river came up suddenly and some of the owners of shantyboats were caught with leaking boats. This morning much debris was seen floating down the stream and numerous skiffs with young boys in them were seen attempting to catch anything that was valuable.

The Sunday boats, Keystone State, Ben Hur and Kanawha, will be up tomorrow as usual.

A RECEPTION

Will Be Tendered Captain Palmer by the Grand Army.

At the meeting of General Lyon post last night it was decided to greet Captain Palmer in a fitting manner when he returns home.

A committee will meet him at the train on his arrival, and he will be taken to his home in a carriage. Later a reception will be held at Grand Army hall, arrangements for which have not been completed. The date has not yet been decided on.

At the Grand.

"McDoodle's Flats" which will be seen at the Grand next Monday night is without question among the funniest pieces on the road. The specialties are of the highest order, and have won for Rice & Barton the splendid reputation they now have.

Irene Myers and her company presented "Kidnapped" to a large audience last night. Tonight the company will by request repeat the "Burglar."

We can cure that uncomfortable chills feeling you have if you will come here and take advantage of the offer we are making in underwear, Saturday's special sale.

JOSEPH BROS'.

Company E will assist in the production of the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Nov. 12.
Comment by Rev. S. H. Doyle.
Topic—"Christian recreation."—Isa. xxxv., 1-10.

Recreation is becoming more and more a necessity as the world advances. We live faster, we do more in a shorter space of time than our forefathers ever did, and in so living and doing we wear heavily on our mental and physical systems. This constant wear and tear demands times of resting for recuperation. God realized that man would need rest amid the laborious duties of life. He gave us night in which the mind and body may receive new strength and vigor. He gave us one day in seven as a rest day and for a day of worship. In these days it is being almost universally conceded that more time even than this should be used for rest and recreation. Holidays and half holidays are used for this purpose, and wherever possible, special seasons of the year are used for vacations. All are necessary. The constant nervous strain to which the average man today is subjected is very wearing. It makes the hands weak and they need to be strengthened; it makes the knees feeble and they need to be confirmed. One of the best ways to do this is to rest and recreate. The Christian must realize this and act accordingly.

The result of this rest and recreation will be increased ability to labor. Thus we shall gather increased strength to open the eyes of the blind, to unstop the ears of the deaf, to make the lame man leap as the hart and the tongue of the dumb to sing. It's a false economy that provides no place for recreation. All work and no play not only makes Jack a dull boy, but weakens and shortens the life work of many a man and woman.

In Christian recreation there should be nothing un-Christian. Recreation times are times of temptation. Relieved from active work, we may feel sometimes relieved of moral obligation. But this is certainly not the case. We should never do at a time of recreation what we could not do in the moments of the most laborious work for Christ. Nor should opportunities to do good be neglected at such times. Christ, resting on the well curb in Samaria, did not lose the opportunity to speak to a sinful woman about the water of eternal life. Rest times often bring to us splendid opportunities to speak a word for Christ. Let us do it as He did it.

Bible Readings.—Ex. xxi, 17; xxiii, 14; II Sam. xvi, 11-14; Ps. iv, 6; lxxiv, 1-10; Isa. xi, 28-31; lv, 1-8; Jer. vi, 16; Job. xi, 18, 19; Math. xi, 28, 29; John iv, 1-10; II Tim. i, 16-18.

Christian Endeavor Societies.

There are now within the borders of the United States 41,222 societies. These figures do not include the junior, intermediate and other societies. The total enrollment of worldwide Christian Endeavor is 54,191 societies, with an individual membership of more than 3,250,000. South Africa is entitled to the banner for the greatest proportionate increase in the number of societies. The junior societies continue to increase rapidly. There are now nearly 14,000 societies in the world. One thousand of these are to be found in foreign lands.

Russia is the only country in the world without a Christian Endeavor society.

There are 77 mothers' societies, 45 senior or graduate, societies, 17 societies in the United States army and in volunteers' camps, 119 societies in the United States navy and on board merchant ships. During the last year 27,686 juniors have become members of the church. From the intermediate societies 1,518 have joined their home churches and 196,550 from the young people's societies, making a total re-enforcement of church membership during the year amounting to 225,754.—Secretary Baer.

At the Present Line.

At this time of public excitement and upheaving, when all are thinking and talking almost constantly of the war and its results, we must not forget that there is a God upon the throne, whose right and province it is to direct and determine the destiny of nations as well as of individuals. He rules in the armies of heaven, and among the inhabitants of the earth, using this and that nationality for the accomplishment of His purposes. All events somehow further the establishment and extension of His kingdom. He has permitted the present crisis for some wise end and Christians ought to beseech Him to bring out of it such results as will be most for His glory and for the good of humanity.—Presbyterian.

Is Reverence Declining?

Is reverence declining? Yes, reverence for stocks and stones and senseless things. Let us rejoice, not lament, in consequence. Let us exult that we are advancing sufficiently to distinguish between reverence and superstition. The full fruitage will fall to a later age, but it cannot be long delayed.—Jewish Messenger.

How completely a deep social shadow will eclipse and even paralyze genius is perceived in the cases of Theodore Tilton and Oscar Wilde. Both these men were endowed with most brilliant literary gifts. And now they survive only as if they had never existed. Some associations nothing can ever live down

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

GAME PLAQUES

exact reproductions of the \$10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks.

English Quail.

American Pheasant.

English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH

has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER

to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

UNION LABELS.

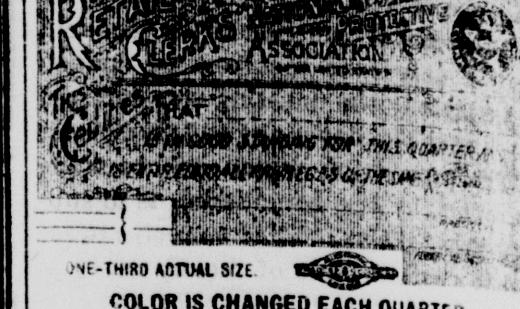

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

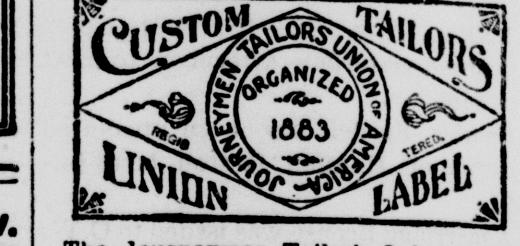

Endorsed by the A. F. of L.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' Union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

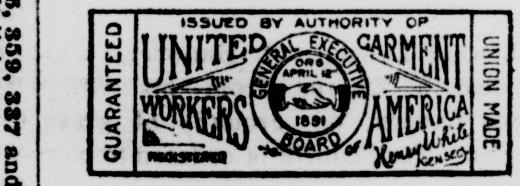

The Journeyman Tailor's Label is to be found in the inside breast pocket of the coat on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on blue-colored paper. It is placed on every union-made hat before it leaves the workman's hands. If a dealer takes this label from one hat and places it on another, or has any detached labels from his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

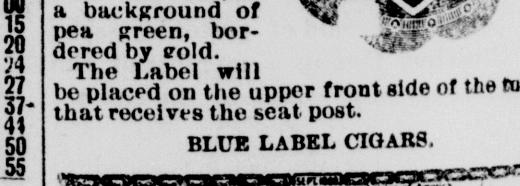

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

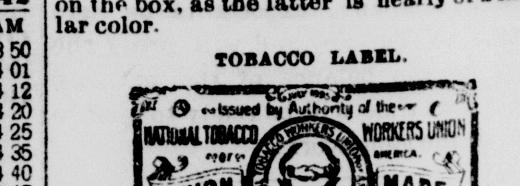

The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

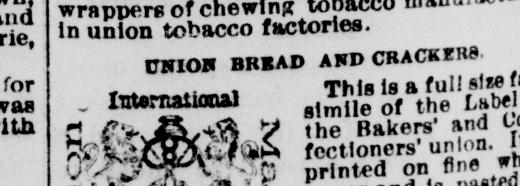

This label is printed in black ink on light blue paper, and is pasted on the clear-bottom of the box, so as not to mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

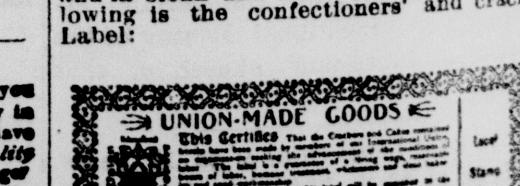

The above Label, printed on blue paper, is to be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of unmade bread. It is evidence that the bread is made under fair and wholesome conditions.

Company E will assist in the production of the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

COLLEGE LOSES A BEQUEST.

Game of Football Causes Miss Sackett to Change Her Will.

Carroll college in Waukesha, Wis., is just \$5,000 poorer through a game of football. Miss Anna M. Sackett, who died recently and who had lived here many years, had watched the work of Carroll college, and decided to assist that work to the best of her ability. She made her will, giving a legacy of \$5,000 to the trustees of Carroll college for the benefit of that institution.

During last summer she heard and read so much about football in the school that she decided to see a game for herself and ascertain what it was like. She drove out one day to see a contest between the college and a visiting eleven. She was horrified at what she saw. The rough contest between the long haired kickers and punters seemed to her merely an arrangement for maiming and killing those who engaged in it.

She had no sympathy at all for the authorities who encouraged what she thought was brutality under the name of sport. She went home and sent for her lawyer. Under her direction he drew up another will, which contained no legacy for the college, and she signed it, the former will being destroyed.

Chicago Times-Herald.

EACH NATION'S STRENGTH.

Great Britain's and Russia's War Power Contrasted.

The following is the war strength of Russia and of Great Britain:

Great Britain's navy: Battleships, 61; other ships of the line, 27; cruisers, 154; coast defense, 60; torpedo craft, 313.

Great Britain's army: Officers, active, 4,918; noncommissioned officers and men, active, 1,116,824; officers and men, reserve, 417,604. Total, 673,808.

Russia's navy: Battleships, 20; other ships of the line, 19; cruisers, 29; coast defense, 27; torpedo craft, 188.

Russia's army: Officers, active, 28,700; noncommissioned officers and men, active, 1,116,824; officers and men, reserve, 3,892,760. Total, 5,008,284.—Philadelphia Press

Just as near.

This is the beginning of all gospels—that the kingdom of heaven is just where we are. It is just as near us as our work is, for the gate of heaven for each soul lies in the endeavor to do that work perfectly.—Churchman.

Watch.

Watch, ye saints, with eyelids winking! Lo, the powers of heaven are shaking! Keep your lamps all trimmed and burning. Ready for your Lord's returning.

Kingdoms at their base are crumbling. Hark! His chariot wheels are rumbling! Tell, oh, tell, of grace abounding! While the seventh trump is sounding!

Nations wane, though proud and stately; Christ his kingdom hasteneth greatly; Earth her latest pangs is summing. Shut, ye saints; your Lord is coming!

Lamb of God, Thou meek and lowly! Lamb of God, high and holy!

Lo, thy bride comes forth to meet thee, All in blood washed robes to greet thee!

—Phoebe Palmer.

ON BOARD THE QUEEN CITY

In Company With President Vance of the
River Improvement Association He Is
Making a Trip—May Be Entertained In
Pittsburg.

Gov. Asa S. Bushnell, of Ohio; Col. John L. Vance, president of the Ohio Valley Improvement association, and a number of congressmen from Ohio probably will pass Liverpool next Tuesday on the steamer Queen City. According to the arrangements, the party will leave Columbus in a special train and will go to Gallipolis, at which place the party will board the steamer.

The object of the trip is to boom further permanent improvements of the Ohio river and especially the building of a dam at Wheeling and one at Cincinnati. The chamber of commerce of the latter city has held several special meetings in reference to the matter lately, and the Pittsburg rivermen will lend whatever assistance they can to further both projects. Capt. James H. Henderson is looking after the arrangements for the welfare of the party on the Queen City. If the party concludes to go as far as Pittsburg, it is likely some action will be taken for their entertainment while there.

A BIG MONTH.

October Was a Surprise to New York Dealers.

In touching on the condition of the crockery trade in New York, the Journal says:

"Further returns from the October business show that the month was a big one. Firms that were complaining that sales were small found that they footed up far ahead of their anticipations. This was not with one or two houses only, but was largely the case everywhere. Holiday goods are in active request just now, and the demand is for a good class of wares. As the people begin to be prosperous they are wanting better table furnishings, as well as ornamental pieces. There is no better evidence that business is improving through the country than this; and while the crockery men have waited long and with what patience they could, trade is slowly but surely coming their way."

TWO MEN ADDED.

Soldiers Went to Wooster This Morning.

Corporal Kerr, of Company E, who was unable to go to Wooster with the company Thursday morning, left for that place this morning.

Private Lucas, who was also compelled to delay the trip on account of illness, left for Wooster on the same train.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PLAN TO TRAIN SAILORS.

Captain Joshua Slocum Has a Novel Scheme of Teaching Navigation.

Captain Joshua Slocum, who made an eventful voyage around the world alone in a small sloop, the Spray, which he built himself, outlined before a few friends in the parlors of Mme. Pote in Carnegie hall in New York the other evening a project which he hopes to carry out for the training of young men in the science of navigation. His idea is a college ship. He proposes the construction of a vessel after the pattern of the best American clipper ships, with some improvements, arranged for the accommodation of 300 student passengers for a trip of two years around the world, the time to be spent in steady, practical work and the desirable recreation that visits to Oceania and the Orient would supply. His intention is not to take apprentices boys, but young men who have already had the advantages of school and college, and to equip them as navigators, capable of handling and directing sailing and steam ships, including men-of-war.

He proposes hiring the necessary seamen for the working of the ship on its cruise and the employment of instructors in the various branches of seamanship and navigation and the management of the complicated mechanism of the modern steamship. His idea comprehends the equipment of the college ship in such a manner that the novelty and the advantages of it will induce people not primarily out for instruction in navigation to go on its cruises and enjoy the benefits of such educational voyages as these will be. To enlarge the sphere of the ship's usefulness he contemplates the installment of courses in astronomy, perhaps literature, and other of the higher branches, some of which would appeal and be of service to the class of patrons whose object in taking the cruise was other than to turn its primary facilities to mercantile account.

Women in Great Britain and in America have taken up yachting on their own account, and Captain Slocum believes women would enjoy the opportunity to equip themselves as yacht masters in this way. In fact, just as once on his voyage in the Spray he refused to stop at an island he might have made, although then 43 days out, because they wouldn't have women there, so, he says, he wouldn't have anything to do with the scheme he has originated if women could not be included in its benefits.—New York Sun.

TRAVELING POSTOFFICE.

Mail Wagon to Collect and Deliver Letters on a Thirty Mile Route.

The postoffice department decided the other day to make a new experiment in the rural free delivery system, which is in effect the establishment of a traveling postoffice. Some time ago a resident of Westminster, Md., wrote to the department offering to build such a postoffice, to be drawn by two horses and to establish a system between Westminster and the surrounding villages, covering a distance of 30 miles, for \$1,375 a year. The plan was accepted recently.

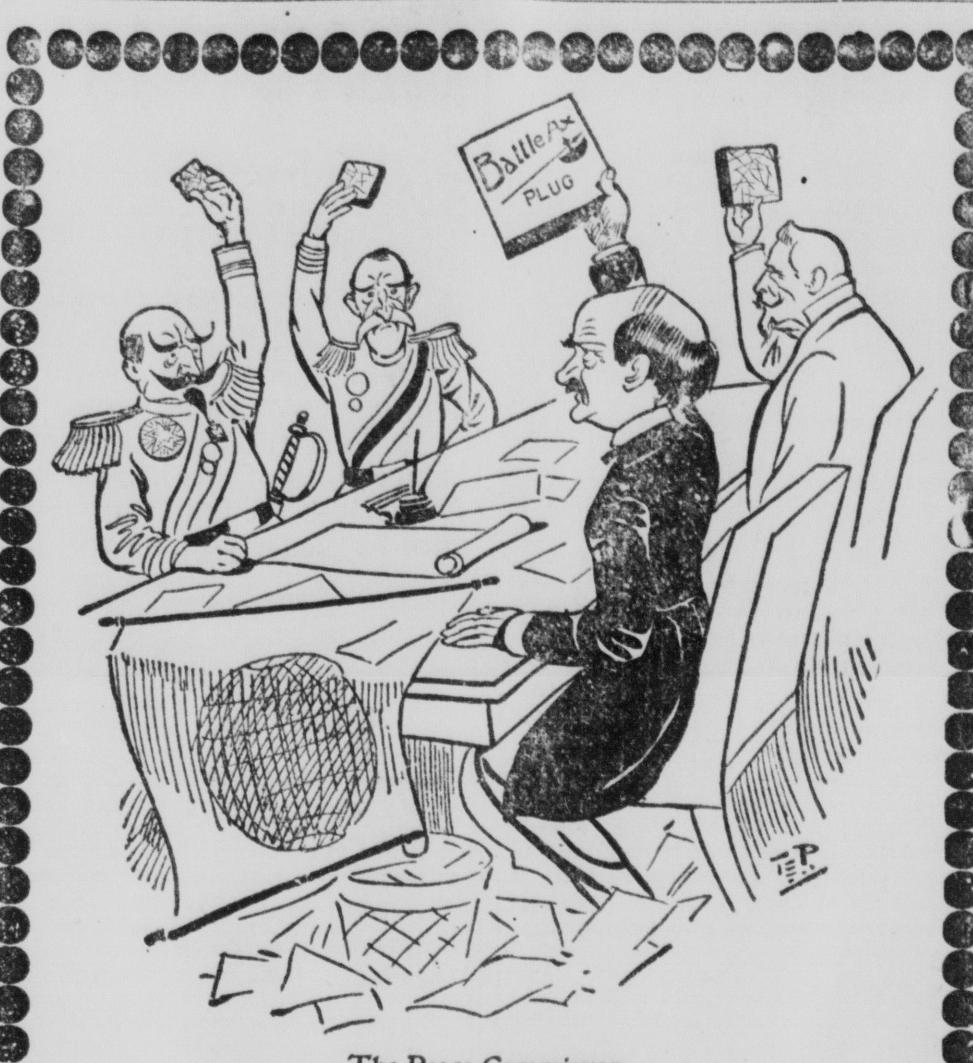

The wagon will be similar to the postoffice wagons in use in the cities. The postman will start from Westminster in the morning and visit a number of small towns in the vicinity, collecting and delivering mail en route. Any farmer living within two miles of the road along which the wagon passes will be allowed to place a letter box at the roadside, in which his mail can be deposited by the carrier, and from which the carrier will take the outgoing mail. At several small places where there is no postoffice a number of boxes will be put up which will practically form an automatic postoffice.

The inventor of the scheme will act as postmaster and will sell stamps, money orders, etc., stamp letters and assort them for the mails. While driving out in the morning he will assort the mail for delivery, and when returning he will prepare it to be placed on the train. He expects to barely make expenses, but the government will pay him a royalty on all similar wagons should the scheme be put in general operation. It is believed that by this method much more work can be done than by a single carrier.—New York Sun.

The Student Movement.

At the beginning of the century the colleges of the land were schools of infidelity in great measure. Now a great change has come over them. A great body of the most scholarly have offered for the foreign missionary work. Multitudes are earnest Christians in the home field, and the influence of the universities in the main is on the side of vital godliness. Not a few of those who have taken high honors in scholarship and in athletics have also entered most heartily into the leadership of the Christian forces. Learning and piety are well united.

Fortune, like wine, does not change men, it only takes off the mask.

The Peace Commission.

In considering terms of peace, it is of vital importance to remember that the largest piece and the best piece—of really good chewing tobacco in the world is the 10-cent piece of

EPWORTH LEAGUE.

Lesson For the Week Beginning Nov. 13.

Comment by Rev. W. J. Yates, A. M.

Topic, Waiting Harvests.

SCRIPTURE READING.—Math. ix, 36-38.—"The harvest truly is plenteous, but the laborers are few."

The great incentive to work for others is not because they appreciate the help given or greatly desire it, but because they need it, and we are able to give it. Few sick people relish the medicine given or appreciate the surgeon's skill and nurse's care, but they need them all the more because they are in no condition to appreciate the attention given them. The wounded soldier on the field of battle appeals to our helpfulness by his very helplessness. The sicker the child the more carefully we watch and tend. So in all spiritual concerns. It is not the whole but the sick who need the physician.

Christ came not to call the righteous but sinners to repentance. The heathen world calls us today most loudly by its necessities and appalling degradation. It would be false to figure the nations of heathenism as eager and hungry for the gospel. Rather they are antagonistic to it and prefer their old forms of error and debasement. But the greater their indifference and opposition the greater need that we call them to repentance and faith. They faint because of wickedness, and our hearts should feel compassion and our hands feed them.

All lands are opening to the Christian religion as never before. This century above all other centuries has seen the spread of the gospel. There have been other ages when missionaries performed great deeds. It was notable when the northern nations of Europe were evangelized. The story of Patrick and Bridget of Ireland reads like romance, but the thrilling tale of the conversion of Tonga and Fiji and Hawaii, of the missions of China, India, Japan and Africa is most fascinating also and is yet in the writing. We have the privilege of adding a chapter or paragraph. This movement of our own land and age and church should have our careful thought and most prayerful help.

Wider Horizons.

A few short months have vastly changed the ideas and ideals of the greater part of the American people. To preserve this continent from the interference and complications with European nations was the extreme limit of the foreign policy of our nation. The Cuban question had long clamored for solution, and conviction was growing that some change for the better must soon come.

Peaceful means seemed likely to effect all that was desirable till the unfortunate destruction of the Maine forced the issue, and in a few days the traditional policy of the nation vanished before the rapid march of events. The necessities of defense of our Pacific coast sends Dewey to Manila.

and the destruction of the Spanish fleet lays the Philippines open to our arms and forces responsibility upon us never before assumed. Long time have we hesitated to acquire even a coaling station in the West Indies. Now we possess ourselves of Hawaii in the Pacific and Porto Rico in the Caribbean and assume governmental powers in Cuba and say that Spain must vacate the western hemisphere. All this means more than the gratification of a lust for conquest. It is not even done at the dictation of politicians and a dominant plutocracy. Under all is the hand of Divine Providence, shaping destiny, opening and shutting doors, setting up judges and putting down princes, and through all broadening the horizons of human vision.

The church must see her opportunity in all this. These lands need a pure gospel and Christian enlightenment. Never was the teaching of God more manifest in the movements of the nations than in these recent developments.

Learn to Walk.

It is a great day when baby takes the first step alone. It is more important than when the first tooth comes or the first word is spoken. Learning to walk is both a science and an art. Knowledge of what to do and how to do it must be mastered, and then skill must be acquired to make muscles, sinews and bones obey the will and move according to plan. How great a feat it is to walk few grown people realize until a time of sickness obliges them to begin it all over and learn in adult years what they once learned in babyhood.

It is no less a feat to learn to walk upright in the moral and religious life. What is the right way must be first found, and then by repeated efforts the affections, desires, will and all bodily powers must be made to go in the right direction. It needs patience. Many stumble and fall, but if they give it up all the rest of life is one long crawling in the dust. There is much need to strengthen the weak knees and to seek the straight paths and to gather all stones of stumbling out of the way.

Every evil passion indulged, every bad appetite and unholly desire gratified weakens the spiritual force and brings danger. Many a young man has stumbled over a cigarette and glass of wine into a pit from which he could not rise. Many young ladies find that after they have learned to dance they have lost the habit of walking safely and uprightly. By all means learn how to walk.

Hobson's Choice.

After meeting many people at the League Colonel McMichael suggested that Lieutenant Hobson should have a drink, to which the hero responded that he never drank anything. When asked to have a cigar, he also replied that he never smoked. However, he suggested to Colonel McMichael that he would like to have a shave.—Philadelphia Times.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored, to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PLAN TO TRAIN SAILORS.

Captain Joshua Slocum Has a Novel Scheme of Teaching Navigation.

Captain Joshua Slocum, who made an eventful voyage around the world alone in a small sloop, the Spray, which he built himself, outlined before a few friends in the parlors of Mme. Pote in Carnegie hall in New York the other evening a project which he hopes to carry out for the training of young men in the science of navigation. His idea is a college ship. He proposes the construction of a vessel after the pattern of the best American clipper ships, with some improvements, arranged for the accommodation of 300 student passengers for a trip of two years around the world, the time to be spent in steady, practical work and the desirable recreation that visits to Oceanica and the orient would supply. His intention is not to take apprentices, but young men who have already had the advantages of school and college, and to equip them as navigators, capable of handling and directing sailing and steam ships, including men-of-war.

He purposed hiring the necessary seamen for the working of the ship on its cruise and the employment of instructors in the various branches of seamanship and navigation and the management of the complicated mechanism of the modern steamship. His idea comprehends the equipment of the college ship in such a manner that the novelty and advantages of it will induce people not primarily out for instruction in navigation to go on its cruises and enjoy the benefits of such educational voyages as these will be. To enlarge the sphere of the ship's usefulness he contemplates the installment of courses in astronomy, perhaps literature, and other of the higher branches, some of which would appeal and be of service to the class of patrons whose object in taking the cruise was other than to turn its primary facilities to mercantile account.

Women in Great Britain and in America have taken up yachting on their own account, and Captain Slocum believes women would enjoy the opportunity to equip themselves as yacht masters in this way. In fact, just as once on his voyage in the Spray he refused to stop at an island he might have made, although then 43 days out, because they wouldn't have women there, so, he says, he wouldn't have anything to do with the scheme he has originated if women could not be included in its benefits.—New York Sun.

TRAVELING POSTOFFICE.

Mail Wagon to Collect and Deliver Letters on a Thirty Mile Route.

The postoffice department decided the other day to make a new experiment in the rural free delivery system, which is in effect the establishment of a traveling postoffice. Some time ago a resident of Westminster, Md., wrote to the department offering to build such a post-office, to be drawn by two horses and to establish a system between Westminster and the surrounding villages, covering a distance of 30 miles, for \$1,375 a year. The plan was accepted recently.

The wagon will be similar to the postoffice wagons in use in the cities. The postman will start from Westminster in the morning and visit a number of small towns in the vicinity, collecting and delivering mail en route. Any farmer living within two miles of the road along which the wagon passes will be allowed to place a letter box at the roadside, in which his mail can be deposited by the carrier, and from which the carrier will take the outgoing mail. At several small places where there is no postoffice a number of boxes will be put up which will practically form an automatic postoffice.

The inventor of the scheme will act as postmaster and will sell stamps, money orders, etc., stamp letters and assort them for the mails. While driving out in the morning he will assort the mail for delivery, and when returning he will prepare it to be placed on the train. He expects to barely make expenses, but the government will pay him a royalty on all similar wagons should the scheme be put in general operation. It is believed that by this method much more work can be done than by a single carrier.—New York Sun.

The Student Movement.

At the beginning of the century the colleges of the land were schools of infidelity in great measure. Now a great change has come over them. A great body of the most scholarly have offered for the foreign missionary work. Multitudes are earnest Christians in the home field, and the influence of the universities in the main is on the side of vital godliness. Not a few of those who have taken high honors in scholarship and in athletics have also entered most heartily into the leadership of the Christian forces. Learning and piety are well united.

Fortune, like wine, does not change men, it only takes off the mask.

The Peace Commission.

In considering terms of Peace, it is of vital importance to remember that the largest piece and the best piece—of really good chewing tobacco in the world is the 10-cent piece of

BattleAx PLUG

Any discussion of pieces or comparison of brands can only result in the award of every claim to America—and to Battle Ax. Try it to-day.

EPWORTH LEAGUE.

Lesson For the Week Beginning Nov. 13.

Comment by Rev. W. J. Yates, A. M.

Topic, Waiting Harvests.

SCRIPTURE READING.—Math. ix, 38-39.—"The harvest truly is plenteous, but the laborers are few."

The great incentive to work for others is not because they appreciate the help given or greatly desire it, but because they need it, and we are able to give it. Few sick people relish the medicine given or appreciate the surgeon's skill and nurse's care, but they need them all the more because they are in no condition to appreciate the attention given them. The wounded soldier on the field of battle appeals to our helpfulness by his very helplessness. The sicker the child the more carefully we watch and tend. So in all spiritual concerns. It is not the whole but the sick who need the physician.

Christ came not to call the righteous but sinners to repentance. The heathen world calls us today most loudly by its necessities and appalling degradation. It would be false to figure the nations of heathenism as eager and hungry for the gospel. Rather they are antagonistic to it and prefer their old forms of error and debasement. But the greater their indifference and opposition the greater need that we call them to repentance and faith. They faint because of wickedness, and our hearts should feel compassion and our hands feed them.

All lands are opening to the Christian religion as never before. This century above all other centuries has seen the spread of the gospel. There have been other ages when missionaries performed great deeds. It was notable when the northern nations of Europe were evangelized.

The story of Patrick and Bridget of Ireland reads like romance, but the thrilling tale of the conversion of Tonga and Fiji and Hawaii, of the missions of China, India, Japan and Africa is most fascinating also and is yet in the writing. We have the privilege of adding a chapter or paragraph. This movement of our own land and age and church should have our careful thought and most prayerful help.

Wider Horizons.

A few short months have vastly changed the ideas and ideals of the greater part of the American people. To preserve this continent from the interference and complications with European nations was the extreme limit of the foreign policy of our nation. The Cuban question had long clamored for solution, and conviction was growing that some change for the better must soon come.

Peaceful means seemed likely to effect all that was desirable till the unfortunate destruction of the Maine forced the issue, and in a few days the traditional policy of the nation vanished before the rapid march of events. The necessities of defense of our Pacific coast sends Dewey to Manila.

and the destruction of the Spanish fleet lays the Philippines open to our arms and forces responsibility upon us never before assumed. Long time have we hesitated to acquire even a coaling station in the West Indies. Now we possess ourselves of Hawaii in the Pacific and Porto Rico in the Caribbean and assume governmental powers in Cuba and say that Spain must vacate the western hemisphere. All this means more than the gratification of a lust for conquest. It is not even done at the dictation of politicians and a dominant plutocracy. Under all is the hand of Divine Providence, shaping destiny, opening and shutting doors, setting up judges and putting down princes, and through all broadening the horizons of human vision.

The church must see her opportunity in all this. These lands need a pure gospel and Christian enlightenment. Never was the teaching of God more manifest in the movements of the nations than in these recent developments.

Learn to Walk.

It is a great day when baby takes the first step alone. It is more important than when the first tooth comes or the first word is spoken. Learning to walk is both a science and an art. Knowledge of what to do and how to do it must be mastered, and then skill must be acquired to make muscles, sinews and bones obey the will and move according to plan. How great a feat it is to walk few grown people realize until a time of sickness obliges them to begin it all over and learn in adult years what they once learned in babyhood.

It is no less a feat to learn to walk upright in the moral and religious life. What is the right way must be first found, and then by repeated efforts the affections, desires, will and all bodily powers must be made to go in the right direction. It needs patience. Many stumble and fall, but if they give it up all the rest of life is one long crawling in the dust. There is much need to strengthen the weak knees and to seek the straight paths and to gather all stones of stumbling out of the way.

Every evil passion indulged, every bad appetite and unholiness gratified weakens the spiritual force and brings danger. Many a young man has stumbled over a cigarette and glass of wine into a pit from which he could not rise. Many young ladies find that after they have learned to dance they have lost the habit of walking safely and uprightly. By all means learn how to walk.

Hobson's Choice.

After meeting many people at the League Colonel McMichael suggested that Lieutenant Hobson should have a drink, to which the hero responded that he never drank anything. When asked to have a cigar, he also replied that he never smoked. However, he suggested to Colonel McMichael that he would like to have a shave.—Philadelphia Times.

LOCAL BREVIETIES

Today is big pay.

The street force are today cleaning the principal streets.

Sol Whit will leave this evening for a business trip to New York.

Joseph Eberling, of Calcutta road, this morning sold a valuable running horse.

Mrs. Eliza J. Stapleton, who has been seriously ill at her home in Sixth street, is much improved.

Mrs. M. K. Zimmerman is ill at her home in Market street, suffering from the effects of a severe cold.

A number of young people from the city will Tuesday evening attend a dance to be given in Wellsville.

It is rumored that a prominent business man of this city will in the near future wed a Wellsville society lady.

Mrs. Emma Hanlon, of Seventh street, has returned from England, where she spent the summer visiting friends.

This morning a dozen white poplar trees were planted in the city squares. The trees were brought here from Carroll county.

Nancy Allison yesterday was given judgment in the court of Squire Hill against Fred Stark for \$39, claimed due for board and lodging.

The street force are today hauling cinders and filling holes in the road to East End. The thoroughfare will be put in the best possible condition for winter.

Mrs. Hazel Hitchcock, daughter of Professor and Mrs. O. S. Reed, left this morning for her home in St. Louis. She has been spending several months in the city.

The Bachelor Girls will entertain their married lady friends at the home of Miss Minnie Thompson next Thursday afternoon. The hours are from 2:30 until 5:30 o'clock.

The work of cleaning the fire station has been completed. Since the wood work has been cleaned and the stove varnished the appearance of the place is one of neatness.

The funeral of Miss Johnson will take place tomorrow afternoon at 2 o'clock from her late residence in Thompson avenue, Professor Reed officiating. Interment at Riverview.

Much freight was handled at the depot yesterday, and during the day many cars were loaded and sent out. The receipts were very large, and the warehouse is now cramped for room.

All the morning trains were late today, but the early western train was delayed by heavy express business. When the Cleveland train left the Second street station it was 25 minutes late.

Miss Belle Jones last evening at her home in Third street very pleasantly entertained. Guests to the number of 60 were present and spent a very delightful evening in music and dancing here.

The clerical force at the freight depot are now busily engaged in closing their reports for the business handled during the month of October. It is thought the work will be completed by next Thursday.

The papers of Canton state that the appraisement of government property in the hands of the Eighth regiment amounted to \$52,000. Colonel Hard, according to a Wooster paper, says the appraisement will not exceed \$10,000.

There is a great deal of complaint from motormen and patrons of the street car line because the company do not keep glass in the windows and doors of cars. When a window is broken it is usually several weeks before it is repaired, causing passengers to feel more cold than they desire.

BIG VOLUME OF TRADE.

Dun's Review Noted It to Be the Largest in Any Month, Except December, 1892.

NEW YORK, Nov. 12.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part: The country has safely passed the trial of "off year" elections. Before this election everything, except political uncertainties, favored business enlargement. The volume of trade has been the greatest ever known in any month, except December, 1892. The record on November thus far shows clearings 10.4 per cent larger than last year, and 9.3 per cent larger than in 1892. The railroad earnings in October have been 5.2 per cent larger than last year, and 8 per cent larger than in 1892.

Foreign trade shows an increase of 20 per cent in October in exports with 38 per cent in imports from New York last week, while imports showed a gain of only 22 per cent in October and credits against foreign bankers were piling up at an inconvenient rate. There was and is absolutely no anxiety about the currency, and the treasury is only too strong.

Wheat declined nearly 1 cent, but recovered all the loss.

Corn has but slightly changed in price.

Iron production Nov. 1 was 228,935 tons weekly, against 215,635 tons Oct. 1, and a decrease is seen of 35,241 tons in stocks un-shipped outside the holdings of the great steel companies, indicating an actual consumption of 1,019,646 tons in October, about 283 tons daily greater than the largest ever shown in any previous month on record. The export demand is beyond all dreams.

Wool sales for the past week were only 4,735,000 pounds at the three chief eastern markets, and were secured by concessions at all markets as last week, making 18,234,900 pounds, against 16,652,902 for the same two weeks last year and 12,289,600 for the same weeks in 1892. Many holders are refusing to abate their prices, though large manufacturers bid below current market prices because of their uncertainty in regard to the demand for woolen goods, which has somewhat improved and yet not greatly. It is growing in the minds of holders of wool at the east that the supply of foreign and domestic wool on hand is much greater than has heretofore been supposed.

Failures for the week have been 211 in the United States against 291 last year, and 26 in Canada against 24 last year.

BANQUET TO MILES.

It Rivalled the Affair Given to the President Last Year In New York.

Some of the Guests.

NEW YORK, Nov. 12.—The complimentary banquet given to Major General Nelson A. Miles, commanding the United States army, at the Waldorf-Astoria was a brilliant affair, rivaling the one given to the president last year by the merchants and manufacturers of the country.

Among those who sat at the guest's table, presided over by Joseph H. Choate, were Major General Nelson A. Miles, at his right, and Rear Admiral Henry Erben, at his left, Governor Roger Q. Wolcott of Massachusetts, Governor-elect Theodore Roosevelt, Governor Asa A. Bushnell of Ohio, Major General Daniel E. Sickles, Hon. Benjamin F. Tracy, ex-Governor Levi P. Morton, Rev. Dr. A. E. Kittredge, Captain Arthur Paget, R. N., Rev. Dr. J. O. Wilson, Governor Daniel H. Hastings of Pennsylvania, Major General O. O. Howard, Hon. Seth Low, Rev. Dr. Henry Van Dyke, Hon. Chauncey M. Depew, Hon. William J. Sewell, Governor Lloyd Lowndes of Maryland and Rev. Dr. G. R. Van De Water.

A letter from President McKinley was read.

GENERAL WADE SATISFIED.

He Thinks the Spanish Are Acting Fair as to Evacuation.

WASHINGTON, Nov. 12.—The following cablegram from General Wade, chairman of the Cuban evacuation commission, was read at the cabinet meeting:

"HAVANA, Nov. 18.
General Corbin, for Information of the President.

"From our arrival Spanish authorities here have, I believe, carried out terms of evacuation to the best of their ability. Ships arriving have been promptly and fully loaded and dispatched, about 20,000 men having gone. Lack of transportation and money to pay troops is giving serious trouble. Governor general seems able to deal with conditions as they arise. Accounts from here are so sensational I desire to inform you of true state of affairs."

"WADE, Major General."

TROOPS CONTINUE SOUTHWARD.

Fifteenth Pennsylvania Starts, Fourteenth and Ninth Ohio Battalion to Go.

CAMP MEADE, MIDDLETOWN, Pa., Nov. 12.—The Fifteenth Pennsylvania regiment struck its tents at Camp Meade and moved southward. Each man had three days travel rations and five days field rations. The long train was made up of three sections, the last one having a hospital car attached. The last section of the Second Tennessee regiment did not get away until a late hour Thursday night. While at the station some of the privates attacked an officer and one of them was stabbed.

The Fourteenth Pennsylvania and Ninth Ohio battalion are expected to leave on Sunday for Summerville, S. C.

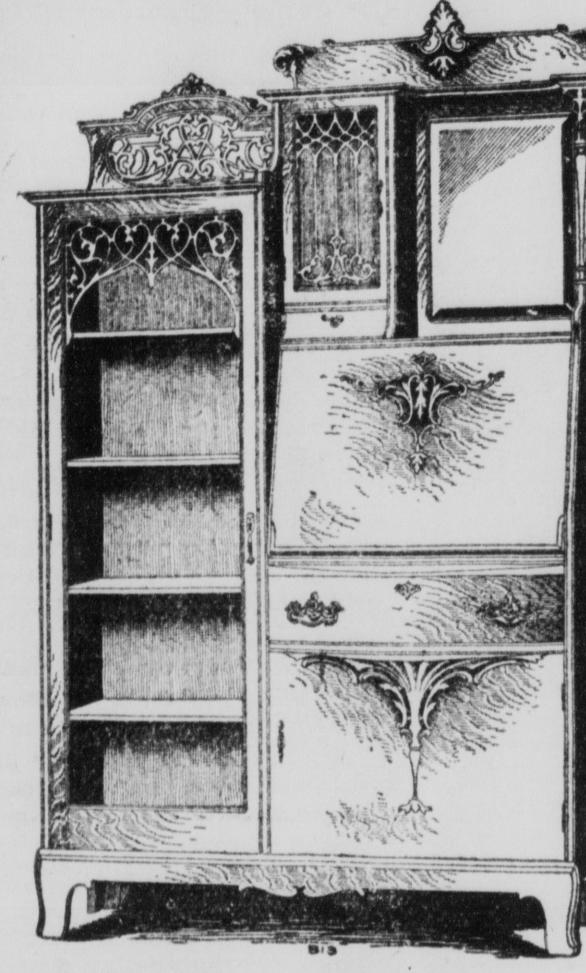

When the Second Tennessee regiment passed through here two girls from Middletown were discovered attired in

There's Little Reason

why your home should not be neatly and comfortably furnished, considering the cost of housefurnishings.

You can furnish an entire house for less money than it cost to fit out two or three rooms ten years ago.

A look through our store will convince you of this fact. The better class of furniture is now sold at about the prices you would formerly have paid for the common grade. The new patterns are sure to please you, as will the prices also.

This cut represents the latest pattern in combination cabinets, a book case and secretary combined. We have a variety of styles in oak and mahogany finishes. They make one of the most useful pieces of household furniture, and are very handsome.

Carpets, Rugs, Druggets, Etc

We never sold so much carpets in the fall as this season. If you have not got yours yet now is a good time. The new fall patterns will please you.

FRANK CROOK,

Fifth and Market Streets.

soldier uniform on the train. They were going to follow their soldier lovers to camp, but they were arrested and placed in jail.

JUDGE DAY HAS A COLD.

Spanish Likely to Have the Peace Conference Postponed From Today Until Monday.

PARIS, Nov. 12.—It is now generally understood that the joint session of the peace commissions, which was arranged for today, will be postponed until Monday next.

At the joint session of Wednesday last it was agreed that the session fixed for today might be postponed until Monday if the Spanish commissioners found themselves unable to prepare a reply for presentation on Saturday, and it now appears the Spaniards found it necessary to send to Madrid for certain records which cannot reach Paris before today and, therefore, their proper embodiment into the Spanish memorandum cannot be accomplished before it.

The next communication from the Spanish commissioners will deal with the rights of either commission to discuss Spanish sovereignty over the Philippine islands and with the American contention that the retention of public moneys and customs collections at Manila is justified by the fact of the military occupation of the place by the American forces and warranted by the protocol, even if faulty, as claimed by Spain, because such action commenced after the suspension of hostilities.

There is no truth in the statement printed here that the Spaniards have decided to refuse entirely at the next session to discuss the cession of the Philippine islands.

Judge Day, president of the American commission, is suffering from a cold and had a slight chill. Therefore, by his physician's advice, he was resting quietly Friday.

The judge's indisposition was in the nature of an attack of the grip, from which all the commissioners have suffered more or less, but he expected to be able to attend to business today.

CLINGS TO HIS FIGURES.

Babcock Still Claims Republicans Will Control the House.

WASHINGTON, Nov. 12.—Chairman Babcock of the Republican congressional committee, said that advices received by the committee made no change in the political complexion of the next house of representatives. The Republicans, he said, would have 185 members certainly, giving them a clear majority of 13.

Secretary Kerr of the Democratic congressional committee has gone to Pennsylvania. No additional statement from him, therefore, could be obtained.

THE KAISER WILL NOT LAND.

German Foreign Office's Statement as to Visit to Spain.

BERLIN, Nov. 12.—The foreign office disposed of the various deductions drawn from the emperor's proposed call at the port of Cadiz by saying that his majesty will not land, but will remain on board the yacht Hohenzollern, and thus on German soil.

Expect the Kaiser at Cartagena.

MADRID, Nov. 12.—The Duke Almodovar de Rio, minister of foreign affairs, received a telegram announcing that Emperor William would arrive at Cartagena on Nov. 19. The authorities were apparently greatly surprised when they heard of the visit, and it is probable that they had no previous notice of it.

FOR KILLING MISSIONARIES.

Thirteen Murderers of Americans Hung in West Africa.

LONDON, Nov. 12.—The mails from Sierra Leone, West Africa, brought news of the hanging at Kwellu of 13 murderers of American missionaries, members of the United Brotherhood of Christ, in the Sherbro district of Sierra Leone, last May.

Turkey Finally Granted Our Request.

CONSTANTINOPLE, Nov. 12.—After efforts lasting three years, upon the part of the United States legation here, the United States minister, Mr. Oscar Straus, has succeeded in obtaining an arraignment authorizing the granting of an exequatur to the United States consul at Erzeroum.

Weather Forecast.

Warmer, with increasing cloudiness; winds shifting to fresh northwest.

BRIEF PITHY PARAGRAPHS.

Four men were killed by a fire and explosion at Hanover, Mass.

Six of the men engaged in the holdup of the Great Northern coast train near Fergus Falls were captured at Moorehead, Minn.

United States cruiser Newark arrived at New York with Admiral Schley, who had the report of the Porto Rican commission on evacuation.

Charles Charleston, aged about 35, committed suicide at Paducah, Ky., on Broadway, by cutting his throat with a pocketknife. His home was in Moundsville, Pa.

Dixon was awarded the fight over Sullivan in New York. Sullivan's brother jumped into the ring, and this lost the decision, although Dixon had the better of his opponent.

Many persons have been poisoned by drinking the water of Roaring Fork river, Colo., caused by the new concentrators for the treatment of zinc ore, at Aspen. A child died.

A homeless Pole, named Schneider, was given a night's lodgings in a London bakehouse. He murdered the baker's German assistant and threw him inside the oven. In the morning, he tried to murder and wounded the baker, whose cries brought the police.

Iron production Nov. 1 was 228,935 tons weekly, against 215,635 tons Oct. 1, and a decrease is seen of 35,241 tons in stocks un-sold outside the holdings of the great steel companies, indicating an actual consumption of 1,019,646 tons in October, about 283 tons daily greater than the largest ever shown in any previous month on record. The export demand is beyond all dreams.

Wool sales for the past week were only 4,735,000 pounds at the three chief eastern markets, and were secured by concessions at all markets as last week, making 18,234,900 pounds, against 16,652,904 for the same two weeks last year and 12,289,600 for the same weeks in 1892. Many holders are refusing to abate their prices, though large manufacturers bid below current market prices because of their uncertainty in regard to the demand for woolen goods, which has somewhat improved and yet not greatly. It is growing in the minds of holders of wool at the east that the supply of foreign and domestic wool on hand is much greater than has heretofore been supposed.

Failures for the week have been 211 in the United States against 291 last year, and 26 in Canada against 24 last year.

BANQUET TO MILES.

It Rivalled the Affair Given to the President Last Year in New York.

Some of the Guests.

NEW YORK, Nov. 12.—The complimentary banquet given to Major General Nelson A. Miles, commanding the United States army, at the Waldorf-Astoria was a brilliant affair, rivaling the one given to the president last year by the merchants and manufacturers of the country.

Among those who sat at the guest's table, presided over by Joseph H. Choate, were Major General Nelson A. Miles, at his right, and Rear Admiral Henry Erben, at his left, Governor Roger Q. Wolcott of Massachusetts, Governor-elect Theodore Roosevelt, Governor Asa A. Bushnell of Ohio, Major General Daniel E. Sickles, Hon. Benjamin F. Tracy, ex Governor Levi P. Morton, Rev. Dr. A. E. Kittridge, Captain Arthur Paget, R. N., Rev. Dr. J. O. Wilson, Governor Daniel H. Hastings of Pennsylvania, Major General O. O. Howard, Hon. Seth Low, Rev. Dr. Henry Van Dyke, Hon. Chauncey M. Depew, Hon. William J. Sewell, Governor Lloyd Lowndes of Maryland and Rev. Dr. G. R. Van De Water.

A letter from President McKinley was read.

GENERAL WADE SATISFIED.

He Thinks the Spanish Are Acting Fair as to Evacuation.

WASHINGTON, Nov. 12.—The following cablegram from General Wade, chairman of the Cuban evacuation commission, was read at the cabinet meeting:

"HAVANA, Nov. 18.
General Corbin, for information of the President.

"From our arrival Spanish authorities here have, I believe, carried out terms of evacuation to the best of their ability. Ships arriving have been promptly and fully loaded and dispatched, about 20,000 men having gone. Lack of transportation and money to pay troops is giving serious trouble. Governor general seems able to deal with conditions as they arise. Accounts from here are so sensational I desire to inform you of true state of affairs."

"WADE, Major General."

TROOPS CONTINUE SOUTHWARD.

Fifteenth Pennsylvania Starts, Fourteenth and Ninth Ohio Battalion to Go.

CAMP MEADE, MIDDLETOWN, Pa., Nov. 12.—The Fifteenth Pennsylvania regiment struck its tents at Camp Meade and moved southward. Each man had three days travel rations and five days field rations. The long train was made up of three sections, the last one having a hospital car attached. The last section of the Second Tennessee regiment did not get away until a late hour Thursday night. While at the station some of the privates attacked an officer and one of them was stabbed.

The Fourteenth Pennsylvania and Ninth Ohio battalion are expected to leave on Sunday for Summerville, S. C.

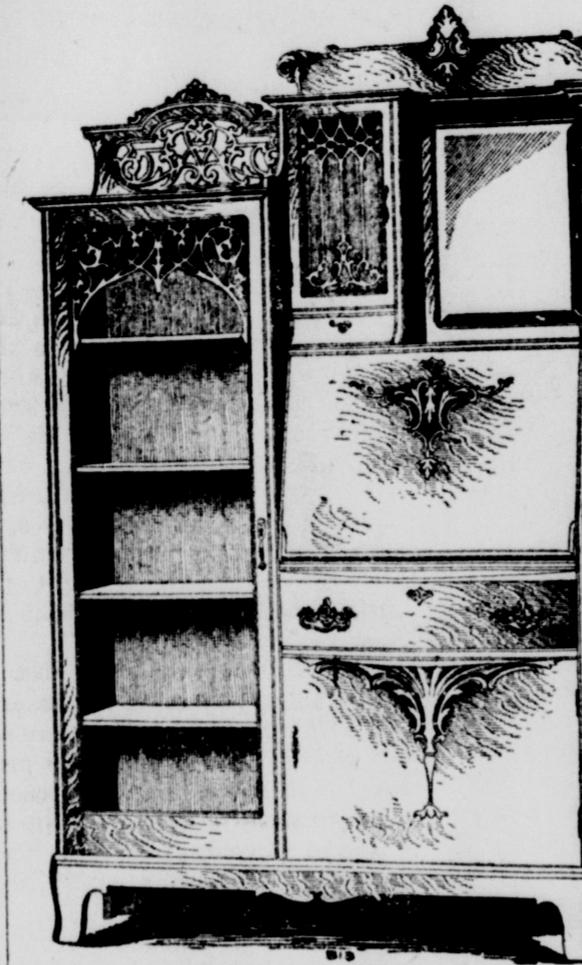

When the Second Tennessee regiment passed through here two girls from Middletown were discovered attired in

There's Little Reason

why your home should not be neatly and comfortably furnished, considering the cost of housefurnishings.

You can furnish an entire house for less money than it cost to fit out two or three rooms ten years ago.

A look through our store will convince you of this fact. The better class of furniture is now sold at about the prices you would formerly have paid for the common grade. The new patterns are sure to please you, as will the prices also.

This cut represents the latest pattern in combination cabinets, a book case and secretary combined. We have a variety of styles in oak and mahogany finishes. They make one of the most useful pieces of household furniture, and are very handsome.

Carpets, Rugs, Druggists, Etc

We never sold so much carpets in the fall as this season. If you have not got yours yet now is a good time. The new fall patterns will please you.

FRANK CROOK,

Fifth and Market Streets.

soldier uniform on the train. They were going to follow their soldier lovers to camp, but they were arrested and placed in jail.

JUDGE DAY HAS A COLD.

Spanish Likely to Have the Peace Conference Postponed From Today Until Monday.

PARIS, Nov. 12.—It is now generally understood that the joint session of the peace commissions, which was arranged for today, will be postponed until Monday next.

At the joint session of Wednesday last it was agreed that the session fixed for today might be postponed until Monday if the Spanish commissioners found themselves unable to prepare a reply for presentation on Saturday, and it now appears the Spaniards found it necessary to send to Madrid for certain records which cannot reach Paris before today and, therefore, their proper embodiment into the Spanish memorandum cannot be accomplished before Monday.

The next communication from the Spanish commissioners will deal with the rights of either commission to discuss Spanish sovereignty over the Philippine islands and with the American contention that the retention of public moneys and customs collections at Manila is justified by the fact of the military occupation of the place by the American forces and warranted by the protocol, even if faulty, as claimed by Spain, because such action commenced after the suspension of hostilities.

There is no truth in the statement printed here that the Spaniards have decided to refuse entirely at the next session to discuss the cession of the Philippine islands.

Judge Day, president of the American commission, is suffering from a cold and had a slight chill. Therefore, by his physician's advice, he was resting quietly Friday.

The judge's indisposition was in the nature of an attack of the grip, from which all the commissioners have suffered more or less, but he expected to be able to attend to business today.

CLINGS TO HIS FIGURES.

Babcock Still Claims Republicans Will Control the House.

WASHINGTON, Nov. 12.—Chairman Babcock of the Republican congressional committee, said that advices received by the committee made no change in the political complexion of the next house of representatives. The Republicans, he said, would have 185 members certainly, giving them a clear majority of 13.

Secretary Kerr of the Democratic congressional committee has gone to Pennsylvania. No additional statement from him, therefore, could be obtained.

TROOPS CONTINUE SOUTHWARD.

THE KAISER WILL NOT LAND.

German Foreign Office's Statement as to Visit to Spain.

BERLIN, Nov. 12.—The foreign office disposed of the various deductions drawn from the emperor's proposed call at the port of Cadiz by saying that his majesty will not land, but will remain on board the yacht Hohenzollern, and thus on German soil.

Expect the Kaiser at Cartagena.

MADRID, Nov. 12.—The Duke Almodovar de Rio, minister of foreign affairs, received a telegram announcing that Emperor William would arrive at Cartagena on Nov. 19. The authorities were apparently greatly surprised when they heard of the visit, and it is probable that they had no previous notice of it.

FOR KILLING MISSIONARIES.

Thirteen Murderers of Americans Hung In West Africa.

LONDON, Nov. 12.—The mails from Sierra Leone, West Africa, brought news of the hanging at Kwellu of 13 murderers of American missionaries, members of the United Brotherhood of Christ, in the Sherbro district of Sierra Leone, last May.

Turkey Finally Granted Our Request.

CONSTANTINOPLE, Nov. 12.—After efforts lasting three years, upon the part of the United States legation here, the United States minister, Mr. Oscar Straus, has succeeded in obtaining an order authorizing the granting of an exequatur to the United States consul at Erzeroum.

Weather Forecast.

Warmer, with increasing cloudiness; winds shifting to fresh northwest.

BRIEF PITHY PARAGRAPHS.

Four men were killed by a fire and explosion at Hanover, Mass.

Six of the men engaged in the holdup of the Great Northern coast train near Fergus Falls were captured at Moorehead, Minn.

United States cruiser Newark arrived at New York with Admiral Schley, who had the report of the Porto Rican commission on evacuation.

Charles Charleston, aged about 25, committed suicide at Paducah, Ky., on Broadway, by cutting his throat with a pocketknife. His home was in Moundsville, Pa.

Dixon was awarded the fight over Sullivan in New York. Sullivan's brother jumped into the ring, and this lost the decision, although Dixon had the better of his opponent.

Many persons have been poisoned by drinking the water of Roaring Fork river, Colorado, caused by the new concentrators for the treatment of zinc ore, at Aspen. A child died.

A homeless Pole, named Schneider, was given a night's lodging in a London bakehouse. He murdered the baker's German assistant and threw him inside the oven. In the morning, he tried to murder and wounded the baker, whose cries brought the police.

It will pay investors to look into them.

To THE ADVERTISERS.

The Evening News Review has the largest bona fide PAID daily circulation of any paper published in East Liverpool, and the largest circulation in Wellsville of any daily paper published in East Liverpool. Keen witted and wide awake business men and advertisers will make note of these facts.

HARRY PALMER,
Owner and Manager.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

LOCAL BREVIETIES

Today is big pay.

The street force are today cleaning the principal streets.

Sol Whit will leave this evening for a business trip to New York.

Joseph Eberling, of Calcutta road, this morning sold a valuable running horse.

Mrs. Eliza J. Stapleton, who has been seriously ill at her home in Sixth street, is much improved.

Mrs. M. K. Zimmerman is ill at her home in Market street, suffering from the effects of a severe cold.

A number of young people from the city will Tuesday evening attend a dance to be given in Wellsville.

It is rumored that a prominent business man of this city will in the near future wed a Wellsville society lady.

Mrs. Emma Hanlon, of Seventh street, has returned from England, where she spent the summer visiting friends.

This morning a dozen white poplar trees were planted in the city squares. The trees were brought here from Carroll county.

Nancy Allison yesterday was given judgment in the court of Squire Hill against Fred Stark for \$39, claimed due for board and lodging.

The street force are today hauling cinders and filling holes in the road to East End. The thoroughfare will be put in the best possible condition for winter.

Mrs. Hazel Hitchcock, daughter of Professor and Mrs. O. S. Reed, left this morning for her home in St. Louis. She has been spending several months in the city.

The Bachelor Girls will entertain their married lady friends at the home of Miss Minnie Thompson next Thursday afternoon. The hours are from 2:30 until 5:30 o'clock.

The work of cleaning the fire station has been completed. Since the wood work has been cleaned and the stove varnished the appearance of the place is one of neatness.

The funeral of Miss Johnson will take place tomorrow afternoon at 2 o'clock from her late residence in Thompson Avenue, Professor Reed officiating. Interment at Riverview.

Much freight was handled at the depot yesterday, and during the day many cars were loaded and sent out. The receipts were very large, and the warehouse is now cramped for room.

All the morning trains were late today, but the early western train was delayed by heavy express business. When the Cleveland train left the Second street station it was 25 minutes late.

Miss Belle Jones last evening at her home in Third street very pleasantly entertained. Guests to the number of 60 were present and spent a very delightful evening in music and dancing.

While there are several cases of diphtheria in Wellsville there is not one case in this city and the health authorities here are taking every precaution to prevent the disease from getting a start here.

The clerical force at the freight depot are now busily engaged in closing their reports for the business handled during the month of October. It is thought the work will be completed by next Thursday.

The papers of Canton state that the appraisement of government property in the hands of the Eighth regiment amounted to \$52,000. Colonel Hard, according to a Wooster paper, says the appraisement will not exceed \$10,000.

There is a great deal of complaint from motormen and patrons of the street car line because the company do not keep glass in the windows and doors of cars. When a window is broken it is usually several weeks before it is repaired, causing passengers to feel more cold than they desire.

BIG VOLUME OF TRADE

Dun's Review Noted It to Be the Largest in Any Month, Except December, 1892.

NEW YORK, Nov. 12.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part: The country has safely passed the trial of "off year" elections. Before this election everything, except political uncertainties, favored business enlargement. The volume of trade has been the greatest ever known in any month, except December, 1892. The record on November thus far shows clearings 10.4 per cent larger than last year, and 9.3 per cent larger than in 1892. The railroad earnings in October have been 5.2 per cent larger than last year, and 8 per cent larger than in 1892.

Foreign trade shows an increase of 20 per cent in October in exports with 38 per cent in imports from New York last week, while imports showed a gain of only 22 per cent in October and credits against foreign bankers were piling up at an inconvenient rate. There was and is absolutely no anxiety about the currency, and the treasury is only too strong.

Wheat declined nearly 1 cent, but recovered all the loss.

Corn has but slightly changed in price.

Iron production Nov. 1 was 228,935 tons weekly, against 215,635 tons Oct. 1, and a decrease is seen of 35,241 tons in stocks unsold outside the holdings of the great steel companies, indicating an actual consumption of 1,019,646 tons in October, about 283 tons daily greater than the largest ever shown in any previous month on record. The export demand is beyond all dreams.

Wool sales for the past week were only 4,735,000 pounds at the three chief eastern markets, and were secured by concessions at all markets as last week, making 18,234,900 pounds, against 16,652,902 for the same two weeks last year and 12,889,600 for the same weeks in 1892.

Many holders are refusing to accept their prices, though large manufacturers bid below current market prices because of their uncertainty in regard to the demand for woolen goods, which has somewhat improved and yet not greatly. It is growing in the minds of holders of wool at the east that the supply of foreign and domestic wool on hand is much greater than has heretofore been supposed.

Failures for the week have been 211 in the United States against 291 last year, and 26 in Canada against 24 last year.

14TH YEAR. NO. 133.

EAST LIVERPOOL, O. SATURDAY, NOV. 12, 1898.

TWO CENTS

TO PROTECT TOLBERT.

The Government Will Not Allow Any Interference.

THE RIOTS TO BE INVESTIGATED.

South Carolinians, Who Shot Members of the Family, Likely to Be Brought to Justice—B. R. Tolbert's Story—He Saw the President and Griggs.

WASHINGTON, Nov. 12.—R. R. Tolbert, whose father and brother were shot in the recent race war at Phoenix, S. C., was at the department of justice to secure an investigation of the riot by the federal authorities. He was accompanied by some of the Republican politicians of the state. The elder Tolbert is now in the state penitentiary for safety from popular violence.

Mr. Tolbert says that the true facts of the rioting have not been given.

He was nominated for congress by the Republicans of his district. For the purpose of making a contest before the house his brother, T. J. Tolbert, was at the polling place at Phoenix for the purpose of witnessing the affidavits of colored men who were rejected as voters because of their inability to comply with the requirements of the constitution. He deposited the affidavits in a box.

Mr. Etheridge, the white man who was killed, was an election manager at a precinct two miles away. He, with a party of men, went to Phoenix, walked up with his party to where Tolbert's brother was sitting at a table and deliberately kicked over the table and box in which were put the certificates. Then he assaulted Tolbert's brother. In a short while the Democratic voters rushed out and commenced shooting into the crowd. The negroes fled.

Mr. Tolbert said that he was at Abbeville, 25 miles away. His father, J. H. Tolbert, was at Verdry, another precinct. When the elder Tolbert learned of the riot he started to the scene in his buggy, accompanied by a little 10-year-old nephew. He was met by a mob, which riddled the buggy with bullets and wounded him and the little boy a number of times. It is said the boy was killed by the shots.

T. P. Tolbert was aided to his home. While lying in bed in a dying condition the mob attempted to make him give the name of the person who had killed Etheridge. He said he could not be certain Etheridge had been killed by the Democrats themselves.

On finding his father so badly wounded, Mr. R. R. Tolbert procured a doctor, who attended to the wounds of the senior Tolbert. After placing his family in a safe place, Mr. Tolbert came on to this city.

"Mr. Tolbert stated that his brother was unarmed and said that so far as he could see no shots were fired by the negroes at Phoenix.

M. Tolbert, accompanied by Solicitor General Richards of the department of justice, called at the White House and had an extended interview with President McKinley. He related to the president the story of his experience in South Carolina substantially as given above, entering into minute details of the trouble on election day. The president listened attentively to the recital, but gave no indication of what action, if any, might be taken. However, he requested Mr. Tolbert to see the attorney general and make to him a full statement of the situation as he viewed it, which Mr. Tolbert did.

Attorney Griggs spent sometime with the president, but so far as could be ascertained, no decision of the question presented by Mr. Tolbert was reached.

The department of justice has taken steps to obtain official information bearing upon the trouble in South Carolina. Steps have been taken to afford ample protection to the elder Tolbert, who is collector of customs at the port of Charleston. It is said that, as a government officer in the exercise of his individual rights and in the performance of his official duties, the federal government will not permit him to be interfered with. A prominent official of the administration said:

"Collector Tolbert's rights will be maintained, even though an effort be made under the guise of law to trench upon them."

LIMA PEOPLE PROTEST.

Disapprove of Monnett's Suit Against the Oil Companies—Millions Paid Out There Annually.

LIMA, Nov. 12.—The investigation of the Buckeye Pipe Line company began here. Attorney General Monnett is trying to oust the company from the state, on the ground that it is part of the Standard Oil trust.

The Solar Refining company will also be investigated. A public meeting was held here to show the disapproval of the citizens of the action, as the company pays out millions of dollars here annually.

MASON OF OHIO PROMOTED.

WASHINGTON, Nov. 12.—There was some discussion of appointments to consular positions and two appointments were decided upon at the cabinet meeting. Frank Mason of Ohio, who has been consul at Frankfort, Germany,

both during the present administration and the Harrison administration, has been selected to succeed to the vacant consul generalship at Berlin, caused by the death of Julius Goldsmith, and Richard Guenther of Wisconsin is to succeed Mason at Frankfort.

A Cheap Railroad Rate.

TOLEDO, Nov. 12.—As a result of the Pennsylvania and Hocking Valley's fight on the Ohio Central excursions from Columbus to Chicago, Moulton Honk, general passenger agent of the Ohio Central, established a \$3 round trip rate to Chicago from Columbus. Mr. Honk said it was a fight to a finish. The Ohio Central is not a member of the Central Passenger association.

Colonel Dick's Majority.

AKRON, Nov. 12.—The official count of Summit county was concluded and gives Kinney a plurality of 1,449. Blackburn's is 705 and the Republican county ticket was elected by majorities ranging from 69 to 3,625. Colonel Dick's plurality for congress was 1,716. His majority in the district will be about 200 short of 11,000.

THE AIRBRAKES FAILED.

Caused the Awful Wreck on the Lehigh Valley Railroad—Five Trainmen Killed and Five Injured.

WILKESBARRE, Pa., Nov. 12.—Two passenger trains were wrecked, five trainmen killed and five injured by a head-on collision on the Lehigh Valley railway, nine miles east of this city. The names of the killed are:

John McNally, engineer, Lehighton; William Toxheimer, fireman, White Haven; Fred Glasser, fireman, Mauch Chunk; John McClellan, express messenger, Wilkesbarre; Jacob Engleman, brakeman, Easton.

Injured: D. E. Price, engineer, Eastons; John Ronning, engineer, East Mauch Chunk; Charles H. Morgan, express messenger, Waverly; John Schoenfeldt, brakeman, Mauch Chunk; A. G. Boyle; Mauch Chunk, baggage master, slightly injured.

The express bound from New York to Buffalo reached White Haven station a little over an hour late. She got orders at Fairview, on top of the mountain, to stop and go on to siding No. 7 for the Buffalo express bound east to pass. The track is a single one. Engineer Rohlfing was unable to stop at the siding. The airbrakes failed to work. He reversed the engine and whistled for airbrakes, but the momentum was too great to make a quick stop, and his train and the other train coming up the grade pulled by two engines crashed into each other.

The engines were wrecked and the baggage, mail and express cars piled up on them. The collision occurred in a deep rock cut, and the baggage and other cars saved the passenger coaches from being wrecked. The express and mail cars were smashed into kindlingwood, and the baggage and mail matter scattered all over the tracks. The passengers, most of whom were asleep, were aroused by the shock, but none were injured.

NEGROES CAUSING TERROR.

Non-Union Miners Fired at White Men and Into Houses in Illinois.

PANA, Ills., Nov. 12.—Troop B of Bloomington remains on duty here, but almost nightly in the "Flat hall" district the negro residents have practiced shooting at any white man that passed. The negroes have been heavily armed by the mine operators.

The residences of several white miners were shot into by Winchesters in the hands of the colored men. A white widow's cottage was pierced repeatedly by bullets, several charges barely missing her three children.

CHANCE TO SEND GIFTS.

Those Who Have Friends in Manila Are Given an Opportunity.

WASHINGTON, Nov. 12.—The 17th of the present month will be the last date upon which the folks at home may send Christmas presents to the soldiers in Manila through government agency. The quartermaster's department has chartered a steamer, which will leave San Francisco on that date, and this will be the last steamer to reach Manila before Christmas.

Persons wishing to forward goods to friends in the army at Manila must cause the same to be delivered free of charges to the depot quartermaster at San Francisco properly directed.

Havana Patrolled by Troops.

HAVANA, Nov. 12.—Following the example of the third company, part of the first and fourth companies of the orden publico (police) have demanded their pay, now several months overdue. As a result of this regular Spanish troops are now quartered in the streets and General Arolas, at the head of two battalions, has been patrolling the main thoroughfares. The city is quiet.

Soldiers' Society Incorporated.

FRANKFORT, Ky., Nov. 12.—Service men of the Spanish war, "a society of the late war," was incorporated here by filing articles with the secretary of state.

SHUN THE PHILIPPINES

Gratuitous Advice From Spain's Great Financier.

WOULD HAVE TO CONQUER NATIVES

Ruinous War Predicted, Which Would Cost Us Many Lives and Money and Ruin Business—Other Nations Would Have Excuse to Interfere.

PARIS, Nov. 12.—Marquis de Comillas, the strongest individual factor in Spain's financial and commercial world, who is now in this city, made a statement to the correspondent of The Associated Press of his personal views regarding the Hispano-American situation.

Dewey's victory having served its strategic purpose, he could not see what the Americans wanted with the Philippines. Further along he said:

"The Americans are absolute strangers to the Philippines and their population. They are unprovided with the immediate organization necessary to rule that extensive and remote territory and to exercise authority there. The Filipinos have a certain degree of culture and some rudimentary ideas as to public administration, but, as a whole, the country is not yet capable of self-government.

"The cession of sovereignty over the Philippines to the United States would be disastrous to all those having business interests there, as well as for the natives as for the Spaniards and for Europeans of every nationality. Spain cannot transfer her Philippine sovereignty to the United States by a mere clause in a peace treaty. The United States would be confronted with a war for the subjugation of 8,000,000 Malayans. This would mean the destruction of all property in the Philippines. Trade and commerce would be paralyzed there. The merchants and manufacturers of Spain would lose the markets they now enjoy, their factories would suspend and their employees lie idle. The markets for their products would have vanished.

"But the United States would not gain these markets. At least they would gain them only by fire and sword."

Some of these natives, he said, would declare independence immediately, once their ties with Spain were broken.

Others already risen against Spain, having hopes of independence, which the United States has raised in them, would tend to become the bitterest enemies of the United States.

He further said: "To make this clear I need only point to the relationship between their armed forces and those of the United States, as shown in the bloody conflict that took place between them at Cavite."

The result of all this would, he said, be a war of subjugation, which would be very costly in men as well as money for the United States, a war of desolation and ruin for the Philippines and their inhabitants; a war which would give to one or several powers humanitarian arguments that would justify their intervention for reasons similar to those that caused American intervention in Cuba.

MISS WILLARD'S MEMORY.

The W. C. T. U. Did the Dead Woman Great Honor—Some of the Reports Made.

ST. PAUL, Nov. 12.—The two most prominent ideas on the opening day of the opening day of the annual convention of the National Woman's Christian Temperance union were reverence for the memory of the departed leader, Miss Willard, and a reviving of the spirit and history of the original crusaders of 1874. It was the anniversary of the latter and Miss Willard's memory was honored in many ways.

The report of the corresponding secretary, Miss Katherine Lent Stevenson, said in part:

"The temple has, in one form or another, been the chief object of work at national headquarters during the year.

"Organizing has been done in 14 missionary states and territories. In addition, the state officers in the majority of states have vigorously pushed an increase of membership.

"Seven states have made a gain of 500 or more. These are Minnesota, Ohio, Texas, North Dakota, Kansas, California and Indiana, which leads the van with a net gain of more than 1,000. If only these gains had not been offset by losses in other states what a brave showing we should have today.

"The chief trouble this year, as every other, lies in the fact that dues have not been promptly paid. Despite all hindrances, however, there is a net gain in our entire membership larger than for several years.

"Work for the soldiers has formed a most important part of this year's record."

The honor roll, she said, will be discontinued, and "we trust some more successful plan may be discovered. The total number of new members recorded in honor roll is 6,000, of which 4,760 have been secured by women, 380 by men. Number of names enrolled as having secured ten new members 121."

The annual report of the treasurer.

Helen M. Barker, showed receipts of \$24,297 and expenditures of \$23,207, the balance on hand being \$1,089.

VICTIMS OF FEVER.

Colonel Williams and One of His Clerks Died of the Yellow Scourge in Havana.

WASHINGTON, Nov. 12.—Colonel Williams took with him to Havana two clerks who had served with him at Jeffersonville, and they were also stricken down with the yellow fever about the same time that he was. Word was received at the office of the quartermaster general that one of them—Stewart by name—died shortly after Colonel Williams breathed his last. As nothing was said as to the condition of the other clerk, whose name is Colwell, it is assumed that he is still alive.

Adjutant General Corbin received a message from General Wade, chairman of the Cuban evacuation commission at Havana, announcing the death from yellow fever of Lieutenant Colonel Charles W. Williams (not W. A. Williams), deputy quartermaster general.

Mrs. Williams and family are now in Washington. She is a daughter of General John B. Gordon of Georgia.

TWO DEATHS IN PORTO RICO.

General Wood Gave 1777 as Number of Sick at Santiago.

WASHINGTON, Nov. 12.—General Wood's health report from Santiago shows a sick list of 1,176; fever of all kinds, 617.

General Brooke reports from Ponce the following deaths: Private Charles Cummings, Company H, Third Wisconsin; Civilian Carpenter, quartermaster's department, Max Weigel, both typhoid.

MAY LOSE THE TERESA.

British Admiralty Authorities, It Is Said, Will Seize the Warship as a Derelict.

NASSAU, N. P., Nov. 12.—The British admiralty authorities here are going to take possession of the Maria Teresa as a derelict. The American consul has protested against this course, claiming everything less the salvage.

The steamer Antilia is leaving here for Cat island, with customs officers and police on board.

Opinions differ as to the chance of saving the cruiser. Although she has been aground since Thursday, the Maria Teresa rests in an easy position and the weather is moderate.

TALK OF SALVAGE ON TERESA.

May Not Be Worth Saving—Court of Inquiry to Be Held.

WASHINGTON, Nov. 12.—The legal status of the Maria Teresa has been considered cursorily and in the opinion of the navy department the title of the United States to her is unimpaired, notwithstanding the fact that it was necessary to abandon her for a time. There may be some question involved as to the payment of salvage to the Bahamas fishermen, if they are entitled to any.

From the account received it is feared the damage to the vessel sustained through the storm and the probable pounding upon the coral reefs outlining Cat island, added to the wounds received by the ship in action when she sank originally are sufficient to render her entirely valueless. Nothing but an expert's examination can determine this point, but as the Merritt experts are already on their way to Cat island that question will soon be decided.

The navy department has decided a court of inquiry shall be held to decide whether the abandonment of the Teresa at sea was justifiable and if not who was responsible.

ANOTHER NEGRO SHOT.

Several White Men Sent Out of Wilmington, N. C., For Fear of Violence Being Done Them.

WILMINGTON, N. C., Nov. 12.—Guards shot an unruly negro in a negro slum of the city. A sensation was created by the capture of J. R. Melton, late chief of police, by a crowd of rough riders, who would have committed violence had not the military interfered, and Melton, R. H. Bunting, Republican justice of the peace, and C. H. Gilbert, ex-fusion policeman, all of whom were in danger of severe treatment by redshirts, were escorted to the depot and sent out of town. Acting Sheriff G. Z. French left the city Thursday night. Eight negroes in the county jail, whom the "redshirts" and "rough riders" had threatened to lynch, were sent to Goldsboro for safe keeping. These were arrested during the rioting Thursday.

The city is now under thorough military and police protection and there is every indication that no further outbreaks are expected.

Fugitives from Wilmington.

NEWBERN, N. C., Nov. 12.—The men away from Wilmington came here and were asked to leave. They left by boat for Elizabeth City, and it is believed they will not be allowed to land.

Tolbert Warned to Leave.

COLUMBIA, S. C., Nov. 12.—Notice was given James Tolbert and family to leave the county. A band of white men left to tell his brother-in-law to leave.

CRUELTY TO DREYFUS.

Wife Not Allowed to Cable the Court's Decision.

A PITIFUL LETTER READ TO HER.

Her Husband Wrote That, Discouraged by Appeals for Revision, He Would Write No More to His Family or Anybody—Was Ill and Dying.

PARIS, Nov. 12.—Madame Dreyfus, it is said, applied at the office of the colonial minister for permission to send her husband some warm clothing for his return home. Her request was refused on the ground that the government would do whatever was necessary.

At the same time the authorities read to her letter from her husband to the effect that having for five months addressed appeals for a revision to General De Boisdeffre without getting any reply, and being wearied and exhausted by his useless appeals, he would write no more to his family or to anybody. He dressed himself as ill and dying.

DISMISSED THE CASE

Because the Boy Was Under School Age.

NO MORE LENIENCY SHOWN

Parents Who Do Not Send Their Children to School Will Be Prosecuted Regardless of What Excuses They May Give—An Important Change.

The truancy case against A. J. Mackey for not sending his son Guy to school was heard last evening in the court of Squire Hill and the suit dismissed. The father swore that his child was under school age.

The law in truancy cases will be strictly enforced this year. Last year many excuses were offered by parents and the cases dismissed, but this season it has been decided to push all suits and to make no exceptions in cases where the parents are working and claim they cannot look after their children. Ignorance of the law will also not be accepted as an excuse.

It is deemed best to enforce the truancy law in order to make the visit of Deputy Inspector Hull effective.

THE MAJOR AND MONEY.

He Refused Chairman Blacker's Offer For Help.

The Columbus State Journal in commenting on the late campaign in this district, says:

"The small majority rolled up for Hon. R. W. Taylor in the Eighteenth district shows in a way the strength of the soldier feeling. His opponent, Major C. C. Weybrecht, went to the front with the Eighth regiment, and that fact aided him materially in the campaign. He reduced the normal Republican majority over 2,000 votes.

Major Weybrecht holds a unique position in Democratic politics, from the fact that during a recent visit to this city he called upon Chairman Blacker, who offered money for his campaign and refused to take it. He was not entitled to too much praise on this account, however, and the grand stand play was not necessary, for he did not need Blacker's money."

SAW CASHIER CHILD

He Was In Columbus Last Wednesday Morning.

A resident of this city who has frequently met M. J. Child, late cashier of the First National bank of Lisbon, believes he saw him on High street in Columbus last Wednesday.

The cashier was walking toward the Union station and carried a valise in his hand. He was accompanied by a man whom the Liverpool man had never seen.

A Slight Increase.

The recent cold weather has caused a slight increase in business at the office of the township trustees, and they have purchased a few loads of coal the last few days. The trustees do not anticipate a very large expenditure of funds this winter.

Rats at Central Station.

Yesterday morning Barney, the coach dog at the fire station, killed 28 rats in less than five minutes. The creatures were placed in a large cask and the dog killed them all by breaking their backs.

\$10 special sale at Joseph Bros., will induce many to buy their next suit and overcoat Saturday from this firm. *

BRITAIN'S SEA FORCE

WHAT ENGLAND CAN DO IN CASE OF AN EMERGENCY.

Her Great Naval Resources and Marked Success in Mobilization of the Defenses—Navy's Great Reserve of Coal.

The bristling energy of the British admiralty seems to have behind it something more than the complications which made the Fashoda incident its initial excuse. The activity of dockyards and arsenals, the mobilization of battleships, cruisers and torpedo boats, and the "stand by" orders issued to the unemployed personnel, must mean the preparation for an emergency greater than now stands revealed.

At no time within the last two years has the active fleet of the empire been unequal to any demands that could be made upon it by the first shock of a conflict with France single handed. Under the "two power theory" which has kept England's naval strength superior to that of any two of the other great sea powers, her fighting squadrons have been more than equal to what France or Russia alone could array.

From either she has nothing to fear, nor need her preparations take on any unwanted activity. If, however, a combination has been formed and the present settlement of the Marchand question is only a preliminary to the re-opening of the whole Egyptian question, in which France is said to have the support of Russia, or if the claims of Russia in the east are to be given the active support of France, then the mobilization of men and material may be understood.

Within a few years Great Britain has demonstrated her enormous naval possibilities. The jubilee review was the most marvelous parade of transferable force the world has ever known, and when the ease with which her late port guard squadron was assembled is remembered the present orders for mobilization must be accepted more as a proof of her immediate readiness than as a measure of her resources.

The orders so far given provide for the assemblage at Devonport of seven battleships and one cruiser; to supplement these, six 30 knot torpedo boat destroyers are to be commissioned, and all the battleships and cruisers at Portsmouth are taking full crews. This last is so distinctly a war measure that its meaning is most pregnant, and when its significance is fortified by orders just issued to send home from the channel squadron, now at Gibraltar, a large number of the fleet signalmen, little doubt remains that the admiralty is preparing to commission not only many vessels in reserve, but probably some of the auxiliary cruisers.

The dockyards at Portsmouth, Devonport and Chatham are working day and night; the Woolwich arsenal is energizing its possible output; overtime has been ordered on new cruisers, like the Europa and Andromeda, and at Dover, among other reported places, an experimental mobilization of the defenses has been carried out with marked success.

The postponement of naval maneuvers this year leaves England with a great reserve of coal, and though many excuses were offered for this unusual departure in fleet instruction it is understood that the authorities have felt that something more real than the maneuvers of A and B squadrons might at any moment, from complications in the Yellow sea and in the Mediterranean, demand a prudence of expenditure in this "life of the ship." Luckily the British fleet need not suffer from a fuel famine.

The most recent experiences of England in naval war preparations were the results of misunderstandings with Germany on the Transvaal question, which followed closely upon the idle threat made in a moment of hot patriotism and misguided wisdom. It may be well to recall it, quoting the words of an American naval officer:

"When, under the shock of a disturbed diplomacy," he writes, "England was called upon to employ a flying squadron needing 3,000 men and to commission other vessels requiring 2,500 men the high possibilities of her system were revealed. The flying squadron was ready for war service in a few days—surely in less than a week—and the other ships were quickly and efficiently organized for any sudden order.

"Notwithstanding this sudden demand the admiralty had no difficulty in maintaining at their efficient strength the crews of the fleet reserve and of the dockyard reserve ships in the home ports. In addition, thousands of men undergoing gunnery and torpedo instruction were in no way interfered with and enough men were available at the general depots to commission at short notice three first class battleships and four first class or six second class cruisers.

"Nor was it found necessary to reduce the strength of the British foreign squadrons to attain at home this satisfactory state of affairs, for, besides the fact that the squadrons on their respective stations were stronger in ships and men than they had ever been before, there was an unprecedented number of vessels homeward bound."—New York Tribune.

thirteen years have played over 28,500 games of cribbage, and one day recently scored even games. They have never been over 70 games apart. During the series they have held two 28 hands and one 29 hand. On one occasion both held 24 hands in a game on the same deal, all the cards being fours, fives and sixes.—Boston Globe.

AMERICAN WIRE NAILS.

Used In Practically Every Country on the Globe.

We are furnishing the whole world with wire nails. We send them to every grand division of the globe and to every civilized and half civilized country—even to Germany, France, Belgium and Great Britain, where the iron trade is supposed by popular fallacy to be further advanced than in the United States. We send them also to Italy, Turkey, Holland and all the other states of Europe, to all the Central and South American states, to Asiatic Russia, British Australasia, French Oceanica, British and Portuguese Africa, to the Poers and the Sudanese, to Korea and to China, and, strange to say, our largest customer is Japan.

Nearly one half of the entire export of wire nails from the United States last year went to the land of the mikado. This is practically a new industry, although Alexander Hamilton in his report to congress as secretary of the treasury in 1791 with commendable pride, called attention to the fact that "the United States are in a great measure able to supply themselves with nails and spikes," which at that time were all made by hand, and most of them in chimney corners. Machine made wire nails appeared in the market for the first time in 1882. In 1883 they gained popularity and began to take the place of cut nails. In 1892 the manufacture reached a total of 471,952,000 pounds. In 1897 it jumped to 899,724,500 pounds, and in 1898 the figure will show a corresponding increase.

The export of wire nails may be said to have commenced in 1888, when we shipped 1,547,098 pounds to foreign countries. The popularity of this new product developed so rapidly that during the fiscal year of 1898, ten years later, the exports had reached 22,894,099 pounds. The price has been running down with equal velocity. In 1888 wire nails sold for 10 cents a pound; in 1898 they sell for 2 cents a pound, or about the same price that the manufacturers of Great Britain ask for steel rails. In Chicago in 1890 the average price was \$2.51 a keg; in 1898 it is \$1.36.—W. E. Curtis in Chicago Record.

MUSTACHE GUARD.

Queer Apparatus Made of Gold and With Ear Hooks Like Spectacles.

"I had a mighty odd experience on my last western trip," said a New Orleans drummer the other day. "It was at a little town not a great distance from New Orleans and not necessary to name, as far as this story is concerned. I had stopped over for the day and went to the principal hotel to get my dinner. While I was seated at the table a tall, solemn looking man came in and took a chair opposite. From his general appearance I judged him to be one of the heavy swells of the village, and, by the way, I afterward learned that such was the case. He wore a long tailed coat and a bright blue cravat, and had a very heavy, carefully groomed black mustache.

"As soon as he seated himself he felt in his vest pocket and drew out a singular apparatus consisting of a strip of gilt metal, about an inch broad and six inches long, slightly curved and furnished at each end with hooks, like a pair of spectacles. While I was wondering what the deuce the machine was, he deliberately brushed back his mustache and fastened the plate over his upper lip, putting the hooks around his ears. Then he began solemnly to eat his dinner. The effect of that extraordinary contrivance clamped around his countenance was so strange and startling that I couldn't take my eyes off him, but he paid no attention to my stare and finished his meal in dignified silence.

The apparatus was a mustache guard, but where he got it and whoever conceived such a weird idea are mysteries too deep for me. One thing was certain, however, and that was that its owner evidently believed it to be an implement in use in the best society."—New Orleans Times-Democrat.

PLATFORMS FOR SMOKERS.

The Citizens' company of Detroit is adopting a new style of car to accommodate the smokers who generally crowd the rear platform during the busy hours and block the entrance of egress of passengers. The new car, No. 368, was tried for the first time the other evening on the Woodward line. The rear platform has been extended about two or three feet, making a platform a little over six feet in length. This is divided with an iron rail, so that those who wish to smoke may do so outside of this rail, thus leaving the doorway clear. If this experiment is successful, the plan will be permanently adopted.—Detroit Tribune.

WARNING TO FRANCE.

If France would look at the wrecks outside of Santiago harbor it might suggest a different way to satisfy her honor than going to war with a naval power.—Chicago News.

BAHR-EL-GHAZAL.

ENGLAND AND FRANCE MAY FIGHT OVER IT.

It Is Triangular in Shape and Is Wonderfully Fertile. Being Traversed by Innumerable Streams—is Really a Part of Egypt.

Westward the scene of interest in Africa, like the course of empire, takes its way. Fashoda is to be abandoned. So much has been confidently expected from the beginning of the present complications, and seems now assured. Some say the Bahr-el-Ghazal will likewise be relinquished, or, more properly, all claims upon it will be relinquished, by the French. Of that we are by no means so sure. On the contrary, it appears far more likely that there will be some protracted and pretty vigorous diplomatic negotiations before the final ownership of that territory and the exact limits of it are determined to the satisfaction of all concerned.

The Bahr-el-Ghazal is both a country and a river. The river of that name is the chief tributary of the Nile from the west and south of the Bahr-el-Azrik, or Blue Nile. It is in itself a large stream, more than 500 miles long, and receives the waters of the Bahr-el-Arab, Bahr Dembo and other streams. The country of the same name is the region drained by that river and its tributaries. It lies in the heart of the continent, at the southern edge of the Sudan, west of the Nile and immediately north of the Kongo Free State. It is in form a triangle, with one side extending along the Nile from Mokren-el-Bohur to Lado, another from Mokren-el-Bohur along the Bahr-el-Ghazal and Bahr-el-Arab to the confines of the independent sultanate of Wadai, and the third from Wadai to Lado, along the watershed between the valleys of the Bahr-el-Ghazal and the Ubangi. Of these sides the first is about 300, the second 500 and the third nearly 800 miles long. This region is traversed by innumerable streams, is wonderfully fertile and productive and is densely populated. It was one of the most valued parts of the Egyptian empire in the days when Gordon was governor general of the Sudan, and the title of Egypt to it today seems indisputable. The gallant Major Marchand traversed it with his expedition on his way to Fashoda, and established posts at half a dozen places. But he was unable to leave at them effective garrisons, and did not, of course, take such actual possession of the country as would give France a title to it, even if it had been open to such acquisition by any power.

The dispute will be, then, over the boundaries of the province, and especially over the boundary between it and the French Congo. That boundary has never yet been delimited. It is true that in 1890, when the German colony of Kamerun was rudely regarded as extending up to the Egyptian borders, Great Britain, acting on behalf of Egypt, made a convention with Germany, by which the boundary between Kamerun and the Bahr-el-Ghazal was fixed at the watershed between the two great valleys, as already described. The validity of that settlement was recognized by Italy and the Congo State, though France has never accepted it, but has, on the contrary, denounced it. Moreover, and this is most to the point, France has since that time pushed the borders of her Congo State up the north shore of the Ubangi to Wadai, seizing a vast tract of what was informally supposed to be German territory, and making Kamerun a mere coast province, cut off at the back by French possessions. The line formerly traced between Egypt and Germany proves, therefore, to be between Egypt and France, and will have to be traced anew.

It is over that line that the controversy will be. That there will be a war over it is scarcely to be thought of. The matter is eminently one to be settled by diplomats and engineers. Not the least interesting factor in the problem is the formal statement made a few years ago by M. Hanotaux, then foreign minister of France, that all the territories formerly under the dominion of the sultan and the khedive must still be deemed Egyptian. If that principle be maintained, all the Bahr-el-Ghazal, to its widest limits, belongs to Egypt. And it is not easy to see how M. Hanotaux's successor can fail to maintain that principle.—New York Tribune.

GAEILIC LEAGUE OF AMERICA.

National Organization Formed For the Study of Art and Literature.

Delegates from the various Gaelic societies in the United States met at the rooms of the New York Gaelic Society the other night and formed a national organization to be hereafter known as the Gaelic League of America. The objects of the new organization are the cultivation of the language, literature, music and art of Ireland. Former Assistant Secretary of the Navy William McAdoo made the principal address, in which he set forth the objects of the league. Mr. McAdoo spoke in English. The other speeches and songs which followed the meeting were in Gaelic. A feature of the musical programme was the singing in Gaelic of "The Star Spangled Banner." The translation was made by the Rev. E. O'Gowen of

There is too little preaching of the gospel of health. It is the last thing that anyone thinks of teaching, either to a man-child or woman-child. It is one of the most important branches of an education.

Without health, a man will be a business, and a woman a social failure. When the body of either a man or a woman is properly nourished, the result is the enjoyment of good health. Almost all ill-health is due to improper or insufficient nourishment. If the stomach is right and the liver is right, the blood will receive its normal supply of the life-giving elements of the food and the body will be properly nourished. Dr. Pierce's Golden Medical Discovery acts directly upon the stomach and liver. It purifies and enriches the blood. It is the great blood-maker, flesh-builder, nerve tonic and restorative. It promotes the natural activity of the entire nutritive organism. It puts an end to the slow starvation that is at the base of many diseases. It does not make flabby fat like cod liver oil, but firm, muscular tissues. It does not make corpulent people more corpulent but builds up the system to the normal standard.

"I was run down with nervous prostration and female weakness and kidney trouble," writes Mrs. Mariana Ramsey of Smartt, Warren Co., Tenn. "My bowels were constipated. My whole system was wrecked. My friends thought I would die. I had read of Dr. Pierce's medicines, 'Favorable Prescription' and 'Pleasant Pellets.' In one week's time I began to sit up. In two weeks I could get up all day, after being so bad that I had to be helped in and out of bed. I have taken four bottles of 'Golden Medical Discovery' and two of 'Favorable Prescription' and am in better health than I have been for years."

Constipation is the father of all manner of maladies. If it did not exist, or was in all cases promptly relieved, the majority of medical books could be safely destroyed. It is the easiest sickness to neglect and the simplest to cure. Dr. Pierce's Pleasant Pellets cure constipation every time. They cure it promptly, completely and permanently. They never gripe. They don't get you out 'o nights. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists keep nothing else "just as good."

GREAT GRUMBLERS.

Grumbling Will Cease if East Liverpool People Follow This Citizen's Advice.

When the kidneys are sick they grumble. You hear them clear through the back.

They grumble when overtaxed. Know how the kidneys grumble? It's a simple thing; your back will tell you.

Blackache is the first grumbling warning.

The kidneys give it and if you heed it not,

Look out for trouble, it will surely come.

Kidney trouble, kidney trouble sad many miseries.

Doan's Kidney Pills are made for kidneys only.

They cure every form of kidney ill.

The experience of East Liverpool people proves this.

Here's a case in point:

Mrs. Wm. James, who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull, aching pain across my loins, up under my shoulder blades, and rheumatic pain in my right shoulder. I was very susceptible to changes in the weather, and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing frequent fluttering of the heart and a shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. Pharmacy, and obtained relief almost at once. The symptoms all left, and there was nothing wrong with my kidneys after the treatment. I feel much better and stronger generally."

Doan's Kidney Pills are for sale by all dealers. Prices 50 cents per box. By mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for United States. Remember the name, Doan's and take no other.

MADE ME A MAN

AJAX TABLETS POSITIVELY CURSE ALL Nervous Diseases—Failing Memory, Impotency, Sleeplessness, etc., caused by Abuse or other Diseases and Injuries. Prevents Loss of Vitality in old or young and fit a man for study, business or marriage.

WELLSVILLE.

GEISSE WAS RELEASED

Bradley Paid the Fine Mayor Dennis Imposed.

KOUNTZ WAS BOUND TO COURT

And the Story of the Horseless Carriage Came to an End—Entertainment at the High School—All the News of Wellsville.

The case of Morrow Bradley and Joseph Geisse was disposed of by Mayor Dennis yesterday afternoon. It was developed that Geisse had only accompanied Bradley in the "horseless carriage" at his invitation and had no idea of wrong doing. Geisse was therefore dismissed. John Kountz had informed Bradley that the rig was his and he could use it. Kountz was bound over to court on a charge of appropriating property to his own use, in the sum of \$50. Bradley paid his fine and was dismissed.

High School Entertainment.

The entertainment given by the sophomore class of the high school was thoroughly enjoyed by a large number of visitors.

The room was elaborately decorated in fall flowers and ferns, and the class colors, cream and green, were elaborately displayed.

Each member responded to roll call with a quotation, and introductory remarks were made by President H. Blackburn. The question of whether Arnold's or Burr's treason was the greater was ably discussed by George Lowry, Miss Eva Brenneman, Henry Goetz and Miss Kate Glenn. Attorney Ingram, Miss Danforth and Miss Imbrie were judges, and awarded the decision to the negative.

The high school quartette with Miss Rayl as accompanist provided excellent music. The remainder of the program was most entertaining, two productions of merit being "The Class Will," by Miss Bessie McLean, and "A Girl's View of Football," by Miss Helen Denhart.

A Pleasant Party.

The Peanut club, composed of Misses Gertrude Lyth, Lena Lowary, Helen Russell, Grace Russell, Bertha Brandon, Fannie Klasgrye, Beulah Wells, Dorothy Noragon, Lowie Hill, Beulah Williamson, Mary Aten and Katie Donaldson, were entertained at the home of Miss Mary Donaldson, Main street, last evening. A number of gentlemen were also invited guests. The entertainment consisted of games and music. Refreshments were served.

Church News.

Reverend McKee is recovering from his late illness. He was able for the first time to eat dinner with the family yesterday. Rev. J. B. Groff will occupy the pulpit of the Second Presbyterian church tomorrow.

"The triumphant glory of the church" will be the subject for the morning service at the Methodist Episcopal church. Evening subject "Following the Christ." Rev. Earl D. Holtz, pastor.

Methodist Protestant church, Rev. J. A. Thrapp, pastor—Morning subject "An Approved Workman;" evening, "Take Your Choice." Reverend Miller will preach in Congo at 5 p.m.

News of Wellsville.

The high school football team drove over to Lisbon this morning. They will play the Lisbon team this afternoon.

Miss Mary Monsey and Mrs. Wilson went out on the morning train to Hammondsburg where they will visit Melvin Wilson.

J. Goetz leaves tonight for New York, where he will attend the funeral of L. Jaroslawski, the grandfather of Henry and Albert Goetz, who died recently. The funeral takes place on Tuesday.

The Good Templars held a meeting last evening in their hall in Aten's block. Two candidates were initiated.

A party of young men from East Liverpool missed the last car last night, and were compelled to remain in town until this morning.

Work on the pottery goes on without interruption. The machinery will be ready when the buildings are completed.

They say that a resident of this place was in police court in Wheeling one day this week. He did not give his name, and said nothing of his home being in Wellsville.

THE BOSTON DEPARTMENT STORE.

Ladies' and Misses' Mackintoshes

A new line this week of these very useful garments. Misses' Single Texture Mackintoshes with double capes at \$2.50, double textures, plaid lined at \$3.50. KING OF ANTICOSTI.

Mr. Chamberlain Asks For Facts About Henri Menier and His Island.

Mr. Chamberlain has asked the governor general of Canada for the facts as to the ownership of Anticosti island by Mr. Menier. The governor general has forwarded the inquiry to Attorney General Archambault of Quebec. The Dominion parliament at its next session will be asked to pass an act establishing the title of the heirs of Francois Bissot to the island of Anticosti. It is pointed out that under a judgment of the imperial privy council the right of the heirs of Francois Bissot to a tract of land on the coast of Labrador, including Anticosti, was established. It is also alleged that the present owner of the island, Mr. Henri Menier, obtained his title to the land under right of purchase from a corporation which had usurped the title of the rightful owners.

The island was obtained by the Labrador company through the Bissot claim in 1889. This company came to grief.

and the island was sold at auction to an English company known as the Anticosti company, from which Mr. Menier bought it in 1895 for \$125,000. After the purchase, in order to make his title unassailable, Mr. Menier obtained from the government of the province of Quebec a document declaring that, under the judgment of the imperial privy council delivered three years before, the government had no title to the island.

One of Mr. Menier's first acts was to prohibit any one from landing on the island without permission or to fish within three miles of the shore. The fishermen of Newfoundland at once complained, and Mr. Menier was informed that he must not attempt to assume or exercise jurisdiction over the territorial waters of Anticosti. Mr. Menier at once retired from his position, but he put in force regulations which brought him into conflict with the fishermen not living on the island. He also drew up rules for the 250 fishermen living on the island. Some of these rules gave offense and were the real cause of his trouble with the fishermen of Fox bay, which has assumed serious proportions.—New York Sun.

The Usual Thing.

"Susie Smithers has eloped with Charlie Briggs."

"What are her folks doing about it?"

"Oh, they've started the story that she has disappeared and have coaxed the police to drag the lake for her." —Cleveland Plain Dealer.

UNION PAPERS.
All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

THE anti-annexationists who delight in the use of that word "imperialism" can read the election returns and then think to themselves that for once a catchy expression has ceased to catch.

If Spain really counted on Democratic help had the war-is-a-failure party won she is entitled to consideration. What hope could she have without sufficient energy or money to raise a big campaign fund?

SPIRITS distilled from corn enter largely into the manufacture of smokeless powder. Now the conscientious farmer can grow his crop without a twinge, for while it may still be used to kill men it will not be through the agency of whisky.

ONE result of the war can be seen in the number of young men who as soon as they are released from their obligations as volunteers enroll themselves as soldiers in the regular army. It is a good thing for the country since it provides a class of intelligent, well drilled soldiers about whom can be gathered the less desirable recruits when the army is reorganized and the force largely increased.

THE CAROLINA OUTBREAK.

It is a sad commentary upon the civilization of this country that, after taking up the cause of humanity and by force of arms driving the flag of barbarity from western waters, it cannot restrain its own people from murdering and depriving of their rights others of its people who have the same protection under the Stars and Stripes. Evidently we need a little stirring up at home. There may be local causes and great aggravation to excuse the outbreaks against negroes in the Carolinas, but there is a law higher than the willful acts of excited men who burn and kill when they are so inflamed by passion as to see nothing but one side.

REDEEMING THE WEST.

When the silver men glance over corrected returns from the west their hearts will turn cold within them and they will certainly think that silver is dead and some other issue must be brought out if they are to have any prominent place in politics. With the Dakotas, California, Nebraska, Wyoming and Nevada declaring at the polls for Republican principles they cannot hope much longer to maintain their position.

Clearly can it be seen how much the cause of silver has lost. The people who looked upon the crocodile tears of Teller as the genuine article and cheered Bryan as a standard bearer who was not smirched with politics, are awakening to the fact that their future lies in the enforcement of Republican principles. In the tariff and a safe money system they see what they hoped they would find in free silver. But the latter has not borne careful investigation. It has proved a pill too bitter to be taken without serious consideration.

SATCHEL FLOATED AWAY

Bearing a Thousand Dollars In Negotiable Paper.

SEARCH FAILED TO FIND IT

The Owner Was Being Driven Across Yellow Creek In a Buggy When the Horses Stepped In a Deep Hole--It Was Seen at Irondale.

T. Johnson, a collector for an agricultural implement manufacturing concern, suffered the loss near Irondale yesterday of a valise containing \$1,000 in negotiable paper.

Johnson was being driven from the town in a buggy, and when near Salisbury it was found necessary to ford Yellow Creek. The stream was high, being swollen by the rains of last week, and the horses slipped into a deep hole. The buggy followed, and the bed was in a moment filled with water.

The valise containing notes and other valuables floated out of the vehicle, and being caught in the current was quickly carried down the stream. The loss was discovered, but not in time to catch the valise. Irondale was notified at once, and a search instituted, but the valise was not found. A man who lives below the town said he had seen a valise pass down not far from Hammondsburg, but not knowing its value allowed it to go by.

The banks of the stream were searched, but the valise could not be found. It is believed the valuables floated out into the river, and will never be seen again.

CUMMINS WON.

The Greenwood Passed In an Exciting Race.

The steamers Will J. Cummins and the Greenwood had a very exciting race Thursday night while going to Pittsburgh. The Cummins overtook the Greenwood near this city, and passed her before she got to Rochester and maintained the lead to Pittsburgh. The boats had a very spirited race last week. The Greenwood is the new Kanawha river packet and the Cummins runs to Cincinnati.

PRESENTED WITH A COLLAR.

Mrs. William Chisholm Surprised by Her Friends.

Mrs. William Chisholm was surprised at her home in Lincoln avenue last night when 50 Rebekahs entered, and proceeded to spend a pleasant evening. The lady was presented with a past grand's collar.

Mrs. Chisholm and her family will next week leave for Allegheny where they will in future reside.

No More Freight.

Freight Agent T. J. Thomas this morning received a notice from the Cleveland office to the effect that the Lake Superior Transportation company will sail their last vessel next Saturday. Shipments to points on that line from Liverpool closed today. The Soo line and the Northern Steamship company will stop navigation on the 20th.

MUCH MONEY NEEDED

To Put the Chelsea In Operation Again.

NEGOTIATIONS NOW IN PROGRESS

Thirty-five Thousand Dollars Will Be Required, and Parties Are Now Raising the Amount—if Successful It Will Be In Operation Jan. 1.

Many stories have recently been circulated regarding the movement in connection with the Chelsea pottery at Cumberland. Of the matter the Independent says:

"There is still no definite news about the Chelsea starting. There are all kinds of rumors in the air, but the only authentic news seems to be that certain parties are talking of putting \$35,000 in the plant. If the negotiations are successful the plant will be started the first of January."

The Liverpool men who are credited with being connected with the scheme have nothing to say. It is believed here that little Liverpool money will go into the pottery, the principal part of the amount being advanced by Pittsburg and Cumberland men.

SMILE TEMPTERS.

His Earthly Effects.

"Well, Uncle Jim," said the lawyer, "the doctor says there's no hope for you."

"Yes, suh, dey tells me I gwine ter cross over."

"Have you made your will?"

"Yes, suh, I done will ter go."

"I mean," said the lawyer in an explanatory way, "have you anything to leave?"

"Oh, yes, suh!" explained the old man joyfully. "A wife and de rheumatism!"—Atlanta Constitution.

Yale Man's Little Joke.

Professor Tracy Peck used to tell a story of how a Yale man saved his life. He was about to be hung in Texas for horse stealing and said:

"Hold on, gentlemen! Do you know who you are hanging? I am a graduate of Yale college, and here is my diploma."

It being printed on vellum in Latin, no one could read it, and, thinking he must be an important personage, they let him go free.—Green Bag.

Ain't yo' ear sight good fo' nuttin?

ONLY FOUR WERE THERE

Council and Sewer Commission
Did Not Meet

TO TALK ABOUT NEW DISTRICT

Plan as It Has Been Prepared and Would
Have Been Presented--Had a Sufficient
Number of Councilmen Been Present
Rinehart Would Have Been Paid \$1,000.

The members of the sewer commission met at city hall last evening for the purpose of meeting with council, but as only four members of council were present the meeting was deferred until next Monday night at 7:30 o'clock.

The proposition which will be made to council by the commission is in substance as follows: That council appropriate a certain sum of money which is to be placed at the disposal of the city engineer, who will upon the receipt of the action advertise for bids for sewer pipe to be placed in sewer district No. 2.

The members of council who were present last night seemed favorable to the request, and that the money will be appropriated there is no doubt.

Had there been a quorum it was the intention to pay Contractor Rinehart \$1,000 on his claim for work.

ADJOURNED.

**The Assignment In Court For the Week
is Finished.**

LISBON, Nov. 12.—[Special]—Court adjourned yesterday afternoon to meet next Monday.

Charles Spedel has been appointed guardian of Hannah Heston, bond \$4,000.

A marriage license was issued to C. W. Stackhouse and Jessie Van Pelt.

M. H. Younger has sold to Etta Lahm land in Salem, \$1,500.

Richard Gardner obtained judgment in Justice King's court in Salem against Henry Bergman for \$39, and Bergman has appealed.

J. H. Streeter, receiver of the Quaker Valley Mining company, of Rogers, has been ordered to advertise and sell all of the company's real and personal property. The motion by M. McNabb, of Youngstown, asking for an order to have the sheriff levy on the property in the receiver's hand, was overruled, and McNabb is granted leave to file a supplemental intervening cross petition, making the receiver and Sheriff Gill defendants.

Edward Lawson, of Hanover, was granted a divorce from his wife, Alice Lawson, on grounds of gross neglect. The plaintiff is ordered to pay the costs.

Annie Cornish was divorced from Samuel W. Cornish and restored to her maiden name, Annie McPherson. Extreme cruelty was the cause assigned.

Commissioner French will soon move his family to Lisbon.

Sheriff Gill will have three sales of real estate at the courthouse next Monday.

NEXT WEEK

**Will Bids Be Taken For Stonework on
Salem's Pottery.**

The Salem Herald of yesterday says: "Cornelius Cronin, a member of the pottery company, came to the city today bringing with him the plans and specifications for the pottery building foundation which are open to the inspection of all persons desiring to bid on the stonework."

"Mr. Cronin took Mr. French with him to the pottery site today to stake out the ground. H. J. Smith, of the Pottery company, expects to be here Monday or Tuesday and will bring the plans for the balance of the building and at that time will be ready to receive bids for the stonework."

NO MEETING.

The Library Directors Could Not Get Together.

The library directors failed to meet last evening owing to the fact that a quorum was not present.

It was decided to hold a special meeting next week. The members present discussed plans for the future, and a number of new books will be added to the library the first of the year.

Attended a Conference.

Rev. C. F. Swift, of this place, spent last evening in New Cumberland attending a congregational meeting of the Methodist Protestant church of that place.

Boys knee pants suits, 9 to 16 years, \$1.98, \$2.48, \$3.48, \$3.98, \$4.50. See Joseph Bros., fall and winter line.

See the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

Royal makes the food pure,
wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

PERSONAL MENTION.

—Mrs. W. H. Griggs is ill at her home in Seventh street.

—Adolph Fritz, of Fourth street, was a Pittsburg visitor today.

—Maud Butler, of New Kensington, spent yesterday in the city visiting friends.

—Mrs. J. C. Thompson and children, of Thompson Place, were Allegheny visitors today.

—Mr. and Mrs. Jason H. Brookes and children were in Pittsburg and Allegheny this afternoon visiting friends.

NEXT MONDAY

Captain Palmer Will Arrive in the City.

The following telegram was received this afternoon in answer to an inquiry. It explains itself:

CHICAGO, Nov. 12, 1898.

NEWS REVIEW, East Liverpool, O.:

We will reach New Brighton Sunday, and be in East Liverpool Monday. Am well and hearty. McKinley is my man, and this is the best government on earth. Incompetent subordinates will be taught a lesson by the head of the government. I am ready to carry Old Glory against any foe in time of battle. I am a Republican from center to circumference.

COLORBEARER HARRY PALMER.

Changing His Name.

Frank Patsch Kowski, of this city, wants his name changed and has applied to Judge Boone that the same be done. The name he prefers is Martin and when he is known by that name it is said the remainder of the Kowski family will come to court for a change of cognomen.

Switz Conde underwear, \$1.50 quality, this special make known by al dealers. Special leader Saturday 98c at JOSEPH BROS.'

Nearing Completion.

The new residence of Robert Hall in Fifth street is rapidly nearing completion and will be ready for occupancy in a few days.

The residences of A. G. Mason and J. W. Boch in Seventh street are also near completion.

Will Go to Wellsville.

Anthony Monahan, who has been employed at the Goodwin pottery since January as a kilnhand, has given up his place. He will take a similar position at the Pioneer pottery in Wellsville next week.

NOTICE TO TAXPAYERS.

Charles E. Smith, treasurer, will be at the office of George H. Owen & Co., on the 23rd and 24th for the purpose of receiving taxes.

Building a Kiln.

The work of erecting the new biscuit kiln at the McNicol pottery is progressing rapidly. It is probable the kiln will be fired for the first time week after next.

Winding Up the Campaign.

The Republican central committee will meet next week to wind up the affairs of the campaign. A number of matters need attention.

Having a suit made to measure, the essential part is a perfect fit. Joseph Bros., suits must come that way or money is refunded.

To Build a House.

Jackson Robinson will next week commence the erection of a five-room house in California hollow.

Services Ended.

The special services that have been in progress at the First Presbyterian church ended last night.

TOO MUCH BAD WHISKY

Caused the Arrest of Harry Martigo.

HE PAID THE AMOUNT ASKED

For the Authorities Had Taken Over \$220 From Him When He Was Gathered In--No Arrests For the Market Street Robbery--Later Developments.

Harry Martigo, who was arrested yesterday afternoon by Officer Grim and taken to jail in the patrol, where a charge of being drunk and disorderly was placed against him, was given a hearing before Mayor Bough, last evening. He said that he came from his home in Georgetown early in the day and had got just a little too much bad liquor in him. He was fined \$10 and costs, which amounted to \$14.60. The amount was deducted from the \$220.02 which was found on his person when he was searched, and the balance was given him and he started home.

Although the police have been investigating the Market street robbery, which occurred late Thursday night, they have seen no clue as yet. The robbery was more extensive than was first thought, and women's clothing to the amount of \$50 has been discovered as being taken. This fact has been reported to the authorities, but it is probable that no arrests will be made in the case for several days.

The case of the Reymann Brewing company is yet unsettled. Mayor Bough will not talk of the case with the exception that when the matter is settled the fact will be made known.

No arrests were made last night or this morning, and the jail is now without an occupant.

A World's Fair in 1903.

The committee of prominent citizens appointed some time ago to discuss the subject and determine in what manner the centennial of the purchase of the territory of Louisiana by the United States can best be celebrated, have decided that the holding of a world's fair in 1903 will be the better way to honor the event and state their conviction that such a fair can be successfully held in St. Louis.—New York Times.

Dummy Deer For Newcomers.

Near a hotel at South Molunkus, Me., the resort of many sportsmen at present, a young taxidermist has placed a stuffed deer. The animal is within sight of the house, and all the newcoming sportsmen have had a shot at the mounted deer, with the result that cigars are in great demand there.—Boston Globe.

Will Finish Next Week.

The water works department will next week finish the work of putting in the sprinkler system at the Dresden pottery.

Seeing the Game.

A number of local enthusiasts are seeing the Greensburg-Duquesne foot ball game in Pittsburgh this afternoon.

The Drummer Boy will be produced even better this year than last.

Bismarck's Memoirs.

Up to a very recent date the notion

that Prince Bismarck had left any au-

thentic memoirs aside from fragmen-

tary and was only half believed. In

spite of his death, of certain marvelous re-

velations in manuscript, there were but

few in the real secret. As the fact is

now authoritatively announced, the

memoirs covering his career up to 1893,

with reflections and memorabilia, set

up in corrected proof, have been in the

possession of the great Cotta Publishing

House of Stuttgart for more than three

years. The intimations of Herr Busch,

Bismarck's obsequious and idolizing

Boswell, then, that the world would

have nothing more to look for to an in-

side view of the great man's life beyond

his own exposition, were either a decep-

tion or a blunder. Yet from such clews

as have been given, with the consent of the

Cotta firm, of the quality of the

MULFORD AND MERCER

The Famous Sporting Writer
Compliments

EAST LIVERPOOL'S GOOD PITCHER

In Making Up an Ideal Team He Is Placed
In the Box—Indians Won Easily at Foot
Ball—Rovers Playing In Homestead To-
day.

Ren Mulford, one of the best known sporting writers of the country, in making up the heaviest batting team from a list of the averages places Mercer in the box. He is also found in the list of ideal base runners with 14 to his credit and would occupy the box for the best club of sacrifice hitters as he leads the pitchers of the league in this respect with nine to his credit.

In commenting on the teams the Sporting Life says: "Win Mercer is the only player in the above 'ideal' who ranks at the top on all counts, but when it comes to pitching records he is distanced by all the leading pitchers of the successful teams in the race of 1898."

The football game yesterday afternoon between the high school eleven and the Diamond Indians resulted in a victory for the Indians by a score of 10 to 0. The game was very hotly contested and the victors made a touchdown in each half, being much too heavy for their opponents who played a very plucky game.

The football game to have been played between the Entre Nous club and high school eleven has been declared off. The Entre Nous team will endeavor to book a game with the Wellsville high school.

The Rovers left on the noon train for Homestead where they will play their second game in the league championship race.

RIVER ROSE RAPIDLY.

There Will Be Twenty Feet of Water This Evening.

There will be 20 feet of water in the Ohio river this evening. This will let out every pound of coal ready for shipment. It will also permit some of the largest towboats to get away for a long cruise in southern waters. The Joseph B. William, the biggest in the business, passed this afternoon, taking 25 pieces to Louisville where it will gather up some more for convoy to New Orleans.

Between 500,000 and 800,000 bushels of coal should get away on the present freshet.

The Greenwood left for Charleston yesterday, and the Lorena will leave for the Muskingum river this evening. The Virginia will get away for Cincinnati about the same time, the Will G. Cummins leaving yesterday.

All night the rivermen about this place were working like beavers keeping their craft secure. The river came up suddenly and some of the owners of shantyboats were caught with leaking boats. This morning much debris was seen floating down the stream and numerous skiffs with young boys in them were seen attempting to catch anything that was valuable.

The Sunday boats, Keystone State, Ben Hur and Kanawha, will be up tomorrow as usual.

A RECEPTION

Will Be Tendered Captain Palmer by the Grand Army.

At the meeting of General Lyon post last night it was decided to greet Captain Palmer in a fitting manner when he returns home.

A committee will meet him at the train on his arrival, and he will be taken to his home in a carriage. Later a reception will be held at Grand Army hall, arrangements for which have not been completed. The date has not yet been decided on.

At the Grand.

"McDoodle's Flats" which will be seen at the Grand next Monday night is without question among the funniest pieces on the road. The specialties are of the highest order, and have won for Rice & Barton the splendid reputation they now have.

Irene Myers and her company presented "Kidnapped" to a large audience last night. Tonight the company will by request repeat the "Burglar."

We can cure that uncomfortable chilly feeling you have if you will come here and take advantage of the offer we are making in underwear, Saturday's special sale.

JOSEPH BROS'.

Company E will assist in the production of the Drummer Boy of Shiloh, Nov. 24, 25 and 26.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Nov. 13.
Comment by Rev. S. H. Doyle.

Topic—"Christian recreation."—Isa. xxxv, 1-10.

Recreation is becoming more and more a necessity as the world advances. We live faster, we do more in a shorter space of time than our forefathers ever did, and in so living and doing we wear heavily on our mental and physical systems. This constant wear and tear demands times of resting for recuperation. God realized that man would need rest amid the laborious duties of life. He gave us night in which the mind and body may receive new strength and vigor. He gave us one day in seven as a rest day and for a day of worship. In these days it is being almost universally conceded that more time even than this should be used for rest and recreation. Holidays and half holidays are used for this purpose, and wherever possible, special seasons of the year are used for vacations. All are necessary. The constant nervous strain to which the average man today is subjected is very wearing. It makes the hands weak and they need to be strengthened; it makes the knees feeble and they need to be confirmed. One of the best ways to do this is to rest and recreate. The Christian must realize this and act accordingly.

The result of this rest and recreation will be increased ability to labor. Thus we shall gather increased strength to open the eyes of the blind, to unstop the ears of the deaf, to make the lame man leap as the hart and the tongue of the dumb to sing. It's a false economy that provides no place for recreation. All work and no play not only makes Jack a dull boy, but weakens and shortens the life work of many a man and woman.

In Christian recreation there should be nothing un-Christian. Recreation times are times of temptation. Relieved from active work, we may feel sometimes relieved of moral obligation. But this is certainly not the case. We should never do at a time of recreation what we could not do in the moments of the most laborious work for Christ. Nor should opportunities to do good be neglected at such times. Christ, resting on the well curb in Samaria, did not lose the opportunity to speak to a sinful woman about the water of eternal life. Rest times often bring to us splendid opportunities to speak a word for Christ. Let us do it as He did it.

Bible Readings.—Ex. xxxi, 17; xxxii, 14; II Sam. xvi, 11-14; Ps. lv, 6; lxxxiv, 1-10; Isa. xl, 28-31; lv, 1-3; Jer. vi, 16; Job. xi, 18, 19; Math. xi, 28, 29; John iv, 1-10; II Tim. i, 16-18.

Christian Endeavor Societies.

There are now within the borders of the United States 41,222 societies. These figures do not include the junior, intermediate and other societies. The total enrollment of worldwide Christian Endeavor is 54,191 societies, with an individual membership of more than 3,250,000. South Africa is entitled to the banner for the greatest proportionate increase in the number of societies. The junior societies continue to increase rapidly. There are now nearly 14,000 societies in the world. One thousand of these are to be found in foreign lands.

Russia is the only country in the world without a Christian Endeavor society.

There are 77 mothers' societies, 45 senior or graduate societies, 17 societies in the United States army and in volunteers' camps, 119 societies in the United States navy and on board merchant ships. During the last year 27,686 juniors have become members of the church. From the intermediate societies 1,518 have joined their home churches and 196,550 from the young people's societies, making a total re-enforcement of church membership during the year amounting to 225,754.—Secretary Baer.

At the Present Line.

At this time of public excitement and upheaving, when all are thinking and talking almost constantly of the war and its results, we must not forget that there is a God upon the throne, whose right and province it is to direct and determine the destiny of nations as well as of individuals. He rules in the armies of heaven, and among the inhabitants of the earth, using this and that nationality for the accomplishment of His purposes. All events somehow further the establishment and extension of His kingdom. He has permitted the present crisis for some wise end and Christians ought to beseech Him to bring out of it such results as will be most for His glory and for the good of humanity.—Presbyterian.

Is Reverence Declining?

Is reverence declining? Yes, reverence for stocks and stones and senseless things. Let us rejoice, not lament, in consequence. Let us exult that we are advancing sufficiently to distinguish between reverence and superstition. The full fruitage will fall to a later age, but it cannot be long delayed.—Jewish Messenger.

How completely a deep social shadow will eclipse and even paralyze genius is perceived in the cases of Theodore Tilton and Oscar Wilde. Both these men were endowed with most brilliant literary gifts. And now they survive only as if they had never existed. Some associations nothing can ever live down

—Phoebe Palmer.

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

GAME PLAQUES

exact reproductions of the \$10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant,
English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH

has been the standard for 25 years.

TWENTY-TWO MILLION
packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER
to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

COLLEGE LOSES A BEQUEST.

Game of Football Causes Miss Sackett to Change Her Will.

Carroll college in Waukesha, Wis., is just \$5,000 poorer through a game of football. Miss Anna M. Sackett, who died recently and who had lived here many years, had watched the work of Carroll college, and decided to assist that work to the best of her ability. She made her will, giving a legacy of \$5,000 to the trustees of Carroll college for the benefit of that institution.

During last summer she heard and read so much about football in the school that she decided to see a game for herself and ascertain what it was like. She drove out one day to see a contest between the college and a visiting eleven. She was horrified at what she saw. The rough contest between the long haired kickers and punters seemed to her merely an arrangement for maiming and killing those who engaged in it.

She had no sympathy at all for the authorities who encouraged what she thought was brutality under the name of sport. She went home and sent for her lawyer. Under her direction he drew up another will, which contained no legacy for the college, and she signed it, the former will being destroyed.

Russia is the only country in the world without a Christian Endeavor society.

There are 77 mothers' societies, 45 senior or graduate societies, 17 societies in the United States army and in volunteers' camps, 119 societies in the United States navy and on board merchant ships. During the last year 27,686 juniors have become members of the church. From the intermediate societies 1,518 have joined their home churches and 196,550 from the young people's societies, making a total re-enforcement of church membership during the year amounting to 225,754.—Secretary Baer.

Chicago Times-Herald.

EACH NATION'S STRENGTH.

Great Britain's and Russia's War Power Contrasted.

The following is the war strength of Russia and of Great Britain:

Great Britain's navy: Battleships, 61; other ships of the line, 27; cruisers, 154; coast defense, 60; torpedo craft, 313.

Great Britain's army: Officers, active, 4,918; noncommissioned officers and men, active, 215,281; officers and men, reserve, 417,604. Total, 673,803.

Russia's navy: Battleships, 20; other ships of the line, 18; cruisers, 29; coast defense, 27; torpedo craft, 188.

Russia's army: Officers, active, 28,700; noncommissioned officers and men, active, 1,116,824; officers and men, reserve, 3,892,760. Total, 5,008,284.—Philadelphia Press

—Just as Now.

This is the beginning of all gospels—that the kingdom of heaven is just where we are. It is just as near us as our work is, for the gate of heaven for each soul lies in the endeavor to do that work perfectly.—Churchman.

Watch.

Watch, ye saints, with eyelids winking! Lo, the powers of heaven are shaking! Keep your lamps all trimmed and burning. Ready for your Lord's returning.

Kingdoms at their base are crumbling. Hark! His chariot wheels are rumbling! Tell, oh, tell, of grace abounding! While the seventh trump is sounding!

Nations wane, though proud and stately; Christ his kingdom hasteneth greatly; Earth her latest pangs is summing. Shout, ye saints; your Lord is coming!

Lamb of God, Thou meek and lowly; Judah's lion, high and holy!

Lo, thy bride comes forth to meet thee,

All in blood washed robes to greet thee!

—Phoebe Palmer.

"Gittin Ready."

We're sorter gittin ready for Thanksgiving. To thank the Lord above us that we're livin'.

To know that every night is a-promisin' the light—

That's why we're gittin ready for Thanksgiving!

—F. L. Stanton in Atlanta Constitution.

UNION LABELS.

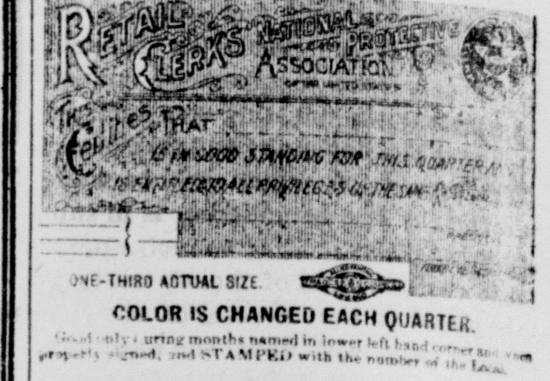

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE.

COLOR IS CHANGED EACH QUARTER.

Good only during months named in lower left hand corner and properly signed, and STAMPED with the number of the Local.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the soles of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeyman Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him. His labels may be counterfeit, and his hats may be the products of scab or non-union labor.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this label. The co's are as follows: The Union shield is in red,

THE GOVERNOR OF OHIO

May Pass This Place Next
Tuesday at Noon

ON BOARD THE QUEEN CITY

In Company With President Vance of the
River Improvement Association He Is
Making a Trip—May Be Entertained In
Pittsburg.

Gov. Asa S. Bushnell, of Ohio; Col. John L. Vance, president of the Ohio Valley Improvement association, and a number of congressmen from Ohio probably will pass Liverpool next Tuesday on the steamer Queen City. According to the arrangements, the party will leave Columbus in a special train and will go to Gallipolis, at which place the party will board the steamer.

The object of the trip is to boom further permanent improvements of the Ohio river and especially the building of a dam at Wheeling and one at Cincinnati. The chamber of commerce of the latter city has held several special meetings in reference to the matter lately, and the Pittsburg rivermen will lend whatever assistance they can to further both projects. Capt. James H. Henderson is looking after the arrangements for the welfare of the party on the Queen City. If the party concludes to go as far as Pittsburg, it is likely some action will be taken for their entertainment while there.

A BIG MONTH.

October Was a Surprise to New York Dealers.

In touching on the condition of the crockery trade in New York, the Journal says:

"Further returns from the October business show that the month was a big one. Firms that were complaining that sales were small found that they footed up far ahead of their anticipations. This was not with one or two houses only, but was largely the case everywhere. Holiday goods are in active request just now, and the demand is for a good class of wares. As the people begin to be prosperous they are wanting better table furnishings, as well as ornamental pieces. There is no better evidence that business is improving through the country than this; and while the crockery men have waited long and with what patience they could, trade is slowly but surely coming their way."

TWO MEN ADDED.

Soldiers Went to Wooster This Morning.

Corporal Kerr, of Company E, who was unable to go to Wooster with the company Thursday morning, left for that place this morning.

Private Lucas, who was also compelled to delay the trip on account of illness, left for Wooster on the same train.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O.
Sold by druggists, 75c.

Excursion Rates For Thanksgiving.

For the accommodation of persons who wish to make Thanksgiving day trips, non-transferable excursion tickets will be sold Thursday, November 24, from ticket stations on the Pennsylvania Lines West of Pittsburgh to any station on those lines within 150 miles of the selling point. Tickets for adults will not be sold for less than 25 cents, nor for children for less than 15 cents. Excursion tickets will be good returning up to and including Friday, November 25. For details apply to nearest Pennsylvania line ticket agent.

DECEMBER TAXES

May be paid at the office of the Potters' Building and Savings company as usual between DEC 1 AND 20.

J. J. PURINTON.

All the news in the News Review.

PLAN TO TRAIN SAILORS.

Captain Joshua Slocum Has a Novel Scheme of Teaching Navigation.

Captain Joshua Slocum, who made an eventful voyage around the world alone in a small sloop, the Spray, which he built himself, outlined before a few friends in the parlors of Mme. Pote in Carnegie hall in New York the other evening a project which he hopes to carry out for the training of young men in the science of navigation. His idea is a college ship. He proposes the construction of a vessel after the pattern of the best American clipper ships, with some improvements, arranged for the accommodation of 300 student passengers for a trip of two years around the world, the time to be spent in steady, practical work and the desirable recreation that visits to Oceanica and the orient would supply. His intention is not to take apprentice boys, but young men who have already had the advantages of school and college, and to equip them as navigators, capable of handling and directing sailing and steam ships, including men-of-war.

He purposed hiring the necessary seamen for the working of the ship on its cruise and the employment of instructors in the various branches of seamanship and navigation and the management of the complicated mechanism of the modern steamship. His idea comprehends the equipment of the college ship in such a manner that the novelty and

advantages of it will induce people not primarily out for instruction in navigation to go on its cruises and enjoy the benefits of such educational voyages as these will be. To enlarge the sphere of the ship's usefulness he contemplates the installment of courses in astronomy, perhaps literature, and other of the higher branches, some of which would appeal and be of service to the class of patrons whose object in taking the cruise was other than to turn its primary facilities to mercantile account.

Women in Great Britain and in America have taken up yachting on their own account, and Captain Slocum believes women would enjoy the opportunity to equip themselves as yacht masters in this way. In fact, just as once on his voyage in the Spray he refused to stop at an island he might have made, although then 43 days out, because they wouldn't have women there, so, he says, he wouldn't have anything to do with the scheme he has originated if women could not be included in its benefits.—New York Sun.

TRAVELING POSTOFFICE.

Mail Wagon to Collect and Deliver Letters on a Thirty Mile Route.

The postoffice department decided the other day to make a new experiment in the rural free delivery system, which is in effect the establishment of a traveling postoffice. Some time ago a resident of Westminster, Md., wrote to the department offering to build such a postoffice, to be drawn by two horses and to establish a system between Westminster and the surrounding villages, covering a distance of 30 miles, for \$1,375 a year. The plan was accepted recently.

The wagon will be similar to the postoffice wagons in use in the cities. The postman will start from Westminster in the morning and visit a number of small towns in the vicinity, collecting and delivering mail en route. Any farmer living within two miles of the road along which the wagon passes will be allowed to place a letter box at the roadside, in which his mail can be deposited by the carrier, and from which the carrier will take the outgoing mail. At several small places where there is no postoffice a number of boxes will be put up which will practically form an automatic postoffice.

The inventor of the scheme will act as postmaster and will sell stamps, money orders, etc., stamp letters and assort them for the mails. While driving out in the morning he will assort the mail for delivery, and when returning he will prepare it to be placed on the train. He expects to barely make expenses, but the government will pay him a royalty on all similar wagons should the scheme be put in general operation. It is believed that by this method much more work can be done than by a single carrier.—New York Sun.

The Student Movement.

At the beginning of the century the colleges of the land were schools of infidelity in great measure. Now a great change has come over them. A great body of the most scholarly have offered for the foreign missionary work. Multitudes are earnest Christians in the home field, and the influence of the universities in the main is on the side of vital godliness. Not a few of those who have taken high honors in scholarship and in athletics have also entered most heartily into the leadership of the Christian forces. Learning and piety are well united.

Fortune, like wine, does not change men, it only takes off the mask.

The Peace Commission.

In considering terms of Peace, it is of vital importance to remember that the largest piece and the best piece—of really good chewing tobacco in the world is the 10-cent piece of

BattleAx
PLUG

Any discussion of pieces or comparison of brands can only result in the award of every claim to America—and to Battle Ax. Try it to-day.

**Remember the name
when you buy again.**

EPWORTH LEAGUE.

Lesson For the Week Beginning Nov. 13.

Comment by Rev. W. J. Yates, A. M.

Topic, Waiting Harvests.

SCRIPTURE READING.—Math. ix, 38-39.—"The harvest truly is plenteous, but the laborers are few."

The great incentive to work for others is not because they appreciate the help given or greatly desire it, but because they need it, and we are able to give it. Few sick people relish the medicine given or appreciate the surgeon's skill and nurse's care, but they need them all the more because they are in no condition to appreciate the attention given them. The wounded soldier on the field of battle appeals to our helpfulness by his very helplessness. The sicker the child the more carefully we watch and tend. So in all spiritual concerns. It is not the whole but the sick who need the physician.

Christ came not to call the righteous but sinners to repentance. The heathen world calls us today most loudly by its necessities and appalling degradation. It would be false to figure the nations of heathenism as eager and hungry for the gospel. Rather they are antagonistic to it and prefer their old forms of error and debasement. But the greater their indifference and opposition the greater need that we call them to repentance and faith. They faint because of wickedness, and our hearts should feel compassion and our hands feed them.

All lands are opening to the Christian religion as never before. This century above all other centuries has seen the spread of the gospel. There have been other ages when missionaries performed great deeds.

It was notable when the northern nations of Europe were evangelized. The story of Patrick and Bridget of Ireland reads like romance, but the thrilling tale of the conversion of Tonga and Fiji and Hawaii, of the missions of China, India, Japan and Africa is most fascinating also and is yet in the writing. We have the privilege of adding a chapter or paragraph. This movement of our own land and age and church should have our careful thought and most prayerful help.

Wider Horizons.

A few short months have vastly changed the ideas and ideals of the greater part of the American people. To preserve this continent from the interference and complications with European nations was the extreme limit of the foreign policy of our nation. The Cuban question had long clamored for solution, and conviction was growing that some change for the better must soon come.

Peaceful means seemed likely to effect all that was desirable till the unfortunate destruction of the Maine forced the issue, and in a few days the traditional policy of the nation vanished before the rapid march of events. The necessities of defense of our Pacific coast sends Dewey to Manila.

and the destruction of the Spanish fleet lays the Philippines open to our arms and forces responsibility upon us never before assumed. Long time have we hesitated to acquire even a coaling station in the West Indies. Now we possess ourselves of Hawaii in the Pacific and Porto Rico in the Caribbean and assume governmental powers in Cuba and say that Spain must vacate the western hemisphere. All this means more than the gratification of a lust for conquest. It is not even done at the dictation of politicians and a dominant plutocracy. Under all is the hand of Divine Providence, shaping destiny, opening and shutting doors, setting up judges and putting down princes, and through all broadening the horizons of human vision.

The church must see her opportunity in all this. These lands need a pure gospel and Christian enlightenment. Never was the teaching of God more manifest in the movements of the nations than in these recent developments.

Learn to Walk.

It is a great day when baby takes the first step alone. It is more important than when the first tooth comes or the first word is spoken. Learning to walk is both a science and an art. Knowledge of what to do and how to do it must be mastered, and then skill must be acquired to make muscles, sinews and bones obey the will and move according to plan. How great a feat it is to walk few grown people realize until a time of sickness obliges them to begin it all over and learn in adult years what they once learned in babyhood.

It is no less a feat to learn to walk upright in the moral and religious life. What is the right way must be first found, and then by repeated efforts the affections, desires, will and all bodily powers must be made to go in the right direction. It needs patience. Many stumble and fall, but if they give it up all the rest of life is one long crawling in the dust. There is much need to strengthen the weak knees and to seek the straight paths and to gather all stones of stumbling out of the way.

Every evil passion indulged, every bad appetite and unholly desire gratified weakens the spiritual force and brings danger. Many a young man has stumbled over a cigarette and glass of wine into a pit from which he could not rise. Many young ladies find that after they have learned to dance they have lost the habit of walking safely and uprightly. By all means learn how to walk.

Hobson's Choice.

After meeting many people at the League Colonel McMichael suggested that Lieutenant Hobson should have a drink, to which the hero responded that he never drank anything. When asked to have a cigar, he also replied that he never smoked. However, he suggested to Colonel McMichael that he would like to have a shave.—Philadelphia Times.

TO THE ADVERTISERS.

The Evening News Review has the largest bona fide PAID daily circulation of any paper published in East Liverpool, and the largest circulation in Wellsville of any daily paper published in East Liverpool. Keen witted and wide awake business men and advertisers will make note of these facts.

HARRY PALMER,
Owner and Manager.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

LOCAL BREVITIES

Today is big pay.

The street force are today cleaning the principal streets.

Sol Whit will leave this evening for a business trip to New York.

Joseph Eberling, of Calcutta road, this morning sold a valuable running horse.

Mrs. Eliza J. Stapleton, who has been seriously ill at her home in Sixth street, is much improved.

Mrs. M. K. Zimmerman is ill at her home in Market street, suffering from the effects of a severe cold.

A number of young people from the city will Tuesday evening attend a dance to be given in Wellsville.

It is rumored that a prominent business man of this city will in the near future wed a Wellsville society lady.

Mrs. Emma Hanlon, of Seventh street, has returned from England, where she spent the summer visiting friends.

This morning a dozen white poplar trees were planted in the city squares. The trees were brought here from Carroll county.

Nancy Allison yesterday was given judgment in the court of Squire Hill against Fred Stark for \$39, claimed due for board and lodging.

The street force are today hauling cinders and filling holes in the road to East End. The thoroughfare will be put in the best possible condition for winter.

Mrs. Hazel Hitchcock, daughter of Professor and Mrs. O. S. Reed, left this morning for her home in St. Louis. She has been spending several months in the city.

The Bachelor Girls will entertain their married lady friends at the home of Miss Minnie Thompson next Thursday afternoon. The hours are from 2:30 until 5:30 o'clock.

The work of cleaning the fire station has been completed. Since the wood work has been cleaned and the stove varnished the appearance of the place is one of neatness.

The funeral of Miss Johnson will take place tomorrow afternoon at 2 o'clock from her late residence in Thompson avenue, Professor Reed officiating. Interment at Riverview.

Much freight was handled at the depot yesterday, and during the day many cars were loaded and sent out. The receipts were very large, and the warehouse is now cramped for room.

All the morning trains were late today, but the early western train was delayed by heavy express business. When the Cleveland train left the Second street station it was 25 minutes late.

Miss Belle Jones last evening at her home in Third street very pleasantly entertained. Guests to the number of 60 were present and spent a very delightful evening in music and dancing.

While there are several cases of diphtheria in Wellsville there is not one case in this city and the health authorities here are taking every precaution to prevent the disease from getting a start here.

The clerical force at the freight depot are now busily engaged in closing their reports for the business handled during the month of October. It is thought the work will be completed by next Thursday.

The papers of Canton state that the appraisement of government property in the hands of the Eighth regiment amounted to \$52,000. Colonel Hard, according to a Wooster paper, says the appraisement will not exceed \$10,000.

There is a great deal of complaint from motormen and patrons of the street car line because the company do not keep glass in the windows and doors of cars. When a window is broken it is usually several weeks before it is repaired, causing passengers to feel more cold than they desire.

BIG VOLUME OF TRADE

Dun's Review Noted It to Be the Largest in Any Month, Except December, 1892.

NEW YORK, Nov. 12.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part: The country has safely passed the trial of "off year" elections. Before this election everything, except political uncertainties, favored business enlargement. The volume of trade has been the greatest ever known in any month, except December, 1892. The record on November thus far shows clearings 10.4 per cent larger than last year, and 9.3 per cent larger than in 1892. The railroad earnings in October have been 5.2 per cent larger than last year, and 8 per cent larger than in 1892.

Foreign trade shows an increase of 20 per cent in October in exports, with 38 per cent in exports from New York last week, while imports showed a gain of only 22 per cent in October and credits against foreign bankers were piling up at an inconvenient rate. There was and is absolutely no anxiety about the currency, and the treasury is only too strong.

Wheat declined nearly 1 cent, but recovered all the loss.

Corn has but slightly changed in price.

Iron production Nov. 1 was 228,935 tons weekly, against 215,635 tons Oct. 1, and a decrease is seen of 35,241 tons in stocks unsold outside the holdings of the great steel companies, indicating an actual consumption of 1,019,646 tons in October, about 283 tons daily greater than the largest ever shown in any previous month on record. The export demand is beyond all dreams.

Wool sales for the past week were only 4,735,000 pounds at the three chief eastern markets, and were secured by concessions at all markets as last week, making 18,234,900 pounds, against 16,652,900 for the same two weeks last year and 12,389,600 for the same weeks in 1892. Many holders are refusing to abate their prices, though large manufacturers bid below current market prices because of their uncertainty in regard to the demand for woolen goods, which has somewhat improved and yet not greatly. It is growing in the minds of holders of wool at the east that the supply of foreign and domestic wool on hand is much greater than has heretofore been supposed.

Failures for the week have been 211 in the United States against 291 last year, and 26 in Canada against 24 last year.

BANQUET TO MILES.

It Rivalled the Affair Given to the President Last Year In New York.
Some of the Guests.

NEW YORK, Nov. 12.—The complimentary banquet given to Major General Nelson A. Miles, commanding the United States army, at the Waldorf-Astoria was a brilliant affair, rivaling the one given to the president last year by the merchants and manufacturers of the country.

Among those who sat at the guest's table, presided over by Joseph H. Choate, were Major General Nelson A. Miles, at his right, and Rear Admiral Henry Erben, at his left, Governor Roger Q. Wolcott of Massachusetts, Governor-elect Theodore Roosevelt, Governor Asa A. Bushnell of Ohio, Major General Daniel E. Sickles, Hon. Benjamin F. Tracy, ex Governor Levi P. Morton, Rev. Dr. A. E. Kittridge, Captain Arthur Paget, R. N., Rev. Dr. J. O. Wilson, Governor Daniel H. Hastings of Pennsylvania, Major General O. O. Howard, Hon. Seth Low, Rev. Dr. Henry Van Dyke, Hon. Chauncey M. Depew, Hon. William J. Sewell, Governor Lloyd Lowndes of Maryland and Rev. Dr. G. R. Van De Water.

A letter from President McKinley was read.

GENERAL WADE SATISFIED.

He Thinks the Spanish Are Acting Fair as to Evacuation.

WASHINGTON, Nov. 12.—The following cablegram from General Wade, chairman of the Cuban evacuation commission, was read at the cabinet meeting:

"HAVANA, Nov. 18.
General Corbin, for Information of the President.

"From our arrival Spanish authorities here have, I believe, carried out terms of evacuation to the best of their ability. Ships arriving have been promptly and fully loaded and dispatched, about 20,000 men having gone. Lack of transportation and money to pay troops is giving serious trouble. Governor general seems able to deal with conditions as they arise. Accounts from here are so sensational I desire to inform you of true state of agairs."

"WADE, Major General."

TROOPS CONTINUE SOUTHWARD.

Fifteenth Pennsylvania Starts, Fourteenth and Ninth Ohio Battalion to Go.

CAMP MEADE, MIDDLETOWN, Pa., Nov. 12.—The Fifteenth Pennsylvania regiment struck its tents at Camp Meade and moved southward. Each man had three days travel rations and five days field rations. The long train was made up of three sections, the last one having a hospital car attached. The last section of the Second Tennessee regiment did not get away until a late hour Thursday night. While at the station some of the privates attacked an officer and one of them was stabbed.

The Fourteenth Pennsylvania and Ninth Ohio battalion are expected to leave on Sunday for Summerville, S. C.

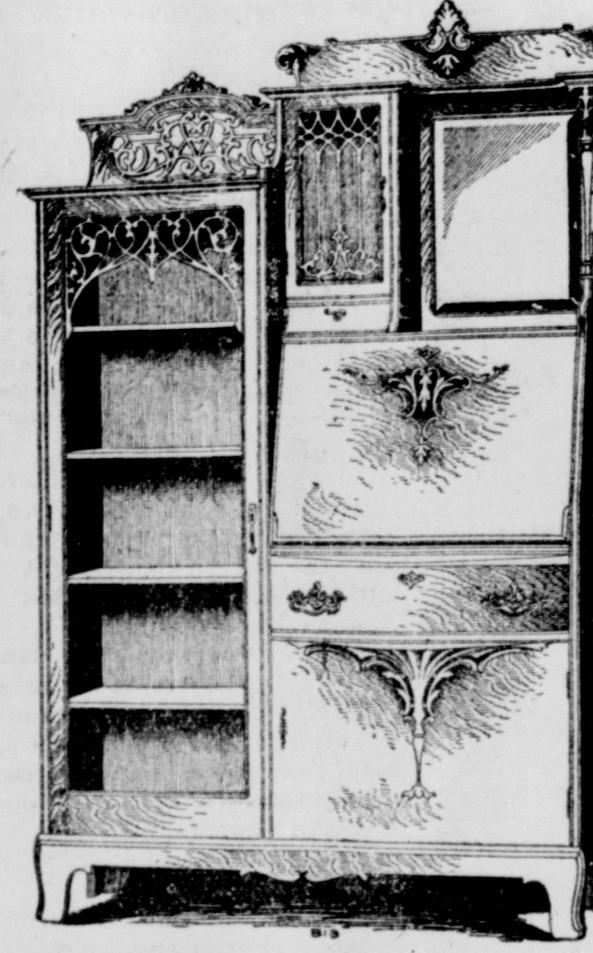

When the Second Tennessee regiment passed through here two girls from Middletown were discovered attired in

There's Little Reason

why your home should not be neatly and comfortably furnished, considering the cost of housefurnishings.

You can furnish an entire house for less money than it cost to fit out two or three rooms ten years ago.

A look through our store will convince you of this fact. The better class of furniture is now sold at about the prices you would formerly have paid for the common grade. The new patterns are sure to please you, as will the prices also.

This cut represents the latest pattern in combination cabinets, a book case and secretary combined. We have a variety of styles in oak and mahogany finishes. They make one of the most useful pieces of household furniture, and are very handsome.

Carpets, Rugs, Druggets, Etc

We never sold so much carpets in the fall as this season. If you have not got yours yet now is a good time. The new fall patterns will please you.

FRANK CROOK,

soldier uniform on the train. They were going to follow their soldier lovers to camp, but they were arrested and placed in jail.

JUDGE DAY HAS A COLD.

Spanish Likely to Have the Peace Conference Postponed From Today Until Monday.

PARIS, Nov. 12.—It is now generally understood that the joint session of the peace commissions, which was arranged for today, will be postponed until Monday next.

At the joint session of Wednesday last it was agreed that the session fixed for today might be postponed until Monday if the Spanish commissioners found themselves unable to prepare a reply for presentation on Saturday, and it now appears the Spaniards found it necessary to send to Madrid for certain records which cannot reach Paris before today and, therefore, their proper embodiment into the Spanish memorandum cannot be accomplished before Monday.

The next communication from the Spanish commissioners will deal with the rights of either commission to discuss Spanish sovereignty over the Philippine Islands and with the American contention that the retention of public moneys and customs collections at Manila is justified by the fact of the military occupation of the place by the American forces and warranted by the protocol, even if faulty, as claimed by Spain, because such action commenced after the suspension of hostilities.

There is no truth in the statement printed here that the Spaniards have decided to refuse entirely at the next session to discuss the cession of the Philippine Islands.

Judge Day, president of the American commission, is suffering from a cold and had a slight chill. Therefore, by his physician's advice, he was resting quietly Friday.

The judge's indisposition was in the nature of an attack of the grip, from which all the commissioners have suffered more or less, but he expected to be able to attend to business today.

CLINGS TO HIS FIGURES.

Babcock Still Claims Republicans Will Control the House.

WASHINGTON, Nov. 12.—Chairman Babcock of the Republican congressional committee, said that advice received by the committee made no change in the political complexion of the next house of representatives. The Republicans, he said, would have 185 members certainly, giving them a clear majority of 13.

Secretary Kerr of the Democratic congressional committee has gone to Pennsylvania. No additional statement from him, therefore, could be obtained.

THE KAISER WILL NOT LAND.

German Foreign Office's Statement as to Visit to Spain.

BERLIN, Nov. 12.—The foreign office disposed of the various deductions drawn from the emperor's proposed call at the port of Cadiz by saying that his majesty will not land, but will remain on board the yacht Hohenzollern, and thus on German soil.

Expect the Kaiser at Cartagena.

MADRID, Nov. 12.—The Duke Almodovar de Rio, minister of foreign affairs, received a telegram announcing that Emperor William would arrive at Cartagena on Nov. 19. The authorities were apparently greatly surprised when they heard of the visit, and it is probable that they had no previous notice of it.

FOR KILLING MISSIONARIES.

Thirteen Murderers of Americans Hung in West Africa.

LONDON, Nov. 12.—The mails from Sierra Leone, West Africa, brought news of the hanging at Kwellu of 13 murderers of American missionaries, members of the United Brotherhood of Christ, in the Sherbro district of Sierra Leone, last May.

TURKEY FINALLY GRANTED OUR REQUEST.

CONSTANTINOPLE, Nov. 12.—After efforts lasting three years, upon the part of the United States legation here, the United States minister, Mr. Oscar Straus, has succeeded in obtaining an irade authorizing the granting of an exequatur to the United States consul at Erzeroum.

WEATHER FORECAST.

Warmer, with increasing cloudiness; winds shifting to fresh northwest.

BRIEF PITHY PARAGRAPHS.

Four men were killed by a fire and explosion at Hanover, Mass.

Six of the men engaged in the holdup of the Great Northern coast train near Fergus Falls were captured at Moorehead, Minn.

United States cruiser Newark arrived at New York with Admiral Schley, who had the report of the Porto Rican commission on evacuation.

Charles Charleston, aged about 35, committed suicide at Paducah, Ky., on Broadway, by cutting his throat with a pocketknife. His home was in Moundsville, Pa.

Dixon was awarded the fight over Sullivan in New York. Sullivan's brother jumped into the ring, and this lost the decision, although Dixon had the better of his opponent.

Many persons have been poisoned by drinking the water of Roaring Fork river, Colo., soiled by the new concentrators for the treatment of zinc ore, at Aspen. A child died.

A homeless Pole, named Schneider, was given a night's lodgings in a London bakehouse. He murdered the baker's German assistant and threw him inside the oven. In the morning, he tried to murder and wounded the baker, whose cries brought the police.
